Beloved, we see with enthusiasm the meeting of the rahmas that under the sky of Uruguay are working for the planet.

Remember that attitudes must be coincident with thoughts, however small they may seem, they must all vibrate as one.

Tomorrow they will receive guidelines for the days that are missing.

Sensitize more, leaving everything that prevents them from reaching.  
We are close and we will continue like this, waiting for you.

May the love of the profound touch you.

Love in Rahma  
Mardorx on contact

Beloved brothers, your radiations and intentions have touched us and felt like one of you, your ability to work with love is infinite, know it!

The Meeting, among other objectives, is also a closer encounter between your reality and ours, that is why since we arrived we have been observing and feeling them.

We see that in these three days the conditions have matured for everything that is willing to happen from the highest hierarchies of light.

Tonight, the brothers who do not have cesium crystals will have the opportunity to receive them in ceremony.

Wait for the signal at 22 and start reception.

From this night with greater intensity we will be by different means helping them to reach the best vibrational level.

Closer and closer they will feel us since they are willing to meet us on the road as two walkers of light.

Continue to sow seeds of love and they will soon blossom.

With love  
Mardorx

Note: At 10 p.m. I could see how a canepa was materialized for a few seconds, it was a sphere of white light, big as a full moon located on the top of one of the walls of the tent where we were all together. The canepa was also seen by Juan Cortazo , also another brother from Uruguay .

Love in the light

May the presence of the beloved Master among you in this meditation fill you with peace and comfort you for the next times to come.

You are the Father's own light on Earth , a light that should ignite the hearts that are extinguished by ignorance, sadness and despair.

This is the bell of the last awakening, because the time of the prophesied is already.  
Definitely become the water that those who are thirsty have to drink, the fire of those who have the heart of ice, the land where new children will sow the dreams, the air that will give the vital breath to terrestrial and cosmic humanity.

Everything is in you, unite your hearts because the Master will bless you in these days.

Mardorx

## **Experience in the Xendra on August 4**

### **THE SEA LIBRARY**

Upon entering the xendra I receive the guide Oxalc who leads me to a long transparent tunnel that goes submerging in the bottom of the sea. Along the way I see white columns of an ancient city on both sides and further to the bottom a pyramid similar to those of Giza appears, first I see it as a bright green hologram. Then I see it as material, as with a limestone lining.

I think what does this pyramid do at the bottom of the sea? And immediately a voice tells me: *"it is the library of the sea, just as on the earth's surface there are libraries, at the bottom of the sea too"*. Once inside I see a large room where there are different colors of glass, cylinders and metal plates that contain information and other artifacts on the walls that resemble TV screens. I see white brotherhood teachers there. Behind the pyramid, at a certain distance, I see a fairly large ship sitting in the background, it seems to be a scientific base on which I see a lot of activity, there are different aquatic beings coming and going, they are very strange, in different ways, with fins on the Some backs, their eyes are large, these beings are light green and have parts of other intense colors such as pink, blue, red and yellow. Although they are very strange, I feel they are very intelligent. They just give me a look and immediately continue with their tasks. Outside, I also see other beings very similar to mythological ones like the undines, mermaids and newts, very beautiful beings that move with great freedom and interact with the beings of the base.

Again the voice explains to me *" The library of the sea protects the archives ak á shicos of the history of the seas of the planet since the arrival of the sowers of life"* simultaneously I begin to see in a screen that the evolution of the earth is lit from the perspective of the seas. So I see how large ships

of an intense orange red are submerged in a liquid sea boiling as lava, there the scientists begin a slow process of alkalization of those acidic seas and in permanent boiling. I see the sowers of life, they are very tall, very white and with elongated fingers. I can see how they plant plant spores and also different microorganisms from planets belonging to the Orion constellation. The reason for the place would be that these spores are the most resistant to the unstable conditions of the plane at that time subjected to innumerable changes. I can see how life on earth begins, tiny microorganisms intermingle and little by little more complex forms of life develop. Beings similar to krill, small phosphorescent worms and similar to trilobites. I see how little by little life also develops on the continents that by then is almost like a single continent.

In another part of this true filming of the archives themselves I see invertebrate beings and, later on, strange fishes, pierce the depths. A little further on, amphibians and reptiles emerge, many of which migrate to the surface and become huge dinosaurs.

I see meteor showers, earthquakes and immense changes in tectonic plates. The seas freeze and then thaw. I see more laboratory ships visiting the seas, extracting samples and making some adjustments and experiments with beings following what looks like a scientific protocol.

Beings from other aquatic worlds begin to visit the earth and settle in different places of the ocean depths, these are colorful beings that I described before and the voice *tells* me :

*"Drumkas, are extraterrestrial beings that come from a distant quadrant of the Milky Way, belong to the Confederation and in the seas of Earth are in charge of protecting endangered species taking them to other less dangerous areas, they have the ability to communicate with many fish and even with corals. "*

In this swift view of the history of the seas I see the first humans move in primitive canoes, then other very advanced beings of Lemuria and finally of Atlantis, who sail the oceans in huge collective ships. Then I see great submarine combats at that time and a lot of destruction. I also see the Atlantean remnants located in different parts of the planet, thus starting new civilizations.

## CONTACT WITH THE CETÁCEOS BROTHERS

At some point, my concern is to see the present time, then images of the ocean floor begin to appear where I see a variety of colorful fish, sharks, strange luminous fish from the depths, but I do not see whales or dolphins, then I ask - where are the cetaceans that I do not see them?

- *They are here and they are natives of this planet!* - They tell me with a voice that sounds at times as a duo and at times as a single voice and simultaneously materializes a huge blue whale on my left and a dolphin on my right. They observe me with immense affection, their eyes flood me with sincere love for the humanity that we are, it is a huge and deep love like the sea. I am filled with emotion the encounter with these sensitive and spiritual beings. But I can not let myself be saddened by the ignorance of a large part of humanity that ignores them when it does not destroy them, without noticing that they are so similar to us in many aspects. Yes, I feel great sadness for all that man does to these species, the most intelligent of the sea. They tell me that by degree of evolution they are in charge of the other beings of the sea, just as we should be in charge of our younger brothers, many of whom we systematically suppress. Broken by pain I ask for forgiveness in the name of human beings, a forgiveness that is endless for so many massacres that I see. However, they surprise me when they tell me that it is a balm to hear us sing *"the first songs, those that the man sang when he had not yet lost his way, the old mantrams and especially the Paititi songs"*, which they feel despite the distances. There I also remember the manatee that lives in the mouths of the rivers and the pink freshwater dolphin that lives in the mighty Amazon.

They tell me that our songs also remind them of events of their own evolution that they have forgotten, because *"in the end we all have something to remember and this is the time to recover that forgotten memory"*.

The whale is immense, I look insignificant at its side, but they wave their tails undulant only look at me with those eyes that say it all, for they know that they do not hold any grudge against humans, in those deep eyes there is only love, but love of the great, of that category of love that the Master made known to men, unconditional love, love that gives everything without expecting anything in return ... and then I realize that these beings are truly making the way of the Christ !

