OS

08 JAN 1982

Mr. Paul F. Bennewitz
President, Thunder Scientific
Corporation
623 Wyoming, S.E.
Albuquerque, NM 87123

Dear Mr. Bennewitz:

Thank you for your recent letter to President Reagan forwarding a copy of your scientific report.

You will appreciate that as chief executive of our government, as well as Commander in Chief of the Armed Forces, the President cannot possibly respond personally to each communication addressed to him. Consequently, the President has directed that each Executive agency designate an official as the White House liaison officer who is charged with the responsibility of giving correspondence such as yours the same careful consideration the President would, were he able to do so himself. This is my duty in the Air Force and the reason I am answering.

The Air Force investigation of unidentified flying objects (UFOs) began in 1948 and was known as Project Sign. Later, the name was changed to Project Grudge and, in 1953, it became Project Blue Book. Between 1948 and 1969, the Air Force investigated 12,618 reported sightings. Only 701 of these remain unexplained. The Air Force ended its UFO examinations in December of 1969 because no evidence could be found that the sightings were a threat to national security or represented visits from outer space. The attached fact sheet explains the history of Project Blue Book and the Air Force's role in UFO investigations.

In 1977, the National Aeronautics and Space Administration (NASA) was asked by the President to look into the possibility of resuming UFO investigations. After studying all facts available, NASA decided that nothing would be gained by further investigation. The Air Force agrees with that decision.

I appreciate your concern and hope the attached information is helpful to you.

Sincerely,

Signed

Washington, DC

Dear Mr. President:

Enclosed you will find a copy of my letter and a copy of a Scientific Report just forwarded via Federal Express to Air Force Intelligence at the request of Captain Harris, Assist. to Chief of Staff, AF Intelligence at the Pentagon.

Due to the extremely sensitive nature of this report and relative to the prime necessity of the present and future safety of our Nation, I felt it prerequisite that you be copied; in the possible event that you are not totally aware of the present situation and status.

I am available to assist in any way humanly possible.

Sincerely,

THUNDER SCIENTIFIC CORPORATION

Paul F. Bennewitz

Re: Our telecon 0650 hours 11/16/81

Dear Captain Harris:

It was a pleasure talking with you. Thank you for your time; your interest is appreciated.

Your request as to suggestions I may have to possibly provide an initial answer to the present dilemma is attached in a very brief briefing report based upon the personally funded study I began in July of 1979 and what is known to date.

I have not attempted to go into all detail, though it is available; but rather only the prime crux of the matter discussed in our phone conversation of which you most certainly have a record.

I am certain you know the facts as well as I and I can understand because of what apparently did happen that the degree of classification would not allow you to discuss it in any way by phone.

Because you are AF Intell, I have assumed thus, in the attached, that you know all a-priori detail and touch only briefly upon those high points.

As to references - as indicated, I did, at the outset give two Flight Command briefings here at Kirtland with all of Wing Command present at the Commander's invitation.

The last briefing concerned the alien base location, with aerial photograph analysis. However, at that time I had not as yet examined the NASA U2 CIRs so other than one Commander who was in attendance, the others have not been made aware of this - at least not by me.

Throughout this detailed analysis and study I have kept the data reasonably covert for obvious reasons. However copies of this letter report along with other data has been distributed to key individuals in the event of my demise.

Personal references for your convenience are as follows with status and/or relationship of each to the project.

Major Ernest Edwards - Commander, 1608th Security Police Sqdn. Manzano Base,
Kirtland AFB, NM - Phone - Autovon 244-7803

Major Edwards has witnessed closely all events throughout including establishment of the first communications with the Alien since Jan. 27, 1980. He has unofficially provided valuable logistic judgment as the Project progressed.

SA Rick Doty - Kirtland AFB, Albuquerque, NM - Phone - Autovon 2442911

I have passed numerous data through Mr. Doty for his routing - he has seen the tracking ground station, witnessed and used computer communications, and initially determined the validity of what I am doing.

Brig General William Brookshire - Former USAF Chief of Security Police, Kirtland AFB, NM (now retired)

Gen Brookshire attended both briefings of Wing.

Brig General Jack Shepard - Past Wing Commander, 1606 Air Base Wing, Kirtland AFB, NM

Gen Shepard called the briefings and attended - has since transferred to a new station. You are free to contact these people to assure yourself of my personal and professional integrity.

Obviously the attached report contains no major detail - this can be provided later.

Summary

To make it an official part of the record at this time, I feel it necessary to point out in summary that: 1) At the outset, I gave freely of information in the form of data and official Military Wing Command briefings because of a deep concern for the safety of my nation. 2) I liaised frequently with OSI again freely giving data as it became available though I was personally financing the investigation and related costs. 3) Yet Air Force Intelligence chose to place me under electronic and personal surveillance; in addition to phone taps on all lines, rather than come to me directly and freely discuss the situation. 4) Let it stand - that in spite of this previous and continuing unjustifiable harassment, I am trying one last time because of my total concern.

