Dear Friends and Associates:

We have been asked, "what are your objectives at the Center for UFO Studies? What are you trying to accomplish?"

Our answer is, "we are seeking conclusive evidence which will provide the most probable explanations for the UFO Phenomenon. We are not trying to prove anything. We are seeking whatever we find. Using accepted scientific techniques and methodology, we are attempting to evaluate the overwhelming evidence of the many thousands of reports, following wherever the evidence leads us. Our other main objective is to be a reliable source of accurate and current information regarding the formal study of the UFO Phenomenon for those who seek it."

But....it is a strange and frustrating journey...and often lonely.

It is strange because of the nature of the evidence, which is reported worldwide in almost all languages and which often defies the laws of the physical world as we now understand them.

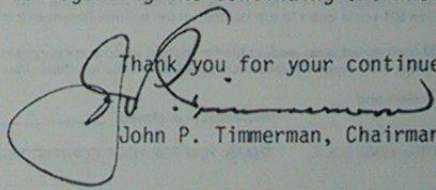

It is frustrating because only a very few curious minds are seriously examining the evidence and because only a very limited group of individuals is willing to help provide the funds for this potentially mind-expanding exploration.

YOU are one of that very limited group of individuals and I ask you to examine your personal financial situation to determine if you can expand your previous financial support to assist us toward our above-stated objectives, either in your own name or by sponsoring a Gift Associateship for a friend or as sponsor of a specific case investigation or expense.

Your gift is tax-deductible for Federal Income Tax purposes and we will continue to share with you our findings in our publications, the INTERNATIONAL UFO REPORTER and others, which are our way of saying "thank you" for your support.

Please examine the form on the reverse of this letter and return it, with your check, in the enclosed postage-paid envelope. We greatly appreciate your previous support and look forward to your favorable response to this request. Your gift at this time will begin a new twelve-month period for benefit periodicals and will help finance the serious study of the most important evidence available to us regarding the continuing UFO Phenomenon.

Thank you for your continued support,

John P. Timmerman, Chairman
