I have known the candidate(s) for 7 years months in my capacity as a UFO investigator
Je connais le(s) candidat(s) depuis 7 années mois en ma qualité de a UFO investigator

Here is my assessment of the *program of work* and the *ability of the candidate(s) to carry it out*.

Voici mon appréciation du *programme de travail* et de l'*aptitude du (des) candidat(s) à le mener à bien*.

The objective of this project is stated to be to determine the significance of the UFO phenomena to the modern human experience. The important questions in the study of such phenomena are "what are UFOs" and "where do they originate". To answer these questions requires thorough investigation of sighting reports in an effort to identify the true nature of each case. Study of large numbers of cases leads to identification of patterns of UFO activity which may lead to answers to these questions.

The possible value of knowledge gained from the proposed study is questioned as it is highly unlikely to assist in finding answers to the questions of prime importance noted above.

Based on my lengthy knowledge of this candidate and his investigative experience and background, I doubt his ability to conduct the proposed project in a thoroughly satisfactory manner.
