"1 - OPERAÇÕES

a - Aproximadamente às 20:00P do dia 16 Dez 77 quando de regresso para Salvador, por ocasião do estabelecimento de contato/rádio com Vitória para mensagem de posição "Itapemirim" (entrada / da terminal VT) fomos informados pelo controlador de Vitória que havia um objeto voador não identificado, aproximadamente a 20 milhas da vertical de VT e $\pm$ a 20.000 pés de altitude (dado esse informado talvez por um BOEING). O aparelho estranho, segundo informações do controlador, que observava com binóculos com mais sete / pessoas, tinha características semelhantes a uma "Nave Mãe" e estava rodeada de outras menores que se encontravam ao seu redor e faziam curvas de 180 graus, enquanto a nave maior permanecia quase que parada, com luminosidade e tamanho variáveis. A nave maior, // segundo o informante, apresentava as vezes uma ligeira cauda e era/ um espetáculo belíssimo e muito raro. Informou também que foi comunicado ao Centro Brasília para tentar estabelecer contato radar.

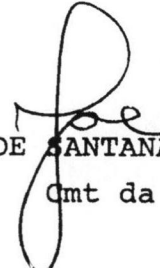

Quanto aos tripulantes do nosso avião só foi possível ver uma enorme bola, cor das estrelas, porém muito maior, que aumentava e diminuía de tamanho e brilho. A visibilidade da ANV estava limitada devido nuvens esparsas que não permitiram uma observação regular do fenômeno.

Ernesto Geisel
Office of the President
Brasilia, BRAZIL

Dear Mr. Geisel,

I am writing to you because I am concerned that the Truth of the peaceful purposes of the Brothers and Sisters from other planets who are visiting here, reaches each and every person of the Earth. It is known that these people have come here only to help us, and so we, as a planet, I feel, should be greeting them with open arms.

These people from other planets within our solar system, have never known wars, living always in harmony with All, and all of nature. Since they have never strayed from the precious teachings Jesus brought to this planet some 2000 years ago, they have learned many things we have little or no conception of. You see, we have always gone in the vicious circle of warring against one another, whereas they have used the intelligence given them by the Creator, for creative purposes only. That is how they have gained a deeper understanding of the laws of nature and Life itself. They have come here to help us to change our destructive war-like attitude, and realize our place as individuals, and as a planet, in the vast Cosmos of which we are also a part.

In 1952 Mr. George Adamski, met with a most noble and benevolent man from Venus. This took place on November 20th, in California's Mojave Desert, in broad daylight, in the presence of witnesses; that the man stepped off of one of the craft and met with Mr. Adamski. He had a tremendous understanding of the Universe and the Laws that govern it, and he told Mr. Adamski many things, including a warning about the nuclear energy we are using, and that it is extremely more dangerous than we realize. As the energy itself, goes completely against the laws of nature, so too does it go against the Earth. Not only causing radiation, but also gigantic blows against the planet itself. We can be thankful to the Brothers for this knowledge, but how far have we come in stopping it? Today we are still, and even more greatly than before, involved with nuclear energy. It is up to each and every one of us to do our part in putting a halt to it. It is each persons responsibility to see that the natural lifetime of the beautiful Home we share, is insured.

Mr. Adamski, the True Pioneer in the field of extra-terrestrial visitations, dedicated his life to sharing the information he had from, and about the Brothers, with people from all walks of life. Besides the United States government, he was able to reach 18 other governments from around the world, with the precious information. He also worked closely with President John F. Kennedy, and received the Golden Peace Medallion from Pope John the XXIII, for his great humanitarian efforts of educating the world to the Truth of the Brothers.

Before his passing on in 1965, Mr. Adamski designated Charlotte Blob to carry on the work, as she is doing today. She is the Director of the UFO Education Center, and is dedicated selflessly to bringing this information to the attention of all people of the Earth. At the present there are Headquarters in Appleton, Wisconsin (USA), Valley Center, California (USA), and a Science of Life School in Guadalajara, Mexico.

I appreciate the time you have taken to read this information. I hope that you are able to feel the importance of sharing it with the people of Brazil, with a warm and friendly attitude towards our Brothers and Sisters from Space. Truly the smallest needless fear towards these people must be erased, and replaced with an openness and joyful feeling towards their presence.

If you seek further information, please feel free to write to the UFO Education Center, as this is but a small part of what is available. Perhaps also it would be interesting for you to know that our future President-Jimmy Carter of the United States, and Lopez Portillo of Mexico, strongly support the Brothers and their efforts to help us of Earth; and also Charlotte Blob, as the True Teacher of this Field.

