

of the observer and the score obtained from the answers to these five questions should form the guide for the score to be assigned to Question 28. If, however, the interrogator's opinion appears to indicate a substantial deviation from the total so obtained the score for Question 28 should be adjusted accordingly. The maximum score possible is 50 and under normal circumstances should be about the same as the total score for questions 3, 4, 5, 6 and 27.

In order to facilitate scoring, the attached overlay charts have been developed with the foregoing information incorporated. If the scores are entered directly on the appropriate chart, the total amount of arithmetic may be simplified accordingly. When the scoring is completed the scoring charts can be appended to the sighting report for future reference.
