Dear Mr. Bray:

During a chat with George Hathaway he mentioned that you might be able to supply some information on Wilbert Smith's work. I wonder if you could help with the following:

- (a) do you know of any records of tests on Smith's binding meters?
- (b) do you know what type of nylon line was used in these binding meters?
- (c) have you ever experimented with these binding meters or know of anyone who has?

I know this is an imposition on your time but I would appreciate any help you might be able to offer.

Sincerely,

Hugh Cochrane