Best wishes to you....And may your actions be always guided by your Heart...for the good of Mankind.

Most Sincerely,

Ann Schwinn

What is UFO Education Center?

ALL RIGHTS RESERVED
UFO Education Center, Inc.
1424 E. Coolidge Ave.
Appleton, WI. 54911

UFO EDUCATION CENTER is a voluntary, non-profit effort to educate and encourage - - through lectures, classes, and publications - - the growing public awareness of Peaceful, Extraterrestrial Visitations. Furthermore, it is dedicated to gather, investigate, and correlate evidence of UFO reports from all Law Enforcement Agencies and the public at-large.

UFO EDUCATION CENTER firmly supports the evidence and experiences of the great Pioneer of this Field: George Adamski. A Teacher, Philosopher, and amateur astronomer, he was a man who worked directly with President John F. Kennedy; ... the first to present his remarkable telescopic evidence to the U.S. Senate and Congress; ... the only person speaking in this Field ever to receive the Golden Medallion from Pope John XXIII for his humanitarian efforts; ... honored by eighteen governments around the world.

The individual Associates of UFO EDUCATION CENTER are teachers and lecturers specifically in this Subject, at Universities, Colleges, and Schools in the U.S.A. and other countries. (Headquarters in Valley Center, Calif.; Appleton, Wis.; and Guadalajara, Mexico) All are deeply grateful for the selfless, humanitarian work of Charlotte Blob, internationally-known University Lecturer, who worked and lectured with George Adamski until he passed-on in April, 1965. Mr. Adamski designated Charlotte Blob as his successor, in carrying forward this precious information to the public. In addition to universities, she has presented her information at U.S. Air Force Bases, government installations, schools, and on national network Radio and TV.

Mr. Thomas H. Heiman, an Associate of UFO EDUCATION CENTER, is a Yale Graduate, who was awarded the first Teaching Credential in the Field of UFO's and Related Technologies in the USA. Recently, he initiated four separate Courses in the Subject in Community College and Adult School Districts of San Diego County, California.

Miss Catherine A. Reid, also an Associate of UFO EDUCATION CENTER, is a recognized Teacher in this Field throughout the State of Wisconsin and the Midwest. She, too, has lectured widely at Universities, Schools, and conducted Courses at N.E. Wisconsin Technical Institute.

Anyone wishing to arrange Lectures should contact the Appleton headquarters as listed below. These lectures include AUTHENTIC, CLOSE-UP 8-mm MOVIE FOOTAGE, taken in color in broad daylight on several occasions by George Adamski. These were shown to NASA and the Pentagon at their request. Also included are SLIDES of the finest, most highly-resolved telescopic photos of these Peaceful, Extraterrestrial Spacecraft ever taken---- taken primarily by George Adamski.

Charlotte Blob publishes COSMIC NEWSLETTER, beautifully prepared, concerning recent scientific developments, sightings, and Philosophy. Catherine Reid publishes the Midwest Edition of Cosmic Newsletter.

The Associates of UFO EDUCATION CENTER wish to do more than simply gather data. They seek to share the tremendous evidence of George Adamski, and their own FIRST-HAND EXPERIENCES WITH THESE SPACECRAFT.

"AN OVERTURNED SOUP PLATE IN THE SKY"

One of the photos architect Luyo Vega made near his home at Lima

—UPI Photo

Peruvian snaps a UFO-- 'shaped like soup plate'

United Press

LIMA (Peru) — A Lima architect said Monday he stood 20 yards from a flying saucer "shaped like an overturned soup plate," photographed the object and offered his pictures as proof.

"I never thought I would see a flying saucer, much less photograph one," said Hugo Luyo Vega. "I think, using the finest camera equipment in the world, I would never be able to do it again without the same extraordinary luck that I had last Friday."

Hugo Luyo offered both his pictures and the word of a client he had taken to the Lima countryside in search of a home site as proof of the event. He said he and his client had driven about 54 miles inland along the Rimac River when they came to a stop near a valley surrounded by tall hills.

In the midst of their survey, he said, "my client, obviously excited, told me he saw a shining object in the

bottom of the valley that was advancing towards us extremely slowly.

"The car was not far away. I ran back for my camera, because in that fraction of a second I thought I, too, had seen something interesting.

"When I pointed my camera and took the picture, the object was less than 50 yards away from us and about 20 yards off the ground. "Suddenly, the object changed direction, headed toward the East and increased its speed. It rose off the ground as if trying to avoid some high tension wires that came down from the top of one of the hills and crossed the valley, and disappeared from view."

