Dear Art:

Many thanks for your letter of Aug. 16th. I read, and Antonio referred me about your statement before the MUFON Annual Conference held in Toronto, Ont.

I am very glad on your deliberation of action at your Prime Minister. I definitely believe we have now the strongest evidences in military documentation to initiate action at the nations to realize an International UFO Authority.

Obviously for initiation - see the enclosed letter of the U.N. Secretary General - we must keenly select that nation in which we place our confidence with our documentation. When you study over the U.N. case and Grenada you will realize - Never that Again!!! I certainly believe Canada would be the best - might be better as United States for action. Canada on the Northamerican Continent over 3 decades is a frequently visited country by the UFO forces, and with military evidences in hand have all the priviledges to call for ACTION.

1/ Canada could place the UFO problem on the agenda of the United Nations as INTERNATIONAL SECURITY PROBLEM!(Based on military evidences).

2/ I would be more sympathise when Canada would call all the nations for an International Congress on the UFOs global problem. I mean military forces - scientific community - and selected UFO pioneers. The greatest announcement would be when Canada would offer a territory for all the nations and invite them to found an International UFO Authority to contact with the UFO forces. (WASA project). It would be a multi-billion dollar enterprise for the government!!!!!!!!!!!!

The PPCC Inc. Jerome Eden and Major Ret. Hans C. Petersen in Denmark are united on this official break through ^{project}. Please keep away from your action any kind of private UFO organization or federation. You are a former military officer and you know that the UFO problem