## A FUTURE THAT WE CAN CHANGE

For a moment they even comfort me with very sweet sounds that help me recover from that commotion and then I can continue to see current images of the sea, I observe huge amount of drums with toxic waste anchored in different parts of the planet as well as nuclear submarines sunk with all their crew. I also see atomic submarines that sail the seas permanently, they are black, silent and almost invisible when confused with the seabed. To round off all this gloomy present I see some concrete silos, with black caps like that of submarines, built on the bottom of the sea and that keep a huge arsenal of nuclear warheads. They show me three places where they are located: in the Arctic, in front of Ascension Island in the Atlantic and near Antarctica.

Then, how in the blink of an eye I see everything that could happen and that we should avoid. All these images end up horrifying me to see how the mindless man's hand can destroy in seconds not only that incredible world that exists in the seas, but also the entire blue planet.

I then return to the library room and feel the experience come to an end, then I hear the last message of the cetaceans: *"Tell humans that we love them and that we will always love them, that they communicate with us, that we hope to hear your old songs, that send us worthy thoughts and we will then respond. It is time to recover that communication that once had humans, the most intelligent beings on the surface and we, the most intelligent of the sea, so we can help each other"*.

From one moment to another Oxalc reappears at the door of the Xendra who, before saying goodbye, takes me by the arm saying: *"Hell-Aham, tell Tell-Elam that there are 12 of them!"* Almost immediately I hear the voice of Sixtus call back.

"Brothers of Time", you must change the old clothes for the "new" of this approaching time.

They will have to reinforce their personal work in order to consolidate their individual mission, to unmask the role they have in this incarnation as responsible and mature human beings.

The unity and harmony between the people will achieve that they concretize purposes and objectives of the Mission.

Continue with this work plan, which will benefit and strengthen you.

In this next world meeting in Punta Colorada "the woman" will achieve a "leading role", since it will be the feminine energy that opens the "doors between the dimensions", will be able to open them in order to realize what is planned: the connection with the real time.

From the World Meeting in Punta Colorada everything that has been negatively programmed for your country will collapse (for finally yes) after the transmutation, the internalization and the reprogramming of the Water element. Uruguay will be involved in a great energy that will help to open the bridge for the great dimensional transfer of its country and of the Planet as a whole.

The energy line will be drawn to live interdimensional experiences not yet known to you, experiences that will mark your lives and your hearts.

They can not imagine the capacity , the unlimited potential of the human being to reverse, to transform when he proposes it.

All this moves and excites us.

## EXTRATERRESTRIAL REPORT

Hello readers, how are you? The world meeting R ahma in Uruguay that took place in Punta Colorada in Maldonado was a success and showed that when humanity comes together to work for light, love and magic appear, and you can vibrate in the most pure love. The hearts of the self-summoned people pulsed more than ever and their beating became one with the crystal heart of the planet, which in gratitude during the 6 days of the meeting in the middle of winter and by the sea we had its warmth, its shelter we became one with the elements of nature and we achieved a micro climate, it was not cold and we had hot weather days, we also confirmed that with well channeled and positive energy we can transform the climate that one wants, imagine that if all we start working for the Planet we can quickly change its devastation etc. There were endless experiences of contact of all kinds, but only for an obvious reason I will only count the ones that I live, and those that were for everyone in general. Visually the most magical of the experiences besides ships, canoplas, (television cameras of the n birds also called foo-fighter), synchronizers, (objects of form of ball of tennis of intense red color, that can cross the walls and test the humans see how is physically as it has the aura and if it is balanced in the three planes Material, Mental, Spiritual), we were able to witness a unique spectacle, when at the end of the solar meditation, Sixto Paz tells us that we all had to go to the beach and there, in view of everyone, a XENDRA), a gray-colored dimensional door of about 20 meters that those who cross it achieve the phenomenon of bilocation, which means being able to be in two places at once, the physical body on the beach and your astral body somewhere in the planet or out of it, but in this case very conscious and living the experience and feeling the magnitude and truth of what you live. Remember that in astral dreams we go to very far places in the galaxy or more, and many times we remember it and take it as if it were just a game of our mind and in this case when we go through a Xendra what we live is real. When I went through the dimensional door what I experienced was beautiful, I began to visualize in my mind many images that the more they appeared the more I realized that my past lives were the events of multiple incarnations, which showed me events of my transit on earth and many images of this life, my mistakes and my virtues, in these cases you have to have a preparation to take everything as a learning and that does not affect you, but quite the opposite. In a moment I see in my mind and feel the tangible energy of a luminous Being that stands in front of me I swear I could see it so clear in my mind that to verify it I opened my eyes and could only see a bright silhouette, but with the Serrated eyes I saw clearly. He was about two meters tall and spoke to me telepathically, his eyes were tender as a younger brother looking at a small child, holding a golden sphere in his hands and depositing it in my chest transferring some information in my glasses, and he told me \_Tu you asked for more knowledge here you have what are you willing to give? \_ At that moment I felt the series of his words, obviously he was testing my degree of commitment, and I answered him with my heart, if with my life humanity gives the great quantum jump to the fourth dimension that I do not even think about it. At that moment my mind was filled with flood images of a lot of pain that confused me, but I also saw a lot of joy, that's when I realized the message of the Being of light. The more committed you find, on the planet working for the greater plan of love and light, the planetary birth of December 22, 2012 will be less painful and the new humanity because we transformed and a little corrected will enjoy good health. The being left and in my mind I began to see symbols that some decipher and others I am processing, and suddenly I found myself in the Amazon jungle, in the Madre de Dios district, on the border of Peru and Brazil, on the wall of Pullaro where the Paititi is the blue base, where is one of the inner retreats of the older brothers. Remember that all this happened in the Xendra G imbra, and the experience lasted 15 minutes, and that it is a conscious mental trip, In that place the records of the planet's cactuses are preserved, their history and wisdom, and there they live among other older brothers remnants of the Atlantean civilization, of the missing Atlantis. ## EXTRATERRESTRIAL REPORT

