Dear Mr. Greenwood:

Thank you for your letter of July 26, 1987 with enclosures.

The document you enclosed, allegedly a memorandum from President Truman to Secretary of Defense Forrestal, dated September 24, 1947, is not in our files. We have consulted with the Modern Military Records Division in the National Archives and the Eisenhower Library regarding all of these alleged "Majestic 12" documents and have taken a common position with them that we cannot authenticate any copies of documents, when we do not have the originals in our custody. Also, there is apparently no declassification stamp on this document as required by law and Government regulations, if it is actually a copy of an original document that was declassified.

We hope this information is helpful to you.

Sincerely,

BENEDICT K. ZOBRIST
Director

On 06 December, 1950, a second object, probably of similar origin, impacted the earth at high speed in the El Indio - Guerrero area of the Texas - Mexican border after following a long trajectory through the atmosphere. By the time a search team arrived, what remained of the object had been almost totally incinerated. Such material as could be recovered was transported to the A.S.C. facility at Sandia, New Mexico, for study.

Dear Mr. Todd:

This is in response to your letter of June 30. Our reasons for questioning the authenticity of the July 14, 1954 memorandum from Robert Cutler to General Twining are as follows:

1. President Eisenhower's Appointment Books contain no entry for a special meeting on July 16, 1954 which might have included a briefing on MJ-12. Even when the President had "Off the Record" meetings, the Appointment Books contain entries indicating the times of the meetings and the participants.
2. The classification marking on this memorandum is one we have never seen on an Eisenhower Administration document. "Top Secret" and "Restricted" are two different levels of classification. There neither is, nor ever was, a classification level known as "Top Secret Restricted." The use of "Restricted" as a classification marking was discontinued in November 1953.
3. The Declassification Office of the National Security Council has informed us that it has no record of any declassification action having been taken on this memorandum or on any other documents on this alleged project.
4. No additional documentation on MJ-12 has been located at either the National Archives or the Eisenhower Library.
5. Finally, Robert Cutler, at the direction of President Eisenhower, was visiting overseas military installations on the day he supposedly
