

1187 Agincourt Road,
Ottawa 5, Ontario,

August 28, 1968

Mr Brian C. Cannon,
Director, CAPRO,
P.O. Box 1316,
Winnipeg 1, Manitoba.

Dear Mr Cannon:

Thanks for your letter of the 17th. I am glad that you found PROJECT MAGNET of interest.

Your comments re Hynek and Millman were interesting, and I appreciate you taking me into your confidence. I can assure you that your confidence will be respected.

By the way, Millman recently informed me that the metal sample from out your way was analyzed and found to be of about 95% silver, and nothing of non-earth origin. He also said that a copy of this report was sent to Michalak. I presume you have seen it.

There was no charge for the MANET report, by the way. I had thought that you received a copy of Millman's letter to me where he stated that, so I did not specially mention it. I did make a copy of the main report for my own files, but naturally that was my own expense, not CAPRO's.

I have enclosed copies of letters I have received recently in reply to my correspondence to follow-up on organizations that I sent my book to. No progress so far, I am sorry to say. Just for interest, I have also enclosed a copy of a book review which appeared in the Ottawa Citizen recently. I was quite disappointed with the review which Lorenzen printed in the APRO Bulletin of Nov. - Dec. '67. I even had to write to them several times in order to obtain a copy of it.

Will keep in touch. Please excuse the rotten typing. This is not my night for the keyboard.

Best regards,

Arthur Bray
