UNIDENTIFIED FLYING OBJECTS
INVESTIGATION CENTRE

2nd August 1969.

Mr. Arthur Bray,
Bray Book Service,
PO Box 5051, Station P.,
Ottawa, Ontario, Canada.

Dear Arthur,

I trust you don't mind me calling you like that, but I always feel it makes for friendliness, and being quite certain that with my 62, although not feeling it, I take the step. Saw a picture of yours in a recent overseas magazine, in Spacelink UK No. 1/69 you can see one of mine.

Attached Money Order for Australian Dollars 15.00, which is about Canadian 18.50 or so. Let me know how much you get and I will send the difference which should be about the same then right away for the two invoices in hand.

A USA friend, P. Smith in California contacted you re book and got it safely, he wrote me this week. Had a little par in our newsletter No. 23, the three books went on that enquiry. Let me know, if any more to hand please.

Now I don't know if Gene Duplantier was in touch with you. Our president Dr. M. Lindtner, on the way to a Veterinary Congress in Europe will pass for a few days through Toronto. Arriving Saturday 9th inst. from Atlanta, Georgia, leaving Tuesday 12th August for New York. Would be nice if you could meet him. Contact

Gene please re arrangements made. Attached also photo of Miran, send it on to Gene so he can recognise Miran off the plane. Thanks. Hope to distance of 100 miles or so is no obstacle, as Miran has not many plans for Canada in the few days there and it is certainly a quite rare opportunity.

Hope my letter of 3rd April arrived safely. Closing now, to catch the mail, best regards.

Yours sincerely

William E. MOSER, J.P.,
Honorary Secretary.
