

BSRA No. 2 - N: WHO FLYS THE SAUCERS? Are they super-beings? Are they robots? Are they humanoids? Or all three? Even the sceptical Saucer researchers are now taking a closer look at the life-forms manning the elusive UFOs. They are re-reading the contactee stories for clues as to the identity and purposes of the Visitors or the Invaders. The answers are what they have always been since before 1947: Both Good Guys and Bad Guys are coming here from outer and from inner space. From the extensive files of BSRF, a 25-year accumulation of UFO data, Mr. Crabb marshalls the hard evidence for the reality of at least three different kinds of Visitors. This includes first-hand accounts of contacts with Tin-Can and Jelly-Bag robots, the Three Men in Black, with the advanced Guardian Viknors from Venus Etheria, and the Ashtar Command with its Guide Lines For Space Contact. 48 pages, illustrated, 8 1/2 x 11 mimeo print. \$2.25

BSRA No. 2 - O: MEETING ON THE MOON The Director brings the UFO picture up to date in 1969 with Clips, Quotes and Comments. This is a combination of two Saucer talks given to the San Francisco Interplanetary Club, Nov. 1968 and April 1969. It includes such subjects as the Madrid, Spain sighting of Sept. 1968, John Keel on the Men In Black, an American Flying Saucer, the Oklahoma Burn Case, Deros and Thought-Control machines, the Cavern World - Earth and Moon, Ashtar's view of Armageddon, Russians on the Moon in 1968, Radio signals from the Moon in 1938, the Mars Stronghold on the Moon in 1959 and attempts to contact it, and Ashtar's Creed of the Unorganized. 48 pages, illustrated. \$2.25

Reid
BSRA No. 2 - P: FLYING SAUCERS AT EDWARDS AFB, 1954 - This is a compilation of all the BSRA documents about the secret landing of UFOs at the Air Force Base, Muroc Dry Lake, California high desert. We have reproduced Gerald Light's original letter to Meade Layne on the UFO landing, received April 16, 1954, Layne's Special Bulletin of April 16, 1954, and the lengthy interview about the Muroc-Edwards landing with Ramon Natalli and the Yada through Mark Probert the following day, April 17, 1954. The general import of their conversation was that the world faced almost certain destruction by total atomic warfare at that time UNLESS our leaders were shocked into full awareness of their suicidal course. A show of presence, and force, by Guardian spaceships apparently was the method chosen. From our vantage point of an undestroyed world in the early 1970s, it appears that the 1954 landings were successful; for it is quite likely that similar landings, and warnings, were made at secret military bases in China and Russia at the same time. This brochure also includes special report 10-C-53, transcript of a dialog between the Yada di Shi'ite and four physicists from the aero-space industry in San Diego at the time, about the "interior gravitational pull of the atom" and other undiscovered forces. Illustrated, 8 1/2 x 11 printed, 39 pages. \$2.25