Hello readers, how are you? The world meeting R ahma in Uruguay that took place in Punta Colorada in Maldonado was a success and showed that when humanity comes together to work for light, love and magic appear, and you can vibrate in the most pure love. The hearts of the self-summoned people pulsed more than ever and their beating became one with the crystal heart of the planet, which in gratitude during the 6 days of the meeting in the middle of winter and by the sea we had its warmth, its shelter we became one with the elements of nature and we achieved a micro climate, it was not cold and we had hot weather days, we also confirmed that with well channeled and positive energy we can transform the climate that one wants, imagine that if all we start working for the Planet we can quickly change its devastation etc. There were endless experiences of contact of all kinds, but only for an obvious reason I will only count the ones that I live, and those that were for everyone in general. Visually the most magical of the experiences besides ships, canoplas, (television cameras of the n birds also called foo-fighter), synchronizers, (objects of form of ball of t enis of intense red color, that can cross the walls and test the humans see how is physically as it has the aura and if it is balanced in the three planes Material, Mental, Spiritual), we were able to ess a unique spectacle, when at the end of the solar

and depositing it in my chest transferring some information in my glasses, and he told me \_Tu you asked for more knowledge here you have what are you willing to give? \_ At that moment I felt the series d of his words, obviously he was testing my degree of commitment, and I answered him with my heart, if with my life humanity gives the great quantum jump to the fourth dimension that I do not even think about it. At that moment my mind was filled with flood images of a lot of pain that confused me, but I also saw a lot of joy, that's when I realized the message of the Being of light. The more committed you find, on the planet working for the greater plan of love and light, the planetary birth of December 22, 2012 will be less painful and the new humanity because we transformed and a little corrected will enjoy good health. **DAY 2 (Sunday 2)**

In the meditation, 22hs., We go to the beach in the zone of roc  
In meditation we communicate with a nearby ship, feeling wit

At the end of the meditation and open my eyes , I see the moon above us first and then I notice a symmetric rhomboidal mesh as if I had seen something with very strong light and it dazzled me, leaving that mesh in my retinas ... I realize that it was not like that , however that mesh was above us ...

When commenting on other experiences and receptions, Patrics reads us a communication and also tells us that he saw a symmetrical mesh resulting from the work of the guides with the whole group.

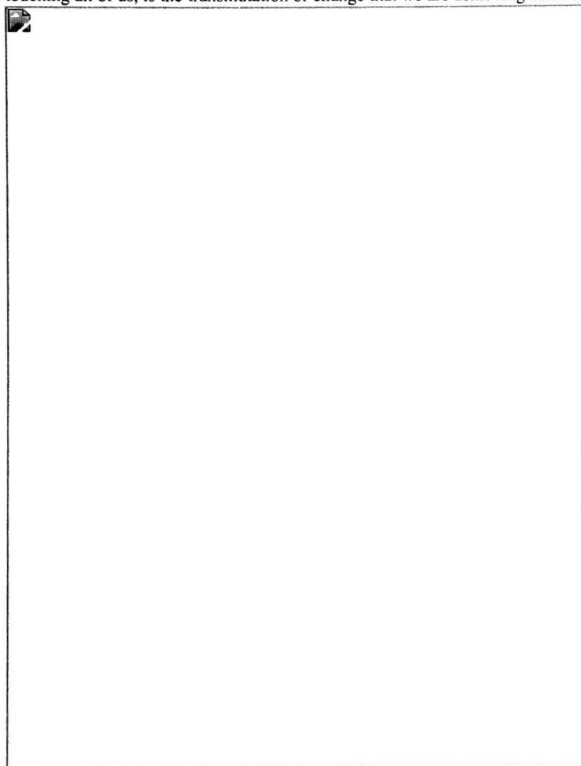

Being in Montevideo on the 15th in dreams, I remember the explanation to it :

"Everything is related to concentric circles, formed by people and feelings .

The first circle around the mesh crossing , which would be one of us, is personal feeling.

The second circle is the group feeling , where each circle is touched with the one next to it , which is the group feeling of another person .

And so a third circle crosses the crossings of the mesh, touching all of us, is the transmutation or change that we are achieving conscientiously.

**DAY 3 ( Monday 3 )**

Meditation on the rocks at the tip of the coast.

I enter the Buddhist temple and an old man tells me:

"Face the light without fear, since it dwells in you.

Go to the place, act and contemplate. "

**DAY 4 (Tuesday 4)**

We walked at dawn on the beach, with Jorge (also from Uruguay), we observed the sky and strange clouds in lines that all ended at a point in common, towards the area of stones of P.Colorada.

When we arrived at the place to investigate and feel it, we saw with surprise that all the fan lines were joined in a common point in that specific place, we noticed that the floor, the floor of the place was hot, this sensation went through our shoes.

In that sector there were 3 more members, among them Eugenia from the Dominican Republic, who saw almost on the sea, on the coast, a Lady of Water, with her green dress ... we felt the presence, but in the eyes We did not see it physically.

However, when we all got together to vocalize in the sector that the floor was hot, at a certain moment I open my eyes and I see leaving a few meters away from Eugenia and towards the point where the lines in the sky had their point of expansion, and only two meters from the ground in height, a ball of light that flashed a spectacular bright green, that we could see move and turn off ... in the same place where the next day, without knowing it, would be the place where a work with the Mother Earth would be realized, carried forward by the brothers of Colombia. We were filled with joy, to see that multidimensional beings were in the whole environment and were communicating with many members of the Meeting.

That same day we passed the collective xendra at around 6:00 p.m., where I had the surprise of spending in the first group, since EVERYONE had the opportunity to enter into groups of 12, in a task of group strength, continued, during almost 4 hours uninterrupted and where the inclemencies of the time were made feel.

In this xendra I was again surprised to meet Godar, who was one of the guides that marked my learning and direction within the Mission since 1991 and now helped me in the preparation for the Reconnection of the Times.

**DAY 5 ( Wednesday 5 )**

In the morning I go to the sea, after the Xendra experience, I have a strong oppression in the chest at the height of the crystals and I walk along the coast ... it is so I find the place that was indicated to me in the meditation of the temple Buddhist ...

2017

In meditation day 2, 22hs

With my left hand towards the sun and the right radiating towards the sea, when vocalizing my personal key I feel ...  
"21 pm the key you will find ..."

In one of the meditations Patries reads a message from which I remember three sentences:  
... .. we will leave the reconstructed meeting ...  
... ..the accelerated times ... ..  
... they will leave here responsible for the transit to the real time ...

Something happened that day ... that what seemed already established was modified ... at 8.30pm a change was unleashed ... and a silent fast of an hour in front of the sea for everyone ...

I went to the place I had found and it was suggested in the meditation ... for a little while I look at the clock ... and to my surprise it is 9:05 pm .... hour given in the morning.  
I watch the sea and I feel an incredible peace.

I watched the sea and its waves, its cycles ... ..are precise and with equal frequency intervals, these are the ones that remove and drag generating cleanliness in the area ... .. within the time that I was observing ... only twice did it arrive until my feet a large wave that is generated offshore and advances like no other feeding the coast ... ..with white foam ... that reached my feet, so that the sea was giving me a lesson in that silent fast ....

This constant removal in short frequencies is equal to our interior, taking out, correcting, renewing it, a permanent learning, however every time a great change comes in us, renewing us in a special way, feeding our being with new energies, an impulse that it achieves in us a deep change and a jump to another step ...

The responsibility is great and with it also an unexpected and surprising change in many areas.  
The times urge and with it the tasks and the achievements in all the points of the planet that need changes so that the same and the humanity happens definitively to the real time.

