Dear Mr. Glick:

I understand that recently, on your night show, you interviewed a minister who claimed to have gone on a trip to space for several hours in a flying saucer. I believe that this gentleman also wrote a book about this.

I will be very grateful if you could forward to me the title of this book, the name of the author, and the name of the publisher, so that I may obtain a copy of the book.

Thank you very much.

Yours sincerely,

Arthur Bray
