CANADA

Dear Mr. Bray,

Thank you for your order. I have shipped both items today, in a separate parcel.

With the arrival of Yurko Bondarchuk's book, UFO SIGHTINGS, LANDINGS AND ABDUCTIONS, I was planning to write to you to ask if and when your book, the one you were working on at the time of our last correspondence, has been or is about to be published. I would be interested in carrying it in our Information Service bookstore if so.

You had regested me to ask my husband about his reaction to a piece of metal that you had sent him for testing, but when I did so He could remember nothing significant about it, or even its whereabouts then. I am sorry to report that.

I hope you find the two publications of interest, and that I will hear good news about your own book.

Sincerely,

Mimi Hynek