#### **Xendra experience,**

##### **Day 6 (Thursday 6)**

in two stages at 3.33 and at 10am.

I see Godar waiting at the entrance where a path or ramp leads where we walk , reaching a very bright room where elderly beings of different aspects await, in the center of it ... a figure stands out, the figure of the Master, listen to a voice that encompassed everything, while the energy changed colors while each of the members women entered the place ...

The voice I heard told me:  
"We were waiting for you, do not lose heart now that you are so close, you have achieved so much and so little is missing ..."

Simple wildflowers, of enormous beauty, transmitted along with their aroma the simple and great creation, the great creator of creators.

The energy and feelings that came to us, as well as the information , permeated in a way that can not be expressed in words , only by feeling and transmitting it in feelings to another so that he can live it in his whole being ...  
All the members who were in the area and connected to the encounter through the cardiac, and the crystals, they got the information that will be activated and will be remembered in different places and / or people.

Another voice that encompassed everything tells me:  
"The vibrations of the Disco will beat in you increasing the frequencies and the connection. A living being of which they are a part and where he recognizes his frequency.  
The time has come for the representatives to line up in front of him, activating memories, rhythms, releasing the magic of a dull vibration that will open the portal, linked to all the vortices where the keys are.  
Peace and love brothers in time. "

Another being speaks:  
" The White Brotherhood awaits them, they must assume their roles and latent commitments, each member perceives and which is the task entrusted and accepted.  
In the meeting they are prepared collectively for these last steps, nothing will be opaque for you, transparency must prevail in your lives and in Every step you take, everything is accelerated and you should not hesitate, the change is already in you.  
There will be a before and after, hearts will beat in unison with the Disc in the correct melodies , attitudes and predisposition of each one of you, the committed ones of before, the committed ones of always, those that have been autoconvocado to be in this time limit , remembering who they are and releasing the hidden memories and so deeply guarded.  
There will no longer be excuses, only love and dedication, commitment and loyalty , to strengthen ties and take the step .  
Go in peace, may the Universe guide your steps "

I observed that in the space between the Masters and us there was A BOOK WITH MANY SYMBOLS and this one was opened, inserting hundreds of those symbols in the members that one by one they accepted, affirming their commitment and work.

We bowed our heads to all the Masters who were in front of us, we thanked them in our name and in everyone's, thanking them for that beautiful experience lived, where it felt to beat in the expected and programmed reunion of yesteryear.

The voice of Sixto, our beloved brother on the road, brought us back to the place and time, together with the rest of the brothers who supported the experience permanently.

I remember when you open your eyes, listen to a helicopter at low altitude and fly over us on the coast line ... days later ... the photo was taken while the experience was taking place and where a metallic sphere is clearly visible on the sea.  
They are unique times, where we all must keep amalgamated to achieve the long-awaited passage for Humanity and for the Planet, this living being that takes us through space and time being our Great House.  
It is important to always have high energy for our protection, in permanent connection with our Internal Master, thus generating safe roads, which through the group energy grid, will move to all places without borders or specific times.

Everyone, thanks!  
Tell-ameil (Cristina C.)

## PERSONAL EXPERIENCE ENCOUNTER PUNTA COLORADA RAHMA URUGUAY 2009

Since we arrived at Punta Colorada I felt something very special, a climate of joy and great harmony with the place and with everyone, the reunion with several brothers from Uruguay and abroad was very exciting, although with many of us we were getting to know each other personally.

The first days I found it difficult to concentrate as I would have liked, I was a little aware of everything and everyone, from the beginning it was like a great party where the energy of all at times rose to incredible levels, Sixto as always showed great delivery, love, wisdom and example, being a very important pillar in the Meeting.

The support and presence of the guides, our older brothers, the GHB Teachers and our beloved Master felt at all times and could clearly visualize when the different tasks were performed.

The same thing was felt with the dear brothers and companions of Mission who were not present at the Encounter but their support from a distance was fundamental for us to feel in tune, all united by the Love of the Profound and everything was given in the best way.

On the third day, Monday, August 3, at midday and from the sea, there was a great concentration of energy in the form of a great arc, a huge xenda that was advancing, covering us all when eight women carried out a work with the feminine essence, opening the doors in the universe with the energy of love, reconnecting the earth with the sky and with Paititi's solar disk.

At night after the first reception of crystals where it cost to raise the vibrations and few brothers received the crystals, instead of returning to the tent with Miriam, Ivonne, Lilian and Marcelo we set out to walk on the beach. We went to the opposite side, when along the way with Miriam and Ivonne we began to visualize something very strange, as some species of golden plates with varied symbols emerged from the beach, as we progressed each time they were more and in different ways, similar to the solar disk, to the Mayan calendar, etc ... and not only we saw them on the side of the sea that was to our right also of the left like a mirror, they passed very close to us, so much so that one of the companions tried to touch it with their hands.

It was very beautiful what they showed us, at least that's how we felt, in addition to the peace that was manifested in the place.

Lilián and Marcelo could not visualize what we were saying with great exclamations, without a doubt there was an interaction because at our request or only with our desire those plates were showing more and more.

As our companions still did not see them we asked that they could also see them and instantly it was presented as a kind of tube of very bright green energy that was lit in the sky and they could see it clearly with great joy of all.

It was sure that the demonstrations were projected from some ship, so we imagined it was very close although we could not see it, back to the camp we continued our walk to the place of the rocks where the crystal reception had taken place.

Already the energy was not the same and what we could see was also different beings that were manifesting from the sea, beings with long ears and eyes of Buddha, when suddenly two flashes also from the sea showed us the ship that we sensed It was very close.

That night we were left with the feeling that something of everything that we had lived had been printed inside us and that at some point we would understand it, because many images of different places were presented in our mind.

On the following day, the fourth day of the Meeting, the hours passed by rapidly, and we could see that everything was going on as the guides and the Superior Hierarchies had expressed in their messages and everything they had prepared magically was coming to an end in this Encuentro de Encuentros where our heart beat in unison with the heart of our Mother Earth.

Where the summoned of yesteryear have come to the call making us present in the place and time foreseen, just under 3 years of the reconnection of the Times to vibrate together and work for our beloved Mother and be able to mitigate the pains of the planetary birth.

We open our hearts to work in harmony with the elements of nature, reprogramming the water element, creating the conditions of survival for all and ensuring the transition to the real Time and the 4th dimension of consciousness.

In the afternoon we all went to the beach and were led by Sixto, forming groups of twelve brothers who accompanied us so that we could live a new Xendra experience.

Despite the cold, they were more than three hours with great strength we were supporting and mantralizing until the last group passed, but grateful and with much more commitment for the experience they were giving us.

Personally, I think I was taken to a ship where they told me that we would soon receive information for the mission and for the mission of our Country.

And the extraordinary experiences were given and in a multidimensional way, together. Brothers with brothers, with teachers, with older brothers and even with our beloved Master Jesus.

