

CENTER FOR UFO STUDIES

924 CHICAGO AVE.—EVANSTON, ILLINOIS 60202
312/491-1870

J. ALLEN HYNEK, DIRECTOR
PROFESSOR OF ASTRONOMY
NORTHWESTERN UNIVERSITY

Received 8/April '76

Dear Center Supporter,

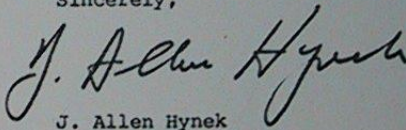

A year or so after the Center was organized, we began sending out notices to persons whose first donation had elapsed. In each case, it was my pleasure to write a personal letter thanking each individual. Indeed, the Center, and its supporters, has grown. Unfortunately, our staff has not! While we still appreciate and acknowledge every contribution, I find I can no longer make a personal thank you to each renewal.

The UFO phenomenon has been studied, and research has been funded, in a way unlike other subjects deserving scientific study have been - largely by the public. Few subjects which have received so much publicity, have such a great interest socially and possibly signal a new domain of nature and science, and have had so much "ink spilled" on them, have received so little funding. Funding comes largely from persons like yourselves, and your continued support of the work of the Center is certainly appreciated.

I hope that the enclosed reprint will interest you - it is one of general interest that is available from the Center.

Once again, our sincere thanks for your help in our research.

Sincerely,

J. Allen Hynek
