

1187 Agincourt Road,
Ottawa 5, Ontario,
March 16, 1968.

The Honourable Maurice Lamontagne,
The Senate,
Ottawa.

Dear Sir:

I am most interested in the work of the Senate committee on scientific policy which has received publicity in the press recently, and I understand that this committee, under your chairmanship, will hear representations from individuals as well as from scientific bodies.

It will be much appreciated if I could be advised as to the procedure for applying to present a brief to your committee, as a private individual.

Yours truly,

A.R. Bray
