

Dear Mr. Bray:

As usual I am quite busy with a number of research projects I have in the works, but I thought I would take the time to thank you for sending me Mr. Smith's notes. I am enclosing a brief biography of Dr. Sarbacher I recently found in a large volume he published intitlled "Encyclopedic Dictionary of Electronics and Nuclear Engineering." As you can see it outlines his unquestionable scientific credentials.

Sinsereely yours,

Brian Parks
