

20 Dec 80

Visited last known location of iron mass
and confirmed its continued presence there.
The owner of the property is:

Mr. Douglas Heyland (pronounced Highland)
RR #3 Tipton
phone 821-3372.

The house is on Scrivens Road. To get there,
go out Highway 31, through Hartum, Asgood,
Smith, Gloucester and Greeley. Turn right
on Scrivens Road and house is on left in the
"Y" of the intersection. If you go as far as
the crossroad to Tipton, you have gone
about one mile too far.

Mr. Heyland is not willing to part with
the metal. He says it is attractive in an
ornamental sense and enhances his property.
He has no objection to small pieces being
broken off for scientific analysis.

He was already aware of the history of
this metal, and he has a file on it.

I called Mr. Hathaway (Surge) 21 Dec. 80
and informed him of the above. He has
promised me a copy of analysis reports.