Hugo Luyo said the object "was the color of burnished silver. It was shaped like an overturned soup plate with a cupola on the top.

"At the very top of the cupola, there was a round object giving off a fixed sky-blue light. Lower on the cu-

pola, we could see a row of small windows like port holes in a ship."

On the bottom of the object, he said, was what appeared to be "the propulsive force of the object . . . a dark red throbbing light that was aimed toward the ground from a sort of turbine in the middle of the up-sidedown plate. Near the turbine-like part, we could see protuberances like half-eggs."

The architect said only about 30 seconds elapsed from the time they spotted the object until it disappeared.

"But from the minute that I held in my hand the Polaroid photograph, I had proof that what my client and I saw was not an optical illusion," Hugo Luyo said.

"In the middle of the three-by-four-inch photograph, we could see the flying saucer, even the row of rounded windows," he said. "After this experience, I am convinced that flying saucers really exist. So is my client."

NOTE: This photo, taken on Oct. 19, 1973, is identical to the ones taken by George Adamski, Dec. 13, 1952. In addition, these spacecraft all had four portholes showing on each side.

It is equally identical to spacecraft photographed by C. Allingham of Scotland in 1954, and by S. Darbishire of England in 1954.

The same day that this photo was taken by Mr. Vega in Peru--- Oct. 19, 1973--- Charlotte Blobe was showing this photo (below) taken by Mr. Adamski. in an interview over NBC television in San Diego, Calif.

SPACECRAFT FROM OTHER PLANETS

An Explanation of Photographs (on attached Sheet):

#1, #6, and #10 - Three of a series of photographs taken by Mr. George Adamski, beginning at 9 a.m., December 13, 1952 - through his six-inch telescope. This is the "Venusian Scout Ship". About 35 feet in diameter, this little spacecraft was made of translucent metal. On photo #1 is shown the large magnifying lens and the three-sphered landing gear, as well as the housing which contains the craft's main machinery underneath the ship. Photo #6 shows the portholes, spherical landing-gear, lens, and light on top of the cabin. The white line around the base of the dome is a form of power coil. #10 gives a detailed view of one of the three landing spheres by means of which the saucer can land in any direction. This simple ingenious arrangement also facilitates maintenance on the ground or in the stowage decks of great carrier ships. (Photographs published in the books INSIDE THE SPACE SHIPS and FLYING SAUCERS HAVE LANDED by George Adamski.)

NOTE: The first reported landing of a spacecraft in this century was made by a man from Cardiff, reported at Caerphilly, Wales, May 18, 1909. Mr. Lithbridge says he was walking through the mountains when he came across a large cylindrical construction parked beside a lonely road. Within a few minutes after the men inside had seen him, the machine rose in the air and flew away. It had no wings and made little noise. A depression was found in the grass at the place he indicated. - - - In ancient days these craft have been referred to as 'Chariots of Fire', 'Sky Pearls', 'Silvery Bells', 'Wheels within Wheels', 'Cars Celestial' possessing the radiance of fire', to list only a few.

#2, #3, and #11 - From a series of four photographs taken by George Adamski on March 5, 1951 at 10:30 a.m. This shows the large 'Mother-Carrier and Laboratory' Craft (often described as 'cigar-shaped') releasing balls of fire or puffs of smoke. On this series one can see the 'Carrier Craft' releasing the 'Scout craft', one-by-one, until six are in view. The scouts moved down a sloping rail, and through air-locks in the bottom of the ship, out into space.

NOTE: This type of craft has often been mentioned in Biblical and other ancient records, and even modern times as: 'Pillars of Fire', 'Flying Scrolls', 'Glorious Luminous Crosses in the Sky', 'Candles hanging in the Heavens', 'Arks with doves that flew to their windows'. They have been seen hovering in the sky, turning on end, swaying gently back-and-forth, and disappearing into the Heavens in seconds, turning many times the brilliance of bright gold.

#9 - This photograph was taken by Stephen Darbishire, age 13, son of a Coniston Doctor. Stephen and his cousin Adrian, age 8, witnessed this 'scout' descend at a tremendous speed, and disappear behind a hillock. It appeared again, tipped-up on its side, and then shot-up into the sky, making a swishing noise as it did so. (At Coniston, England, Feb. 15, 1954 at 11 a.m. Stephen described it as solid, metallic, with a dome, portholes, and three bumps underneath.