The fifth and penultimate day of this Encounter that was lived very intensely, Sixtus began to read the communications where the guides had prepared another Xendra experience for twelve brothers and that according to the communications could be accessed Paititi and the presence of the 24 Elders of the Galaxy .

We were representing 15 countries, but in reality we were of 12 nationalities, so Sixto came up with the group with a representative from each country, and we all agreed.

The idea was for each country to choose its own representative, which Uruguay did not delay for 2 seconds because they had already decided that it would be a woman who lived the experience on behalf of everyone. And the one chosen for my amazement was me! I really did not expect it, I had not even considered it because I knew the responsibility involved, but without even raising awareness and seeing the joy of all my beloved brothers I felt a great emotion and thanked the

Father and each of them for the trust, the love and support that everyone was transmitting to me, that wonderful moment I will never forget !!!

The evaluation of them towards us was felt at all times and perhaps when choosing the representative of each country to live the xendra experience was where it was most evident, because some brothers did not reach a consensus, so Sixto seeing the harmony of the group of Uruguay resolved that the 12 people who would go to the xendra, were all Uruguayan women!

On the one hand I felt very sorry for the brothers who had not had problems and were not given the opportunity, but at the same time I was very happy for my sisters because they all really deserved it for their dedication and commitment to the Mission.

I am still meditating a lot and asking for clarity to understand the experience and contribute what is expected of us, I will try to transmit as faithfully as possible what I believe I have received and experienced in this experience.

It all started when I visualize Oxalc asking me: Ibrahim, are you ready?

And firmly I answer yes. Immediately I find myself in front of the Pusharo wall, Oxalc or another guide tells me how to support my hands and my forehead on the wall and I feel that it is giving way as if it were soft material penetrating through it.

In meditation many times I thought I was facing Paititi's solar disk, but this time I visualize it very clearly as suspended in a room that looks like glass or with crystals on the walls and ceiling, the disk is very bright and maybe not as big as I imagined it, and of a material that caught my attention because it did not look like hard metal.

I do not know why it is so much the emotion that transmits seeing it because it gives the impression of being in front of something alive, I remember that a Master who was next to me points to my solar plexus and the disc, as if making a connection of both feeling like a energy exchange. He tells me that the activation of the disks and the reconnection must be constant, visualize them, feel the essence of each one, empathize with each one of them because they all have to vibrate in unison and we with them. This task is important to be carried out before the 2010 trip, so that the bridge can be definitively finalized and the corresponding information received. Then Tell Elam will be present with 12 brothers.

Then without realizing it, I find myself accompanied this time by my sisters in another place and to my amazement it is in front of the 24 Elders !

At that moment what strikes me is an exquisite aroma that smells in the environment where behind an inverted U-shaped table are sitting beings with very different aspects to each other, they did not seem very old but despite their different morphologies (or races) transmit a serenity and special tenderness, also solemnity and respect.

Joaquin on our right is introducing each of them, and we are leaning, I am very happy when I name Archer, my dear Master of these latter times, because now I have the opportunity to see him more clearly.

The energy of the pure Love of the beloved Master Jesus who was with them was also clearly perceived, giving us his support at all times.

Without loss of time the Masters tell us that from now on everything will happen as in the twinkling of an eye, everything accelerates, the processes of everyone on our Earth and it will be important that we stay united and strengthened as complicated situations await us, where many will not continue on the road or move to another plane.

I see on the table some golden plates similar to the ones we saw the night before and I think I feel someone telling me that the history of humanity is represented in them. Then I instantly begin to remember my commitment made many years ago to Masters like them and I feel we have returned, just steps from achieving our goal to a new convocation where our commitment is renewed with a greater awareness of being an active part in this wonderful experience. that is Mission Rahma, in that moment I feel that the star that is on the Masters vibrates with force in my chest and I understand something that shakes me and it is, that it is up to us that corresponds to us to assure the part of the history that remains in these two last years and months.

I do not know how much real time we have been with them, in addition to telling us about this story, they tell us about Lemuria and the relevance that their women had at that time with respect to the reconnection of the times and that was frustrated by the older brothers before logarlo, as in other ancient civilizations such as Mu where matriarchy predominated and now we were there 12 women representing Humanity as vindicating the planetary feminine essence.

They also tell us about the Holy Grail and its passage through our lands, which would bring important information about the Christian mission that would correspond to our country.

Here I was wanting to know more but it was time to return, I was not clear about the Grail, if it was symbolic or had really been in our country.

The next day when we had the opportunity to return, the first thing I asked was about this topic and I felt that the Holy Grail was really here, the Masters told me that these lands were impregnated with their energy, maybe they were referring to the area where I found, or maybe they talked to me about Uruguay?

As we said goodbye and thanked them in the name of Sixtus, of the Mission and in their own name for the wonderful and extraordinary experience, the Masters rose and bowed to us and told us that they were really happy and grateful because we (the Rahmas) represented the hope of the Universe and that we were about to achieve it.

I can not express in words the emotion of that moment, I wish that each one could feel it for himself because in it come printed the most beautiful and profound feelings that these extraordinary Beings transmitted to us.

When Oxalc returned, he showed us his pride in the work that Tell Elam is doing, and he told us that although they have all their protection, we should take care of him because these times will

be very lurking for him.

They plan a trip to the desert of the Goby for 2012 that would go Tell Elam accompanied by some brothers.

Thanks to each one and to all my beloved brothers and companions of Mission.

## PERSONAL REPORT

Isabel Yanieri - Uruguay

## RAHMA ENCOUNTER 2009. PUNTA COLORADA

Without a doubt that the magic that surrounds these days is wonderful and more when after everything happens you realize more about why events occur in a certain way and not another. Every minute, every moment we continue talking that we are part of a great puzzle that leads us to the encounter with the Father, the Whole and that when we finish putting it together; simply fulfilling each one with his part from his place, as my Father - Mother said in an experience; Only then will we know his face and we will see him as who he is. And in that fulfilling our part, as if continually strengthening us, is that they test us, reminding us of the importance of our decisions from the heart, proving ourselves in authentic Faith and conviction and thus, the Great Craftsman continues to mold us, wanting us to be his best work. art.

So I start commenting my test, where to make a decision, it was not easy. The morning before leaving to meet in Punta Colorada, my ten-year-old daughter Valentina, wakes up with a high fever. In those days the flu was abundant on these sides, and more comments on the H1N1 flu. The doctor tells me rest and remedy for fever. My two daughters would stay at my sister's house with her family during the days of the meeting but my youngest son, who was only one year old, had recently emerged from a congestion and carried Valentina with the flu and high fever. It would be high risk, since it could compromise the health of his cousin. Imagine, it was the only place where I could leave them.

Valentina with all her love tells me: "Mommy, do not worry, I'll be fine, do not stop doing what you should", and on the other hand my loving sister tells me: "Do not worry, I keep her isolated from the others so that it does not infect and I take precautions. " But it was a very big responsibility for me if my nephews relapsed to take Valentina with them.

