Dear Arthur:

Please accept my sincere congratulation your long time overdue book, which exposed your courageous action at your government and the United Nations toward the solution of the UFOs perplexing problem.

I glanced over your book because on January 27th I leave to London, where I will address to the House of Lords UFO Committee on the UFO problem and will issue the enclosed WASA project.

I certainly believe that the United Nations and Sir Eric's action will be enlightened before you in a new perspective. My affidavit will clear up before you, that I was removed from my UN post by the order of the US government as far your quoted letter of thank mention to the "PROJECT UN-UFO", which was elaborated and duly delivered, as the Secretary General's personal assignment on February 10, 1966. (Consult Green Memo p.7.)

In the hope of our close connection in the future. My son Dr. Attila B. Vonkeviczky is a Professor of mathematics at the Concordia University of Montreal. See him if you have a chance.

Friendly yours,

Colman