Captain, we have a serious problem here. I hope you will give this your considerate attention and look forward to hearing from you. I will wait fifteen (15) days following your receipt of this letter for your reply. Please contact me directly if you have questions.

Sincerely,

THUNDER SCIENTIFIC CORPORATION

Paul F Bennewitz,
President

THUNDER SCIENTIFIC CORPORATION

2 December 1981

The Honorable Pete Domenici
4239 Dirksen Senate Office Bldg.
Washington, DC 20510

Dear Pete,

To date as noted, I have not heard from you and therefore assume with all of your new duties that you are very busy and just have not had the time. In light of that, I have taken the case directly to the Chief of Staff - Pentagon Air Force Intelligence. I talked by phone directly with Captain Harris, Asst to General John B Marks who was out of the office at the time.

The facts I gave Captain Harris were simple and straight forward as follows:

- 1) I knew the location of the Alien bases in Northern New Mexico in the center of the Jicarilla Reservation 4.5 miles northwest of Dulce, NM.
- 2) I knew that someone in the military made a deal with the Aliens several years ago giving the Indian land, cattle, etc. and apparent assurance of safety to the Alien intruder for Technology in the form of an Atomic powered ship at the same time establishing an extensive US base alongside to test the ship.
- 3) That sometime late 79 or first of 80 an argument ensued over weapons and the military abandoned; the final circumstance of the men unknown.
- 4) That I had high resolution official NASA U2 CIR (color infrared) photos in addition to low level and ground photos showing the base in total detail. (photos obtained legitimately thru UNM)
- 5) The ship design traded for is over thirty (30) years behind the alien technology.
- 6) I advised Captain Harris I knew of the two women and child near Austin, TX who were severely exposed to radiation at close distance from the ship in trouble and that it was seen to come west with helicopters (unmarked) and that the Government was quietly paying their hospital expenses.

Throughout the Captain claimed not to know - but listened and asked no questions. Then he said - "What do you want us to do?" "Send me a letter and tell me what you think we should do about it". Knowing it would be highly classified and he could not talk of it - to me this statement was for all intents and purposes an admission of the facts which are totally visible on the CIRs.

I have written that report and have enclosed a copy for your perusal along with a copy of the cover letter.

Major Ernest Edwards, Commander 1608th Security Police Sqdn of all security here at Manzano Base has been with this project unofficially since Jan 27, 1980 and has witnessed and provided logistics advice throughout. He has read the enclosed report - approved of its accuracy and agreed upon my sending it. His phone is autovon 244-7803 should you desire to talk with him to assure yourself of my professional integrity.

The meat of the problem is outlined completely in the report. Please read it carefully. I doubt that you have been totally advised. I am also very concerned that the President has not been totally advised of the situation and have forwarded a copy to him, cover letter enclosed for your record.

It is hoped you will value this valuable input and in time get in touch with me.

Best regards,

Paul F. Bennewitz

SUMMARY & REPORT OF STATUS
[WITH SUGGESTED GUIDELINES]

PROJECT BETA

Investigator - Physicist - Paul F Bennewitz

The following are key mile posts established or discovered during the continuing scientific study concerning Alien intervention and the result. (Study limited solely to New Mexico)

- 1) Two years continuous recorded electronic surveillance and tracking with D.F. 24 hr/day data of alien ships within a sixty (60) mile radius of Albuquerque plus 6000 feet motion picture of same - daylight and night.
- 2) Detection and disassembly of alien communication and video channels - both local, earth, and near space.
- 3) Constant reception of video from alien ship and underground base viewscreen; Typical alien, humanoid and at times apparent Homo Sapien.
- 4) A case history of an Encounter Victim in New Mexico which lead to the communications link and discovery that apparently all encounter victims have deliberate alien implants along with obvious accompanying scars. The victim's implants were verified by x-ray and Cat Scan. Five other scar cases were verified.
- 5) Established constant direct communications with the Alien using a computer and a form of Hex Decimal Code with Graphics and print-out. This communication was instigated apparently after the US base was vacated.
- 6) Through the alien communication loop, the true underground base location was divulged by the alien and precisely pin-pointed.
- 7) Subsequent aerial and ground photographs revealed landing pylons, ships on the ground - entrances, beam weapons and apparent launch ports - along with aliens on the ground in electrostaticly supported vehicles; charging beam weapons also apparently electrostatic.

