CONFIDENTIAL

Dear

This letter may be a temporary disappointment to you, but I feel that for your own benefit it would be the right to postpone your Address to our House of Lords All Party UFO Study Group.

The last 2 ~~minutes~~ ^{meetings} here were a disaster, luckily only English people. The first of these 2 meetings had an audience of only 3 and the last one none at all.

I went and saw the chap in the office where we reserve committee rooms for our meetings. They also look after the Government Committee meetings and EEC ones. That is the cause of the trouble, there are now a lot more Government Committee meetings than there used to be. Also, a large number of the UFO group serve on these government committees, so that uses up our audience!

I do hope that you understand. I think it would be awful if you paid return air fares and hotel expenses, then got no audience for your Address. That would be really rude on our part.
