

this is too lengthy to repeat here.

The Magnitude of the Problem

As well as being a scientific, military, intelligence and political problem, it is also of world-wide nature & scope. I have already given you indication of that fact.

- numbers of reports
- geographic locale
- waves of sightings.

slide C-3 - "Waves - year & place"

slide OFF. Studies have shown the reliability of the majority of witnesses - many of whom are military personnel, airline pilots, scientists, aircraft controllers, police officers, etc. - most of whom have a duty to report and are trained to observe accurately and to report in detail.