- 8) Cross correalation and matching by triangulation, etc., to official NASA CIR (color infrared) high resolution films confirmed base locations and resulted in revealing US Military involvement yielding precise coordinates and the US base layout.
- 9) Prior alien communication had indicated military envolvment and the fact the USAF had a ship but due to studied alien psychology this was ignored at the time.
- 10) Subsequently, the alien communicated following verification with the CIR, that there was indeed a ship; actually more than one - that two were wrecked and left behind and another built - this ship is atomic powered and flying. The alien indicated it's basing location.
- 11) It was learned as stated that two women and a boy near Austin, Texas were exposed to severe radiation at close range and the ship was last seen going West with helicopters. In addition, the US Government was quietly picking up the expenses.
- 12) Subsequent inspection of motion picture photographs taken during the study revealed the US ship or one like it flying with the aliens. These match the CIR where two can be seen on the ground and in the later photographs taken on the ground after the base was abandoned.

So in very brief form the prologue to learning within reasonable accuracy what transpired prior to the end of 1979 or shortly thereafter.

The computer communications and constant interaction with the alien in this manner without direct encounter has given a reasonably clear picture of the alien psychology, their logic and logic methods and their prime intent.

It is important to note at the outset, the alien is devious, employs deception, has no intent of any apparent peace making process and obviously does not adhere to any prior arranged agreement.

In truth they tend to lie, however their memory for lying is not long and direct comparative computer printout analysis reveals this fact. Therefore much "drops through the crack" so to speak; and from this comes the apparent truth.

It is not the intent of this report to criticize or point fingers. Obviously whoever made the initial agreement was operating upon our basis of logic and not that of the alien and in so doing apparently walked innocently, in time, into a trap.

The alien indicated that the "Greys", apparently the group initially involved in the agreement were still upset about the initial capture and subsequent death of the first eight of their co-fellows.

Another group, calling themselves in the Computer language, the "Orange" - their base is on the west slope of Mt. Archeleta - directly west of the south end of the US base and near NW of the apparent main landing area they call, in the Computer language, "The Diamond". This, because from a distance, it looks diamond shaped in the photographs. when looking somewhat south west past the observation tower toward the ridged peak SE of Mt. Archeleta. This ridged peak has no name, I call it South Peak.

The base extends north of this peak to the edge of the cliff down which goes a road past a large alloy dome thirty-eight (38) foot across the bottom and with a twenty (20) foot hole in the top.

Based upon some of the aerial photographs during which the alien was caught in the open and launching - some launches appear to be coming from the direction of the dome. I would guess it is an underground launch egress facility. In the NASA CIR there is what appears to be a black limousine alongside the dome on a ramp. Surprisingly it is precisely the size of my 79 Lincoln Town Car. Wheeled vehicles and what appear to be Snow Cats or Catapillars can be seen throughout the CIR - car and truck tracks, trucks and jeeps. I don't believe aliens have wheels - humans do.

Numerous road blocks extend northward through the US base along a well maintained road thirty some-odd feet wide - apparently gravel - near all weather - numerous turn arounds and wheel tracks into launch preparation areas with the ships; pads marked with twenty-six (26) foot Xs and servicing facilities, tanks, etc. - two domed polygon high voltage buildings on north on the east side of the road, also an apparent foundation for another or a helo pad - test stands, human housing, water tank (thirty-two foot across) - and at one of the main road blocks, two large vehicles parked across the road. Also at that point another apparent black limousine with tracks leading to it to the west of the road. All tracks and vehicles have been dimensioned and match military vehicles. If I were to make a guess, I would estimate the likelihood that the apparent black limousines are CIA.

This is but a limited inventory of what was there on Sept 8, 1978 - included only as evidential matter for your perusal and confirmation. The road, which incidently the natives, the tribal chief, reservation police and highway patrolman know nothing about, comes in off of a trail from the north. Starting at the trail, line of sight to the large plateau area and the alloy dome, the road, in the middle of nowhere on the Jicarilla Reservation, is precisely 12,888 ft. long airline distance. The total alien basing area, which apparently contains several cultures(now all under the designation "Unity" in the Computer language) is approximately three (3) Km wide by eight (8) Km long. A conservative guess based upon the number of ships presently over this area and the number on the ground in the CIR and photographs; the total alien population at this point is at least two thousand (2000) and most likely more. The alien indicates more are coming or on the way.

I won't attempt to speculate in this report as to how the initial US contact was made - what transpired, nor how many were able to escape. The alien has communicated his account, and if totally true, it certainly is not palatable.

Much detail has been omitted for future discussion if desired - however the import is this. Constant computer communication - full on line in February of this year - manual prior to that - has allowed a constant accounting of what is and has been going on - conditions of morale and a total insight into "what makes the alien run". This is very valuable data.

- 1) Most importantly, the alien will allow no one to go without an implant and after knowledge of it is wiped out. They simply will not allow it. All indications are that communication or language cannot result without the implant. (with the exception of the Binary and the Computer) This would indicate a possible immediate threat or danger for anyone - military, Air Force, or otherwise that has been at the base. They will not remember the implant in any case (the contactee here included)

The reason for the implant is multiple for both language or communication by thought (there is no apparent language barrier with thought) and also complete absolute control by the alien through program - by their beam or direct contact.