#13 - These two Orthographic Projections, made by Leonard Cramp (M.I.Mech.E.) show the S. Darbishire photograph (top) and the George Adamski photograph (bottom) to be identical objects with identical proportions. (From the book: Space, Gravity, and The Flying Saucer by L. Cramp). This graphic comparison proves that both photos, taken 1½ yrs. apart and in different countries, are authentic. NOTE: (Testimony of experts supporting G. Adamski's photographs):

John Ford (renowned film director) "These are no models...these are very large objects shot through what I should imagine to be a six-inch lens."

Joe Mansour (professional photographer of model aircraft) "...Definitely not models, but large objects seen through a tele-photo lens."

#4, #8, #12 - This photographic series includes several additional photos not shown here. These were taken by Mr. Cedric Allingham, of Scotland, on Feb. 18, 1954, at approx. 3:45 p.m. This shows the 'Martian-type' of Space craft making its final descent preparatory to landing. #12 is the first photo to be taken of a 'Space Craft' actually on the ground. The revolving dome appeared to be shaped from one sheet of metal. Allingham estimated the total diameter at about 50' and the height approx. 20'. The portholes and landing gear are clearly shown. The man (shown in photo #8) who came out of this craft, by means of sign language, identified himself to Mr. Allingham as coming from the planet Mars. He was about 6' and wore a single-piece garment. A double harness, which can be seen on the photo served some function in connection with a detachable headpiece. The Martian had a face of a very deep tan and he smiled with both his eyes and his lips.

#5 - This photograph is a slide taken from an 8 mm, color film taken by Mrs. M. Rodeffer of Silver Springs, Maryland, on February 26, 1965, in the presence of George Adamski. This film shows the Scout Craft approx. 75 ft. from the camera, and hovering approx. 75 ft. above the grounds of Mrs. Rodeffer's home. As the Craft sways back-and-forth, it 'appears' to change its shape. This effect is caused by the varying amounts of force-field surrounding the Craft, and thus, distorting the visual appearance. The film also shows the three-sphered landing gear lowering and retracting. George Adamski was at the home of Mrs. Rodeffer the day the film was taken, and he had alerted her to seizing her camera and getting outside, when the Craft first appeared. This is the "Venusian Scout Craft", which was photographed over 12 years earlier by Mr. Adamski at Palomar Gardens, California.

#14 - On November 20, 1952 George Adamski met with a man who came from another planet on the Scout ship shown in photos #1, #6, and #10 (described below). In that meeting the friendly visitor requested - and received - an exposed photographic plate from Mr. Adamski. On Dec. 13, 1952, immediately after photos #1, #6, and #10 were taken, the Scout ship came to within 100 ft. of Mr. Adamski and several witnesses. A porthole opened, and the same man, who met Mr. Adamski on November 20, dropped the photo-plate to the ground. Upon development, the plate (#14) revealed symbols not of this planet. Dr. Basil Van den Berg, an engineer from South Africa, deciphered these symbols after years of dedicated study, and, thereby, built a small, electromagnetic (free-energy) motor.

#15 - 20,000 year-old Petroglyphs from Brazil - In 1963 the world-famous archaeologist, Prof. Marcel Homet, published his researches into the ancient civilizations of Peru and Brazil (book title: Sons of the Sun). He discovered hundreds of remarkable petroglyphs, which he believed to be made approx. 20,000 years ago by a race who were in contact with the Space People. A careful study of this and of photo #14 will reveal many identical symbols, some in the same order, some differently placed. Prof. Homet has stated: "I have never found (Mr.) Adamski to be untruthful."

MEETING WITH A MAN FROM VENUS:

On November 20, 1952 Mr. George Adamski, in the presence of six witnesses, who later signed affidavits to this event, met with a Man from Venus, whose Scout Craft landed in the Mojave Desert. The full account of this meeting is given in the book: FLYING SAUCERS HAVE LANDED (Book 2, pp.171-230). The following is an excerpt of Mr. Adamski's first impression of this Man:

"He was about five feet, six inches in height, and I would estimate him to be about 28 years of age, although he could have been much older...His hair was sandy in colour, and hung in beautiful waves to his shoulders, glistening more beautifully than any woman's I have ever seen. The beauty of his form surpassed anything I had ever seen. And the pleasantness of his face freed me of all thought of my personal self. I felt like a little child in the presence of one with great wisdom and much love, and I became very humble within myself...for from him was radiating a feeling of Infinite Understanding and Kindness, with Supreme Humility."

.....George Adamski describing the Man from Venus.

Throughout Earth's history, from ancient to modern times, there are recorded sightings of 'unknown' and 'very Beautiful Craft' which maneuvered through the Skies but were not of Earth origin. These Wondrous Craft were seen by peoples of all civilizations, and have been described in word-pictures best suited to the understanding of the time.

