

or inhale it. Once inhaled or eaten from there it contaminates them and their milk, hence it get into the entire food chain.

W.S. - Well evidently those who receive this technology in trade figures that's the price you have to pay for it.

P.F.B. - The price you have to pay is what?

W.S. - Maybe they figure the 2000 lives lost can't be compared to the technology they are gaining. Who knows what the actual long range gain is. They may gain absolutely nothing when the whole thing is over.

P.F.B. - Somebody had better make a moral judgement - This one is going to hit the fan. If they don't do something - They didn't even take any health measures. They are trying to actually hide it from satellite overflight and aircraft. They knew I saw this
