Dear Mr. Freed:

After my appearance on "Have Another" on June 10th, "Sandy" Leim wrote to me and suggested that I pass along to you any new information which might come to light and which might be of interest for a future program on UFOs.

I have therefore enclosed a copy of a full-page article which appeared in the Ottawa Citizen last Monday, which you may not have seen. As I was previously acquainted with the sightings concerned, I can assure you of the accuracy of the reporting in this article. Sightings of this nature continue unabated despite the negative "Condon Report" from the University of Colorado.

I expect I will have further interesting data soon, which I will pass along to you.

Yours truly,

Arthur Bray