It has been demonstrated again and again that the intentions of the People on these Craft are of Friendship and Nobility...Yet, man on Earth still has to overcome that which lies within his mind (not his heart): the fear of the unknown. As man grows to a feeling of Brotherhood - seeing one another here on this planet not as strangers but as brothers everywhere - more and more landings and contacts by these Visitors can be made with persons in all walks of life. Man on Earth has been given the Gift of Choice. He can choose War - or Peace. He can choose Fear - or Faith and Courage to stand up for that which means the Betterment of all Mankind. He can work for self each day - or he can work for all Humanity - and all of the Cosmos forever.

Objeto luminoso está causando medo no Maranhão

"Eu e mais cerca de 100 pessoas fomos despertados por um ponto luminoso que se encontrava à baixa altura, ao lado do ferry boat, no porto do Itauna, irradiando focos de luzes. O aparelho estranho ficou visível por uns 35 minutos e depois se deslocou rápido". Assim descreveu o deputado estadual Celso Coutinho, líder do Governo na Assembléia Legislativa, o estranho corpo que vem sobrevoando a baixada maranhense e a ilha de São Luís, colocando em estado de expectativa e sobressalto a população rural, impedindo, pelo temor, que pescadores saiam à noite para os rios e braços de mar. Os lavradores também temem ser vítimas da luz que queima e adoce a quem ela atinge, segundo sua concepção.

Celso Coutinho, no entanto, esclarece que ainda não houve nenhum caso de pessoas queimadas ou feridas pela luz azulada do objeto, conforme foi pregalado, mas observa:

— Existem pescadores e lavradores acometidos de crise nervosa nos municípios de Perimirim São Bento, Santa Helena, Pinheiro, Guimarães, Bequimão.

O Coordenador de Segurança do Estado, advogado João Dominici, estima que 50 por cento da população da baixada maranhense (11 Municípios) já viram o estranho objeto que é visível também de dia.

O Brasil voltou a ver as proezas do disco voador

Quinta-feira, por volta das 20 horas, foi visto por diversas pessoas na praia de Atafona, em São João da Barra, um disco voador na direção oeste do mar, permanecendo no espaço cerca de 10 minutos. Eis alguns depoimentos:

Júlio Silva, proprietário de um supermercado em Atafona, disse:

"Tenho 72 anos de idade e pela primeira vez vi um disco voador. É uma coisa extraordinária. É feito uma bola. Na parte de cima uma luz mais clara em tom vermelho emite fortes reflexos".

Dona Irene, mulher do proprietário do supermercado, conta como viu:

"A altura do objeto para o mar era de uns cinco metros. A primeira vez ele surgiu às 20 e 10, permanecendo no espaço durante dois minutos. Estava localizado mais para o mar e quando iluminava clareava as nuvens encobertas pela escuridão ao longo do horizonte. Pela segunda vez surgiu e ficou no espaço durante cinco minutos. Era uma luz linda e desapareceu no mesmo lugar".

Rosimere Ferreira, saiu correndo de sua casa (que fica de frente para o mar) e ficou admirando.

"Era uma estrela maior que as outras, mais brilhante, com quatro pontos. Em sua volta acendia uma luz vermelha. A grande estrela era prateada e quando acendia a luz vermelha provocava um forte reflexo, iluminando todo o céu".

Ana Augusta Rodrigues, folclorista e figura conceituada em Atafona, afirmou:

"Minha fidelidade com relação aos discos voadores continua intacta. Acredito que a radioatividade da praia de Atafona tenha alguma influência na atração desses objetos para a nossa região. Já tive a oportunidade de ver um disco voador há alguns anos passados, aqui mesmo em Atafona. Isso é uma questão de crença. Por que negar a realidade? Por que negar a possibilidade de outros planetas terem vida? Por que motivo o privilégio da vida só para a terra?"

Espectadores situados na praia de Grusai esticaram os pescoços e gritaram: "Lá vai ele". Depois começaram a aplaudir.

Outros insistiam em afirmar que se tratava de uma bola de fogo, enquanto que a maioria, com os olhos fixos no objeto, discutia sobre o ponto exato em que ele surgiu.

O clarão provocado pelo objeto permitia uma visão nítida das nuvens, que apresentava cor azul-rosa pálido.

O disco voador desapareceu rápido deixando todos perplexos, sendo que a maioria dos espectadores permaneceu por mais algum tempo aguardando a sua volta, que não ocorreu.
