Dear Mr. Bray,

Dr. Hynek has asked me to write to you and thank you for the material you sent relating to 1973 fall cases. He is sorry to take so long to acknowledge the receipt of this material but he has been out of town most of the past two months and has just had the opportunity to review the material.

The Center plans a Technical Report, as you know from our News Bulletins, on the "flap" of 1973 and while the primary focus is on cases from the United States, your material is of much interest.

Dr. Hynek thanks you for your continuing support of the Center.

Sincerely,

Margo Metegrano
Secretary
