Dear Art:

Thank you for sending
us a copy of the Proceedings
of the Special Committee on Science
Policy.

Your brief submitted was very
timely, carefully prepared and
presented. I particularly
liked your recommendation re
the Orthodox Barrier being a
great obstacle. All too true!
"Rigidity" today should be an
"All Time Sin"

We are both proud of what
you have accomplished and

hope it will be read widely and
bear fruit

Sincerely,

Ela C. Woodward.
