Dear Mr. Wait,

Allow me to introduce myself. My name is GRANT CAMERON, and I am a free lance researcher of the scientific work done by Mr. Wilbert B. Smith. I have done a fair bit of research over the last ten years, but find there are a few pieces of the puzzle I need you to help me with. First let me tell you what I have.

① I have done a fair bit of reading on the most scientific articles and books you published. I am aware of your position with Project Magnet.

② I have possession of the declassified TOP SECRET memo requesting authorization for Project Magnet, and settling the situation regarding flying saucer research in the U.S.A. (Enclosure A1-A5) (all news me!)

③ I now have the recently declassified correspondence between Wilbert Smith and A. Wright (military attaché in Washington), and between Wilbert Smith and Gordon E. Cox at the American Embassy.

④ I am now aware of the Smith association with Dr. Unnever Bush at the Canadian Embassy. This is being investigated under an "Access to Information Request." should make interesting reading!

⑤ I have possession of the Magostic-12 defining document. I am also in possession of a confirmation of this Above Top Secret group.

⑥ I have gathered at least six statements by Wilbert Smith indicating he knew of this above Top Secret group. (apart from those found in the Canadian Embassy correspondences)

⑦ I have possession of Smith's handwritten notes

had a
position
as such.