Well, it was eleven o'clock the night of the previous day to go to the place of the meeting and I still did not make a decision, so I thought, I know that I must be, if one is going to be a positive work and give the best of one without place to doubts that everything will be solved and so I trusted and said yes. Well, we took Valentina there and with all the worries of the world I asked her to be cured and that everything was fine. And so it was, we arrived at the meeting place, the day after I left it and immediately called my sister in the morning to see how she was and she says: "Look Isabel, I do not know what happened here, but she got up impeccably, she does not have fever is as good as if nothing had. " For proof of faith; I said, how lucky I made the right decision.

The joy that flooded my heart joined the one I already felt because of the encounter with brothers from different places that I had not seen for a long time. And they increased the desire to do and give the best of me to contribute to give everything as planned from on high.

Curiously, from the second day it was not easy, since our friends who were there tempted me continually. To these tests I add that I was from the tent while meditating

who by all means wanted to silence my cough and calm me by reaching all the time all kinds of tisanes, essential oils, candy and I know how many more things I got provided I did not make so much noise and I could participate feeling good; It was very funny I want to make my first contribution with the message I receive from our brother and guide Antarel about the mantralization of the vowels of our cosmic names.

## Meeting of Rahma Uruguay in the Southern Community in preparation for the Punta Colorada meeting.

DATE: 18.07.09

Antenna: Naim Taxir Xiram

If with you Antarel:

The singing of the vowels of your cosmic name opens a secret code that leads them to consciously live the genetic information that unites them to the Creator Father. This also corresponds to a mathematical code if they combine the numbers to which each vowel belongs correspondingly. Aventúrense to practice it in collective, that together they will be conscious of living a new experience.

During the reception of this message Antarel showed me how to do it and saw my cosmic name written on my mental screen. While mentally reading the personal cosmic name, we only vocalize the vowels.

When performing this practice during a meditation at the Punta Colorada meeting, I receive the following:

Through my mental screen I appear introducing myself to the sea and I begin to see what my own DNA would be, as if I had entered a kind of computer program and they are showing me; as I go to mantralize the vowels of my cosmic name, that the vowels represented the vibration of small spheres that are in the DNA and it was as if they were off and when singing my vowels were going on, activating them or waking them up. I saw how the entire DNA chain was illuminated.

I receive the following message:

With you Oxalc:

In Israel as in Egypt, they received specific guidelines to mantralize these codes to create certain conditions in your bodies, but without the awareness that was necessary to really produce the change. Today they reach, through the work of a long time of yours, the awareness of why and for what is necessary the mantralization of the vowels of your personal vibration to really produce the bridge of light.

#### **EXPERIENCE DURING MEDITATION in the afternoon of the day:**

DATE: 02.08.09

Our brother Sixto, who was leading the meditation, leads us to the Pusharo wall and the following happens to me:

I cross the wall and inside it was dark but on my right a dragonfly full of light, very funny invites me to walk forward. When I started to make my way down a triangular corridor, everything was made of rock, and I saw the form of exposure on the sides of the corridor, a set of plates that were hung as if they were roughly 70 cm squares . wide by 1 mt. High and this dragonfly begins to talk to me while we walk and he says:

"Observe, these are 79 plates that contain the information of the struggle between good and evil, the synthesis will result in LOVE."

Although he tells me that they are 79 I only saw some of them, between 8 and 12)

I take advantage of the moment and I begin to dialogue with this being that very subtly made me feel comfortable and willing to explain what I saw, expressing to him those concerns that were internally presented to me at that moment, and I ask him:

"Why is it necessary to experience LOVE?"

"Love leads you to the Creator and to the eternal chief ruling evolution of creation."

"What material are they made of?"

"They are built with an alloy of metals that are not from the earth and resist everything."

"By whom were they written?"

"They were written by THE MIND " (and shows me as a mental screen the moment in which it was made and saw as a light that came from above wrote them)

At that moment that this dragonfly was already talking to me behind me as if I was walking alone accompanying me, I feel the anxiety to ask him who he is and he says: "RAMAEL " and when I turn to see him, the dragonfly that accompanied me becomes a being of about 1.80 meters. tall he wore a white tunic and wore a toga of another color with symbols, his hair long and white, like his beard, and had a small cap. Despite

to see him physically as he was did not change in me the sensation I felt from the first moment that accompanied me as a dragonfly. I turn around and continue walking forward observing everything I could in those plates. Concentrating already on the symbols that were written, I see that as I read them, only some of them turned on the light and asked:

"Because only when I see them and try to read them, only some of them go on?"

"Because you have one part of the vibration others have the others, together you can read them. They light up because in you there is the vibration of the Father and they are part of it and all together make up the EVERYTHING. "

To my thought of why I would be there, he answers:

"You are here because you are witnessing that we guard and keep the information."

"Someday we will do it?"

"Yes, and that day will be soon, only when you are consciously responsible for it. You will guard the information and you will be responsible for it. "

I looked towards the end of the corridor and saw that there was a small stone altar and over it was a cup, as if it were a chalice; from above and on that chalice it was as if the roof were open and entered as continuously illuminating a natural light. I'm sorry to ask you then:

"Why is the Chalice at the end?"

"Because it is the synthesis, the LOVE and Jesus experienced it. This information is stored in the chalice. When he drank from the cup, he made his commitment and deposited the information there. "

In the afternoon when we were on the beach doing some of the work on the water and in that case guided by Brother Cristian from Argentina, I received from the teachers a job that they told me to do. I felt a little shy about proposing to do it, so I just waited for the moment to happen and that's how it was.

The next day in the morning Sister Maru from Mexico summons a group of women where I hear my name calls and there I go. It is proposed that women should jointly carry out a work of feminine energies. I want to tell you that the energy that manifested itself when all of the nine summoned, we started talking about what we felt we wanted to propose, was wonderful, it was as if we all already knew what we should do.

As you will see, take advantage of the moment and I felt that there I should propose to do the work that the Masters had shown me to do the day before.

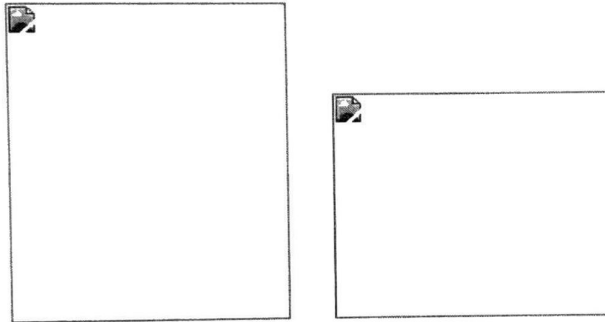

We agree that at 2:00 p.m. that day we found ourselves on the beach at nine o'clock in front of the camp, where we felt the work had to be done, and there we all found each other. Personally I felt that I had to draw concentric circles in the sand where we all had to place

ourselves, other girls felt to look for natural elements that they found on the beach to place them in circles (like sea shells, snails, etc). To measures that we were physically preparing the place began to visualize totally amazed and stupefied in front of us on the sea, a supposed fog that was seen, began to open and formed in the middle a giant crescent or semicircle of whitish color and all said at the same weather; before he finished arming himself and feeling from the heart: "it's an XENDRA, a great xendra is being formed, let's call Sixto, run, run ..."