I have tested this and found that during this programming the person is totally alien; once one learns to recognize the signs and the person then has no memory of the act/conversation afterward. If this has happened to the military, I need not elaborate as to the possible consequences. The victim's "switch" can be pulled at any time and at the same time they are "walking cameras and microphones" if the alien chooses to listen in with the use of their beams. No classified area of any endeavor in the US is inviolate under these conditions. However - realize - the scars, barely visible - can be seen - all are exactly located and all are accessible by x-ray.

- 2) Also note that all of the aliens - human, humanoid alike - all must have implants - without them, no direct communication is apparently possible. So one can most generally arbitrarily say that if a person states he/she communicated by thought with an alien - he/she most likely has been implanted. They may also claim to be overly psychic and be able to prove this - again through the link transplant, he/she is given the information by the alien and does not realize.
- 3) Most importantly, the alien, either through evolution or because the humanoid is made - will exhibit tendencies for bad logic (bad by earth logic comparison) so they are not infallible - in point of fact they appear to have many more frailties and weaknesses than the normal Homo Sapien. To the alien, the mind is key and therein lies a great weakness which will be discussed later.
- 4) They are not to be trusted. It is suspected if one was considered a "friend" and if one were to call upon that "friend" in time of dire physical threat, the "friend" would quickly side with the other side.

The computer indicates in comparison, that no known earth protagonist - Russian or otherwise exhibit these tendencies to any major degree indicating the danger involved in making any kind of agreement with these aliens - at least of this species.

- 5) The alien does kill with the beam generally. Results on a human will exhibit a three to four cm purple circle. If done from the rear, on one or both shoulders. The results on cattle are the same, essentially exhibiting purple beneath the hide, with burned circles on the outside.

6) Cattle mutilations are the other side of the coin and will not be delved into here though they are a part of the overall. It appears the humanoids are fed by a formula made from human or cattle material or both and they are made from the same material by gene splicing and the use of female encounter victim's ovum. The resultant embryos are referred to by the alien as an organ. Time of gestation to full use as a utility, ready to work appears to be about one year. A year in alien time - I do not know.

Solution: I doubt there is an immediate total "cure" per se - however, they must be stopped and we have to get off dead center before we find time has run out. They are picking up and "cutting" (as the alien calls it) many people every night. Each implanted individual is apparently ready for the pull of their "switch". Whether all implants are totally effective I cannot predict, but conservatively I would estimate at least 300,000 or more in the US and at least 2,000,000 if not more worldwide

Weaponry and Inherent Weaknesses

Weaponry is one of the keys and in the alien's present state we can prepare an effective offense.

One tends at the outset (I did) to look at their machines and say - there is no defense or offense. One is overwhelmed by their speed, apparent capability of invisibility and "cloaking", and other covert capabilities not discussed at this time. In particular - the beam weapons are themselves a direct threat and obviously one that must be seriously considered but not overly so.

Let us first look at just what this weapon is. It is an electro-static weapon with plasma generating voltages - and an internal storage device - it is pulse powered. The beam, totally effective in atmosphere can be loaded with hydrogen or oxygen. Range? Average, ground weapons - maximum two (2) Km if it is dry, capable of sustaining just so many full power discharges - slow leakage occurs continuously,

therefore, they must be recharged periodically. If it is raining the weapon becomes ineffective and is swamped thus discharged. The range is near totally lost at that point.

On the disks and saucers, the weapon is generally on the left side or top center and has a maximum range of two hundred (200) meters at which point it will plow a trench in desert soil. When fired - it fires both to the front and to the back equally. Reason? Because of their mode and methods of flight. If equilibrium is not maintained, the saucer will spin out.

Hand weapons? Estimate based upon visible damage observed, not too much velocity nor staying power but at short range - deadly (less than a .45 cal automatic). At one meter range, estimate of beam temperature 1600°F or higher; it can vaporize metal. Apparently the disks and weapons operate from a storage source. In time, without periodic recharge, this storage is depleted. The design they traded to us was at least thirty years old - employing an atomic source. Possibly they may still have some - it would appear so - their staying power is obviously much longer.

Aircraft Helicopter Vulnerability

Any of our aircraft, helicopters, missiles or any air flight vehicle can be taken down instantly with no use of weaponry. The alien simply need do no more than make one invisible pass and their bow wave or screen or both will take the air lift vehicle down. The pilot obviously will not even know what hit him.

For human on the ground, the alien can use weaponry or bow wave. The partial pressure envelop can hit with the power of a tornado - shock rise time and G force is instantaneous. However, they dare not hit the craft physically because they are fragile and in fact, under slow flying conditions within our atmosphere, hold a very tenuous position. Without power, balance or equilibrium, they loose it.

