September 7, 1968.

Mr. James Mullin,
Secretary,
The Science Council of Canada,
110 Argyle Ave.,
Ottawa 1, Ontario.

Dear Sir:

Thank you for your letter of August 21, 1968 concerning my book Science, the Public and the UFO. I note that this book was circulated to members of the staff of the Science Secretariat. I did, however, send the book for the attention of the Science Council.

As I understand that one member of the Science Council in particular, namely Dr. G.N. Patterson, Director, Institute for Aerospace Studies, University of Toronto, is actively engaged in the study of the UFO phenomena, could you please advise me whether my book has been drawn to the attention of at least this one member of the Science Council.

As the Editorial Board of The Canadian Scientist considers UFO phenomena of sufficient importance to have diverted from their usual editorial policy in their latest issue, to the extent of giving the matter very special notice, and as my book takes a similar approach to that of the article printed in that worthy magazine, I feel that your office should at least direct Dr. Patterson's attention to it.

Yours truly,

Arthur Bray