And there everyone will have enjoyed the photos that could be taken, it was really wonderful and more when we all got together to work. Actually the work was one of the most beautiful and incredible that I have felt together. As for the work that the Masters had asked me to do the day before; It was also incredible, to join all Paititi together and sing our personal vibrations, to sing our vocals in front of the solar disk consciously that with it from there we would be awakening the entire creation on the planet so that everything from the DNA is lit and illuminated to recreate the bridge of light, it was wonderful. Each time I am more happy not to be just a spectator but I appreciate the opportunity to be a change maker.

#### **EXPERIENCE DURING THE EARLY MORNING OF DAY 04.08.09**

On the night of day 3 it had been received by different brothers in meditation that we would have to work from 3 or 3:33 in the morning, so we with Gabriel and our group put the alarm clock at 2:30 in the morning to be ready to work. Curiously at 2:00 o'clock sharp a cimbronazo awakens me suddenly listening in my mind: "get up Xiram, it's time to work" and I heard physically a very sharp sound which had awakened me. My musical ear placed it about 3 octaves higher than what one is used to listening to, imagine how not to wake up. So I shook Gabriel who, very asleep, was at my side and I said: "Come on Gabriel, the guides are calling to work". There we woke up the rest of the group and went to the beach. First we arrived alone with Gabriel and we were struck by the fact that nobody had been on the beach, some of them were very far away walking. Without wasting time we started to work and visualized a door in the water, Gabriel guided the work and visualized that from us a tunnel of light was coming to the cosmos and it was the DNA chain, they told me that we were opening a door representing the ancient (we both have AM cosmic endings) through forgiveness. After we finish, they start arriving just a few brothers from the camp who had also felt up and get to the beach. We all feel to begin to work and raise vibrations and at the end of the collective work guided by Gabriel also clearly visualize a bonfire or fire in our midst; a symbol I had never seen was drawn containing that fire.

#### **MESSAGE RECEIVED DURING THE MEDITATION in the afternoon of the day:**

DATE: 04.08.09

With you. The brotherhood of the 7 rays of the Sacred Lake of Wiñaymarca.

We are united to your work in common union together with all the internal retreats united to Paititi. The lighting network has been activated, the portals have been opened, prepare yourself for work and tuning. Go to the place on the beach where they activated the solar disk, there they will receive information from the different retreats that were stored for this moment. Keep the fast, the positive mental and spiritual attitude in love as a single body of light, only then will you receive.

Brother Tell E lam will witness the effort of these years of work.

Shambala has opened the doors, humanity will receive. It will give part of the information of the process lived in Lemuria at the time of reconnection. The rest will be received in Paititi 2010 if they arrive with the right attitude and an open heart.

#### **EXPERIENCE DURING Xendra collective at night.**

DATE: 04.08.09

When I pass the xendra, a silver stepped ramp opens up before me, long, low steps. On the sides there were other low beings, they invited me to go up. I feel compromised and it is hard for me to climb, it is difficult for me to make the decision to accept the invitation even though maybe one imagines that such a moment can come, to be living that moment is not the same; I felt that taking that first step of putting my right foot on the ramp would perhaps change many things and that scared me. These beings before my fear invite me

again with insistence and with movements in their heads indicating that it was important that I make that decision. I manage to overcome and accept that decision inwardly but it was as if I were physically paralyzed, so I made my hands mentally help my legs, to move. When I put my foot on the ramp and immediately was inside what I knew was a ship, in a circular place sitting with all those beings that accompanied me, as if it were one more. In the center there was a small circular surface higher, connected to a tube of light that came from above. In a moment, this tube of light is lit and from it descends "The teacher", "Jesus", all those present there marveled and we were proud of his presence; Bring a little roll between hands, the one that shows me. There our brother Tell elam comes to look for us and the experience ends.

#### **MESSAGE RECEIVED DURING THE MEDITATION on the night of the day:**

DATE: 05.08.09

The conditions are, do not get discouraged. The cold and the fast prevent them from maintaining the necessary vibration and they already feel the fatigue of the day. Rest, recover strength. Tomorrow morning, very early the experience will be given. Oxalc.

#### **EXPERIENCE XENDRA 12 Uruguayan women at dawn.**

DATE: 06.08.09

While we continued to mantralize all in unison the Zin-uru, I visualize before me on the water a very old wooden door, in its center like a latch, a heart, then the six-pointed star; I feel support my left hand there and just all feel in unison to stop the mantralization and the door opens.

Immediately, there on the beach among the 12 women; appear beings of Sirius, short 1.50 meters. of height, approximately. They watched us around us, walking among us, as if they were testing us. In a moment, a very thin masculine being to whom I did not distinguish him suit, rather as if it were his whitish skin, very smooth and of smooth appearance, stands in front of me and looking at me with his big, black and oblique eyes. mentally making me relax and feel serene, calm and comfortable. I see in his chest a shimmering disc of blue, violet and celestial seawater which rotated in the direction of clockwise. Mentally invites me to deposit on the disk all the best virtues and positive qualities of the human being. And that I do, naming them one by one ending with the LOVE with which everything contains and synthesizes. Then I observe that in the disc you could see the whole universe, it was like a connection and when I finish naming the virtues and qualities an egg is formed in the disc. The being tells me that what I deposited there in intentions would be fertilized, planted in Alcion. Then the being takes his hands (very long fingers) to his chest where the disc was and takes out of his chest a large blue sphere which he holds with his hands showing me, I feel that I have to put both my hands above the sphere without touch it and then incorporate it back into your chest, as when we perform cesium crystal initiations.

I understand then that it had ended and the being begins to turn to retire and I am sorry to tell him before he left: "I can hug you, because after receiving an initiation, we embrace each other". Being looks at me, as misplaced, not knowing what to say to me, I felt like a child; then without hesitation, with all the love we are capable of giving, I give a big hug on behalf of all my brothers, wanting to tell him that in that action was everything that he had mentally printed in that egg. In that hug I felt all those who were in the meeting at that time and those who physically were not there but who knew we had them. The being is dismayed, shuddering not understanding mentally because he was receiving more than what he asked and is that as they say we are unpredictable and I just have to live this experience where I can not afford to give and express what I feel either, where art and music In my life and profession they have taught me that the best of us comes in the best way we can. After the hug when looking at it, it's as if I saw my 10-year-old daughter Valentina and I understood why; they are like our spiritual children are learning from us that way of living the spiritual essence with the Deep Love.