In brief - these are apparent capabilities observed and gleaned through the computer communication and observation. You may know of these, however, they are directly related to the last and final portion of this report. What can be done?

- 1) Because of the alien's apparent logic system (they appear to be logic controlled) a key decision cannot be made without higher clearance. All are under the control of what they call "The Keeper"; yet it would appear this is not the final say. Therefore, dependent upon urgency, delays of as long as twelve to fifteen hours can occur for a decision. How short/long this time frame under battle conditions may be, I do not know.

Because of this apparent control, individual instantaneous decision making by the alien is limited. If the "plan" goes even slightly out of balance or context, they become confused. Faced with this, possibly, the humanoids would be the first to break and run.

The same applies to their Mission Master Plan, if one can call it that. If pushed out of context, it will come apart - they will be exposed to the world so they will possibly run before they fight in the open. They definitely do not want that to happen.

Psychologically, at present, their morale is down - near disintegration. There is pronounced discension in the ranks; even with the humanoids. Communication can encourage this (no necessity to expound upon this other than to say because of their own internal vulnerability mind-wise to each other, therein lies a prime weakness). Inter-echelon or individual "trust" appears to be totally lacking so suspicion of each other is rampant. They are highly segregated as to levels - a "low" dare not conflict with a "medium" or "high" or it literally means death. Death being, to the humanoid, deprogramming or, in the end perhaps total physical death.

They appear to be totally death oriented and because of this, absolutely death-fear oriented. This is a psychological advantage. The computer also gives indications of a real possibility of adverse or "ground programming".

- 2) Consider their ships - most if not near all run on charge. That source depletes and so dependent upon size - depletion can occur for some within a week or less. Ships can replenish each other but only up to charge balance. This is done with antennae-like extensions and the charge is distributed observing conservation of energy laws. They can replenish from power lines - but again only to a point - so time of flight is limited. Deprived of their base recharge capability, it is indicated that all ships will come down within six months to a year unless they can get transported out - that is back to the prime launch ship.

The disks and saucers in general cannot fly in space because of their mode of flight. Therefore, deprived of home base, it is not likely they can survive. Their capability in power survival outlasts their capability in food or formula survival. If they do not get formula/food within a certain period of time they will weaken and die.

In the case of Mt Archeleta and South Peak, they are dependent upon the Navajo River for water supply and water to them is totally life. Without water they have no power; without power, no oxygen or hydrogen to service the ships and weapons. No water to sustain the organs and feeding formula.

Simple? Not really. However, there is a water intake and there is a dam upstream that can be totally cut off and the water re-routed to Chama, New Mexico. Should this occur, at least three of the internal bases will go down. They could possibly go atomic periodically but obviously problems without cooling.

Once the bases are pressed on a large scale, all disks and saucers will go airborne immediately. Troops on the ground can gain terrain cover to quite a degree - it is rough terrain.

- 3) Our need is for a weapon, workable and preferably not like the alien's. I believe unless the alien is caught unawares (with their screen up their weapons are equal so they are like children pillow boxing) there can be no result; the weapon must penetrate their screen and it must also penetrate the ground. I believe I have that weapon. Two small prototypes have been funded and constructed by my Company. Tests conducted to date indicate they do work and work rather well considering their small size. Because of this weapon's present status and proprietary nature (a basic patent is in process), the theory will not be explained here. However, the weapon appears to do two things at very low power. 1) The disks within it's range begin to discharge when exposed to the weapon beam. To counteract, they must apply more power and so doing consume more power. Again conservation of energy laws strictly apply.

This effect can be observed on the detection instruments as they back away in response to slow discharge. Discharge, at low power is slow but at high power in the final sophisticated weapon, the rate can be increased by many orders of magnitude. 2) Most importantly, this weapon can penetrate the screen - hull alloy, everything. They cannot shield it in any way. Lastly, because of the implants, the weapon's beam gets to them mentally; they lose judgement and indicate almost immediate confusion, particularly the humanoids.

It is believed at this early stage - based upon present testing that the weapon when full on and full size will kill or bring down disks at substantial range. The alien weapons operate substantially the same as their disks using a charge source and charge distribution. So, in the same sense it is indicated that this weapon design will pull their charge weapons down very rapidly.

The range of my weapon exceeds that of their present weapons and in its most sophisticated form can be readily computer controlled to allow extremely rapid tracking and lock-on regardless of speed along with electronic wobulation of the beam. It is a beam weapon and even at this early stage of miniature prototype testing and development, it indicates eventual superiority to their weapons.

- 4) Initial logistics would indicate a plan sequentially implemented as follows:
This plan does not include all requirements and preparatory safety measures to be employed by the ground force; however, if Air Force Intelligence desires to pursue the approaches suggested in this report, each significant requirement will be discussed in depth.

