Dear Art,

Now that most of the comments regarding the Symposium have come in you will be pleased to know that the greater majority indicated satisfaction ranging from good-+ to excellent.

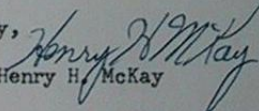

On behalf of myself, the United Friends and MUFON we extend warmest appreciation for your talents and efforts in making the Symposium a Canadian event.

We are in the process of clearing the final fiscal accounts and therefore request a statement on your personal travel expenses as there may be funds available to reimburse a certain percent of your costs.

Walter Andrus has provided additional copies of the Published Proceedings, for sale at \$13. Can. They do make an interesting gift to family, friends, your favourite reference library or science centre.

My personal thank you and look to an early reply,

Sincerely,

Henry H. McKay
