Dear Sirs:

On this date about 2:45 P.M. we were traveling west on route 322 south of Du Bois, Pa. near the State Police Barracks when we noticed in the sky a star like light object above a 4 engine delta-winged aircraft, we believe was a B-52 Stratofortress bomber. We stopped the car and got out to see better. We saw the object circled and it was traveling fast. Then the jet ~~[illegible]~~ object and at appeared to us

Yours truly,
Mr. & Mrs. [redacted]

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 118—Part II.)

An unidentified object was sighted at 1850 CST, 27 June 1952, by 2nd Lt. KERWIN F. KELLY, A02221936, pilot, 380th Bomb Squadron, 310th Bomb Wing, Forbes AFB, Topeka, Kansas.

Observer and his wife were standing on the corner of 21st street and High Avenue, on the South outskirts, city of Topeka, Kansas. Both observed the object directly South of their position, on angle of 15° above the horizon, approximately 10 miles distant.

The object was a brilliant red pulsating light. The shape varied from circular to oval in the vertical dimension as it pulsated. Observer could not estimate size.

The object did not move, made no sound, and left no trail. It was observed for 5 minutes as timed by observer's watch, and disappeared instantly without moving from position and without leaving a trace.

Weather was CAVU, late afternoon daylight.

SUBJECT: Unidentified Flying Object Reportedly Sighted, Topeka, Kansas, 1830 hours, 27 June 1952

AF 4279615

DETAILS:

1. On 1 July 1952, 2nd Lt. KENNETH F. KELLY, AO 2221938, 380th Bombardment Squadron, Forbes AFB, Kansas, furnished Special Agent Alfred F. Savage the following information concerning subject incidents.

a. At 1830 hours, 27 June 1952, KELLY and his wife were taking a walk near their home in Topeka, Kansas. When they reached the corner of 21st and High Streets, their attention was drawn to a bright red light, hovering in the air directly south of their location.

b. KELLY estimated that the object was approximately ten (10) miles away and at an angle of fifteen (15) degrees elevation above the horizon. He believed the size to be about two-hundred (200) ft in diameter.

c. The object was observed for five (5) minutes, and, during this time, it changed shape from circular to oval in a pulsating manner at an estimated rate of thirty (30) pulses per minute. It exhibited no movement other than the pulsating action and disappeared instantly "much like turning off an electric light." There was no smoke or vapor of any kind.

2. There were no known celestial phenomena which would account for the sighting and weather conditions were clear, with visibility of fifteen (15) miles.

3. Lt. KELLY is 22 years of age and has between 500 and 600 hours of flying time as a pilot.

AIR INTELLIGENCE INFORMATION REPORT

FROM (Name) Director of Intelligence 7uth Strat Recon Wing M, Forbes AFB, Topeka, Kansas	REPORT NO. V	PAGE 2 OF 3 PAGES

1. Description of object:

a. Size - unknown.

b. Color - very brilliant red light.

c. Number - one.

d. Formation - none.

e. Aerodynamic features - Light appeared circular and pulsating. Shape varied from circular to an oval with the longest dimension vertical; shape variations appeared to coincide with pulsations.

f. Trail or exhaust - none.

g. Propulsion system and speed - unknown.

h. Sound - none.

i. Maneuvers - none. Observers watched object, orientated between a smoke stack and a TV antenna. Object never moved.

j. Manner of disappearance - Light disappeared instantly, without moving from position and leaving no trace.

k. Unusual features - none.

2. a. Time sighted - 1850 CST, 27 June 1952.

b. Length of time observed - 5 minutes, timed by observer's watch.

3. Manner of observation - visual. Observer is B-29 pilot; total experience two years for a total of 580 hours flying time. His wife was with him and saw the same object.

4. a. Location of observers during sighting:

(1) Both observers were standing on the corner of 21st St. and Fillmore Ave. of Topeka, Kansas, facing due south.

b. Location of object with respect to observers:

(1) Distance - Lt. Kelly stated object appeared to be about 10 miles distant on an angle of 15° above horizon.

(2) Direction - 130°.

(3) Altitude - If distance and angle were correct, object would have been at approximately 3,696 feet.

5. Estimate of observer's reliability:

a. Veracity - good.

b. Skill and technical background - good.