An attack must be directed near entirety on the ground for obvious reason. One would, if familiar with the alien capability, indicate that vehicle ignition problems will be encountered. This is precisely true; however, the reason for this is not mysterious but is based upon good solid laws of physics and are known. Experience gained through my study, it is now known how to prevent this from happening and will be discussed in detail at some later date. All electrical and electronic equipment must be "hardened" using these specific techniques prior to implementation. Because of the known capability of the alien (by use of scanning beams to know in advance details of planning) only the initial outline is presented in this report.

Again through the communicative interaction with the alien, testing has simultaneously been done upon this facet, i.e.eavesdropping and ways to abort this capability have been tested and proven.

The program would be instigated in phases. The first phase - planning and logistics - would include continued implementation and testing of the final weapon prototype

thru the pre-production stage. Production of at least fifty minimum quantity should be planned. Additional backup sources should also be included.

On a full time shift basis, it is estimated that at least one year or less would be required to arrive at the pre-production stage. A team would be organized by Thunder Scientific to accomplish this. The key work is now and would be done by an associated company, Bennewitz labs., Ltd.

Specific attack phases would be incorporated.

- 1) The first procedure would be to close the gates of the dam above the Navajo River. This dam would be held closed for the duration. Internal to the one cave, there is a small dam for water storage. It's capacity is small. There is also a discharge outlet downstream that could be closed causing waste water to back-up into the caves. The water is vacuum pumped apparently by some electrostatic means from the river. At close range, the weapon will take out this capability.
- 2) Once deprived totally of water for a minimum period of four weeks, conditions in the alien bases under discussion will have badly deteriorated. Psychological shock is extremely effective with the alien; total advantage can be taken by instantaneous action or planned observable deviation from the norm. At least three bases will go down.
- 3) If they follow their normal strategic patterns when pressed previously, they will launch most if not all ships.
- 4) Prior to the implementation of water deprivation, the weapons should be deployed at strategic hardened locations and activated in a certain pre-planned manner determined by final weapon coordinate locations.
- 5) This will put an immediate power drain upon those airborne and the alien weapons ringing their bases.

- 6) Because of the inherent psychological aspect of the alien, much can be done in the open with no attempt to preserve secrecy. Much of what is done can be of a diversionary nature. Under most conditions they will attempt to harass but will not openly attack.
- 7) Throughout and prior to this, the open computer communications link will be operational for continued psychological interrogation.
- 8) At some point in time - again resting upon battle status, the deployment of offensive forces will begin. This deployment should be done in a near instantaneous manner under certain special conditions that can be discussed.
- 9) The weapon system should be kept powered up throughout. In this manner, the disks will be made to stay airborne. They cannot land in the interval the system is powered.
- 10) When the weapon is used in one specific power mode, in addition to continuous discharge on the disks that are airborne and the ground based weapons, the mind confusion and disorientation will build in those personnel at the base and underground. At the end of four to five weeks or less, all weapons should be totally discharged and power out on the bases. Most personnel if not all, will be totally incapacitated. The feeding formula will be down and it's critical processing ruined. All embryos should be dead and all hydrogen and oxygen consumables depleted.
- 11) Based upon data gathered on the miniature prototype weapons, the full power weapons should have no problem holding off the disks. In many cases some will break within the first forty-eight hours without being directly hit.
- 12) At that point, standard weapon technology and logistics can come into play and used to the extent of destruction desired at the direction of those in charge.
- 13) The communications can be used throughout to determine status and near the end to attempt to instigate surrender. If no response results, then they should simply be closed in and waited out.

Summary

It is important to note that the initial implementation of the computer communications was not instigated for the purpose of talking to the alien for the "fun of it"; but was deliberately instigated to use as a tool to study, in depth, long term without physical confrontation, the strengths and weaknesses of the alien.

The weapon theory and prototypes were built to capitalize upon and test the two key and prominent weaknesses discovered. This in-house funded program has been expensive, in excess of \$200,000; done on behalf of our nation and handled in the best representative manner humanly possible.

1) The prime and weakest area discovered, probed and tested is exactly what they have used thinking it is their key strength - that being, the manipulation of and control of the mind; not only of command but also humanoid. Manipulated in reverse psychologically and by the language (computer) and due to the extreme of mental distortion and incapacity caused by the weapon, it has been found that this facet is for them a disaster and a directly vulnerable integrated weakness.

2) Though their ships are magnificent, they are also weak - solely because of their method and unique mode of flight. They do not have a stable fighting platform. Charge distribution can also be discharged. The weapon does this - even in it's present miniature prototype stage.

