1187 Agincourt Road,
Ottawa 5, Ontario,
February 6, 1968

Mr Ed Schreyer, M.P.,
House of Commons,
Ottawa.

Dear Mr Schreyer:

I am writing to you because of your interest in the subject of Unidentified Flying Objects, as evidenced by the questions you have raised in the House on occasion.

I have recently written and published a book, titled Science, the Public and the UFO, the first Canadian book on this subject. It is a philosophical study of why science is unable to solve this enigma at this time, and why the public is not aware of many known facts. This book was written expressly to bring this information to the Canadian people.

Some literature about the book is enclosed, which has been distributed quite widely so far, in the hope that you may find the book of some value. If you do not choose to order a copy, then please refer to the copy which has recently been purchased by the Parliamentary Library. There is material in this book which could be the basis of some interesting questions in the House.

Yours very sincerely,

Arthur Bray