As soon as he moves away from the right, he approaches the left who would be his female partner and there this being tells me that they had been chosen as a representative couple to live this experience with me. She had a pink disk in her chest and I felt that I had to deposit in it, the most pure Love, where then a big heart is drawn.

There ends the experience of this first stage, since Sixto invites us to retire.

#### **Continuation of the xendra experience. Noon on 08/06/09**

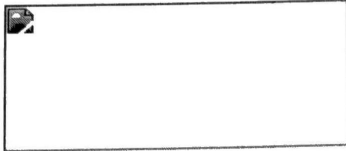

When I returned from the early morning experience, I reflected on what I had experienced and I was amazed to have been so calm and calm, to remember everything, not to forget every detail, even as the minutes ran longer I understood everything I had lived and understood. that following the order of the cosmic laws without realizing in the previous experience I had to give without expecting to receive anything in return so I felt that without asking, maybe something would be received in this second stage and I should be prepared, above all not to forget nothing, having all my antenna and heart attentive capturing everything, the best I could to then be able to communicate.

When Sixto calls us to go to the beach, walking towards it, I glimpsed over the little sand mountain that separated the camp from the beach proper to the couple of beings from Sirius with whom I had met a few hours ago. They brought a large white sphere between their joined hands. With a humble, reverent, affectionate and grateful attitude, which made me feel closer to them, they never expected me to meet me, indicating that they brought something for everyone.

When the 12 women enter the physical place of xendra again, this couple of beings from Sirius tell me to observe what is inside the sphere. There I see, on the right a Cathedral (which I visualize very well and to this day I keep it in my memory) and they tell me:

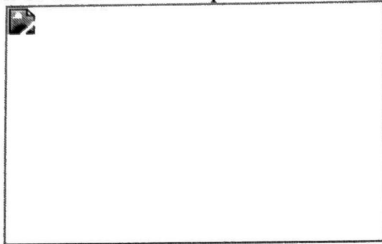

"There you will receive the complement of the information that we will give you today".

On the left I see the universe and our galaxy. They tell me to enter the galaxy and I do that. There I see the position that our galaxy has and how we are at the moment in the form of a spiral describing elites leaving Alción at the bottom and forming circles from least to greatest.

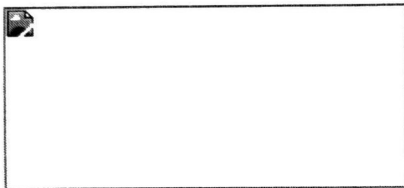

The violet point represents Altion.

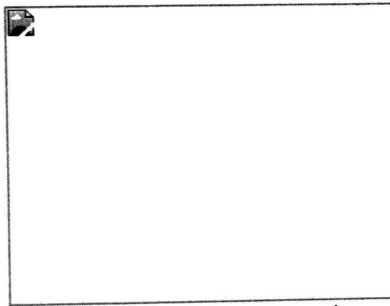

When the reconnection of the times takes place Alción will take a leap and everything will move upwards.

Then I see Alcion as coming out of a great ocean (cosmic ocean, placenta of creation)

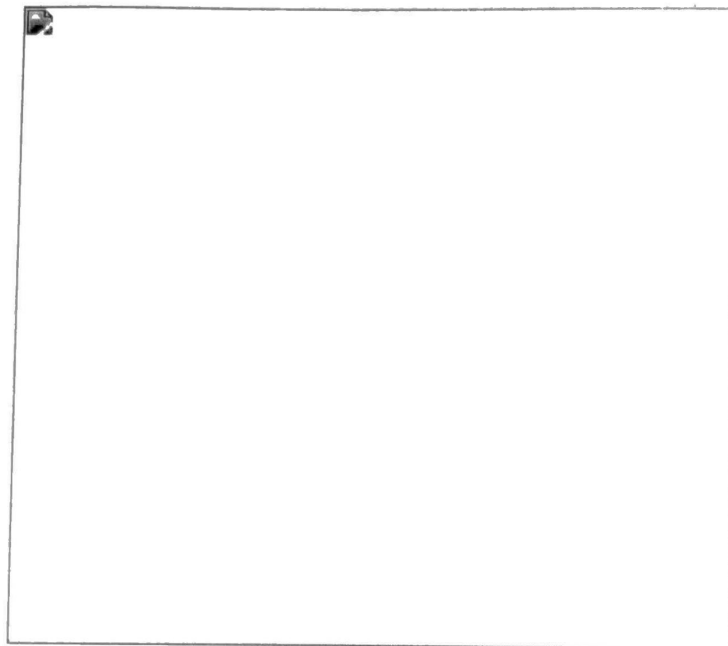

and with it, the first planet that will come out, will be our Earth. Our planet will thus begin to spin in ascending circles around Alcyon.

In a moment I see that the Earth when rising appears in another universe, another time.

In this new universe the sun is already created, but it does not have any surrounding planet because it is waiting for us. This sun is red and many times bigger than Alcion, it is called NION. Upon leaving our Earth to this new universe is positioned in one of the systems that is on the right. These solar systems are spiral but not as now but spiral up, like a spring.

After the Earth finds its place, only then will each of the planets begin to appear and find their place in this new universe and time. We will no longer share the system with the planets that we share today rather each one will find its corresponding place according to the divine universal order of the new time. At times I see that NION, the new sun, becomes a great flame of fire, and they tell me that the cosmic fire is the eternally creative force, the energy that governs this new time and universe will be LOVE.

I thank my little daughter Valentina for helping me to make the drawings, it was very entertaining.

I would like to add to this report the message I had received on 22.12.08 as a sign or advancement by the guides of what was already going to be given and what will be given:

DATE: 22.12.08

PLACE: group meeting - Colón (Uruguay)

ANTENNA: Naim Taxir Xiram

Question: They could give us specific guidelines of instruction and preparation for these 4 years to the reconnection of the times.

From the council of the confederation of worlds:

As you already know your planet and you. you are about to experience a qualitative and quantitative leap in your reality. They know that they must remain active in your consciousness of light and love if they want to be reborn. Maintain, then, your attitude of LOVE with those around you and with humanity as a whole in continuous irradiation as a single permanent BODY OF LIGHT.

BE LIGHT, LIVE THE LIGHT, BELIEVE in it, for it will guide you in the shadows.

2009, fertile land of ancestral knowledge awaits you in Uruguay. There in a single united body will consciously remember the reason why they have been created, project and work plan of the creator, wonderful eternally creative light. They will know then in their hearts where they will go.

2010, awaits in Paititi the conscious memory of the process lived in Lemuria. There you will approach the closest conscious memory that you had to the reconnection of the times. There they will live the forgiveness and they will really know what to do at the moment of reconnection.

2011, he waits for them prepared to face hard and violent confrontation with the forces of darkness. There they will really be tested and tested. They will show if really these years have served them in preparation and conscience. Few will remain, only those who were expected to arrive with their commitment to the end, which 2012 will find them more strengthened than at any time.