It is not the purpose of this report to imply that the overall problem will be solved with the capture of these bases. Obviously it will not, but it is a firmly based beginning with a high degree of rated projected success ratio. It is not intended to imply the alien will not fight; they may - though their inclination is generally the opposite - this basing area is key. Without it, their mission is in very deep

intended. It is noted that these are not the only bases on earth there are others. With a conservative estimate using typical logistic support numbers, it is not unrealistic to say there are 50,000 aliens within the ecosphere of earth and near space. Some of us will be first in the endeavor that is obvious - however, done now the advantage is gained along with new additional technology to prepare for the next stage. The key to overall success is - they totally respect force. And with them, the most effective method is to stubbornly continue to pick and pull at their defense with no letup. Faced with the total loss of a base that has taken years to construct, it is believed that their mission will be grossly weakened and badly slowed.

As Americans, in this particular instance, we must realize - that we in this case cannot rely upon our inherent moral principles to provide the answer. Negotiation is out. This particular group can only be dealt with - no differently than one must deal with a mad dog. That method they understand. They have invaded our country our air and they are freely violating the personal and mental integrity of our people. Therefore, in eliminating this threat most certainly we cannot be called the "aggressor", because we have literally been invaded.

In final conclusion A) They cannot under any circumstances be trusted. B) They are totally deceptive and death oriented and have no moral respect for human or human life. C) No negotiation, agreement nor peaceful compromise can be settled upon in any way. D) No agreement signed by both parties will ever be adhered to nor recognized and respected by the alien, though they might attempt to make us believe otherwise. E) Absolutely no quarter can be allowed under any circumstances. Once the offense is instigated, it cannot be abandoned. If it is, reciprocal reprisal will immediately result. They must be made to come down - destruct themselves which is a standing order if the ship is failing or leave earth immediately - no leeway of any kind can be allowed nor tolerated.

F) WE in our innocent human way, negotiated the first time by compromise - took too little with no major safeguards and allowed too much. We must not allow that to happen again.

From: Larry Melton, nitelife@wazoo.com
To: mayor@tiac.net

I have recently been searching the net on this subject and find some of this material believable. I am in the USAF stationed at Holloman AFB NM. The reason this subject interests me is because I believe some of it goes on here. I have seen Johnson Controls mentioned on some of the pages I have visited. Do you know what role they play in this? The reason I am asking is because there are a few secret sites located far out into the desert around this area and Johnson Controls is contracted for a couple of them. I know this because I deliver supplies to one of them once a week. The site I visit is called RATSCAT. The site itself is not classified but what they do there is. They have another site deeper into the desert called the RAMS site. All I know is that they do testing on secret new aircraft. I have reason to believe that the government is or has developed their own flying saucer, possibly nuclear powered. If you have heard anything about this I would love to know.

Thanks

Larry Melton

Hey Grant,

> As I understand what you said after the Roswell book Moore was contacted
> twice saying "You are the only person who knows what you are talking
> about." Then you stated that the second person who contacted him after the
> radio show in Albuquerque was Richard Doty. This small fact was new to me.

I looked at my text to see what I actually said. I didn't actually say that Doty made the call. Perhaps Moore told me this. Whoops.

> Did Doty make the first call? Then you said Falcon and Doty met with Moore
> at a restaurant in Albuquerque where he was given the document to check.
> Is this going to be in your book?

Oh yes. If we're lucky, they'll also include a reproduction of the actual page (the "Sliver Sky" document), which Bill found in an old folder and hadn't seen in almost 20 years.

> This issue is critically important to me, as you know I have a theory that
> the government has conducted some sort of plan of chosing targets to
> release UFO information thro' a controlled release of mixed information
> such as was presented to Moore.

I used this idea in the book and gave you credit as one of the researchers who was looking into the subject instead of dropping Moore like a hot potato, like most others.

> Moore was I believe one of the key targets.
He thinks so too, yet, even though he came as close or closer than anyone to the "truth," it was so inconclusive he still eventually dropped the study. In the book, I asked Doty about the "reality" of alien/ UFO interaction. He said yes, there is a presence and there have been contacts with the Air Force (among others), but he didn't seem to think it was too upsetting to his world view, and ultimately didn't think it made much difference in the big picture. Maybe he was told or programmed to say this, but like I heard Eddie Murphy say in a live performance one time

(when he was still funny) "Acquired taste is a funny thing. You
can even
get used to eating dogshit every morning."

CAUS

BULLETIN

#9

Ed. by L. Fawcett & B. Greenwood

December 1987

(Copyright 1987)

EDITORIAL

Well, we have mustered enough funds together to get this issue out! We expect to stay on schedule for the time being but don't look for too many 22-page newsletters soon. From time to time we will increase the number of pages to accomodate the statements we feel we must make.

