Dear Hank:

I was intending to write to you last night but had to take my car to the garage, but then your letter arrived today so I can answer it now at the same time.

I was, as always, pleased to hear from you. The news about your course was good to hear. I did not know whether you had been successful in getting it underway as the last I had heard it was still "planned". Well done.

I am glad to hear that you are in contact with Dr. Owen. When I saw that article in FSR, I tried to find out how I could get in touch with him but was unsuccessful. It was nice that you and your wife were invited over for dinner. Also note that you had the opportunity to meet Allen Hynek. You must have had a very interesting evening. Thanks for mentioning my Senate Brief. Hynek has already read it anyway.

I note your comments about Tennyson at Uof T. I have been engaged in some correspondence with him concerning my attempt to get a report of his UFO studies. He has not been very co-operative so far and something seems rather fishy to me. At the moment, he owes me a reply. I sent a copy of my brief to his boss, Dr. Gordon Patterson, when it was first published, so if he was really surprised to hear about it, then Patterson never passed it on to him (which would not surprise at all). Thanks again for mentioning it there - in fact for giving him a copy. It was kind of you.

What I was intending to write you about is that I will be in Toronto for a couple of days next week and would very much like to have the opportunity of seeing you, if it can be arranged. I will be flying down Wednesday morning and will probably be there until PM Friday. Will you be free either Wed or Thurs evening? In any event, I will call you early Wed evening to see if we can get together. I am sure we have a lot of notes to compare.