To inform those relatively new to CAUS, and to clarify our stance on UFO matters to those who have been with us from the beginning, the following policies will be the basis of your editor's and publisher's activities:

- 1) UFOs (i.e. those sightings resisting identification after close investigative scrutiny) are a material, physical phenomena, not mirage or hallucination-oriented.
- 2) One may believe what they wish about UFOs, but until hard scientific evidence surfaces, we do not endorse any current explanation as to the nature and origin of UFOs. UFO means exactly what it says: UNIDENTIFIED flying object. When we decide to endorse a belief, if ever, we will no longer use the term "UFO" but a term more clearly reflecting what the objects are.
- 3) Government documents must come from certifiable government sources, endorsed in writing officially; or from reliable public archives or institutes for us to consider accepting them as genuine historical papers. The lack of official endorsement presupposes the possibility of "disinformation" or fraud by an individual or group of individuals, in or out of the government, acting on his/her/their own. This does not rule out the possibility of officially-hoaxed information but this would be a matter of case-by-case consideration. Generally, the more bizarre and unusual the documentation, the more scrutiny it will receive and the more care we will take in accepting it as genuine.
- 4) Eyewitness reports, not based on documentation, will be treated on a case-by-case basis. We will generally report such incidents for the purpose of putting them on the record for discussion and possible solution. Focus will be on military sightings or civilian sightings with clear government involvement.

Mr. Barry Greenwood, Editor
Mr. Larry Fawcett, Publisher
JUST CAUSE
P. O. Box 176
Stoneham, Mass. 02180

Dear Barry and Larry:

This letter is to follow up the paragraph in the last JUST CAUSE publication, Page 8, Number 13, September 1987, about my and others' receiving information from AFOSI Special Agent Richard Doty.

First, some corrections and clarifications.

1) "Majestic" is not the only reference I have heard for the UFO special studies group known as MJ-12. I have also heard "Majority," "Majic," "the Club," "the Committee" and 54/12. The letter-number combination is consistent with British and other intelligence organizations' longtime use of letter-number combinations as neutral titles for sensitive subjects. The confusion of different names could be another result of the disinformation and information-tracking plan used by MJ-12 since the 1940's to manipulate and confuse people investigating the UFO phenomenon.

2) The Nordic-type extraterrestrials, or "blonds," were known to me as the "Talls," in contrast to the small "Grays" or "Little Guys." (I believe the term "Highs" was used by Paul Bennewitz, Albuquerque.)

3) The time of my meeting with Mr. Doty was April 1983, not 1984. The location was the Air Force Office of Special Investigations (AFOSI), Kirtland AFB, Albuquerque, New Mexico. It was then known as AFOSI District 17. Later its designation changed to AFOSI District 14-06. Mr. Doty showed me an identification badge which named him as Richard C. Doty, Special Agent (SA), Air Force Office of Special Investigations. That matched the title and signature name on the now well-circulated 1980 Kirtland AFOSI documents concerning the UFO intrusions at the Manzano nuclear weapons storage area in Coyote Canyon at Kirtland.

In early 1983, I was working on the script for a documentary about the UFO phenomenon for Home Box Office (HBO). The meeting with Agent Doty had been arranged by Peter Gersten, the New York attorney working then with the Citizens Against UFO Secrecy (CAUS) which your publication represents. Attorney Gersten had met with Richard Doty and author/Focus publisher William L. Moore in Albuquerque on January 10, 1983. I understand Mr. Gersten also met privately with Agent Doty the following day. Mr. Gersten told me that Richard Doty had information about the 1977 or 1978 Ellsworth UFO landing (dates vary with different sources). Mr. Gersten said Agent Doty was willing to talk to me about Ellsworth and a meeting occurred at the AFOSI office at Kirtland Air Force Base, Albuquerque, New Mexico.

WRITER
DIRECTOR
PRODUCER
EDITOR

During the conversation, Agent Doty handed me some typed pages which were titled simply "Briefing Paper for the President of the United States" about the subject of unidentified flying vehicles. There was no designation of a specific president nor do I remember a specific date. Agent Doty said he had been asked by his superiors to show me the briefing paper, that I could ask questions, but could not take notes. The content described a series of crashed UFO discs at Aztec and Roswell, New Mexico; Kingman, Arizona; and a crash in Mexico. Extraterrestrial bodies from the downed crafts were retrieved and taken to laboratories for examination. The paper also described information from direct contact with the "Grays" about their extraterrestrial intervention and manipulation of the human race's biological, sociological and religious evolution. The paper outlined the government's efforts since the 1940's to ascertain the origin, nature and motives of the E. T.'s through Project Sign, Grudge, Gleem, Pounce, Blue Book and others and concluded with a list of some current projects: Sigma (communication with E.T.s), Snowbird (E.T. craft technology and efforts to fly one), Aquarius (overall research and contact program re: E.T.s) -- and one "closed" project with a name similar to Garnet which involved the E. T. connection with human evolution.

Agent Doty said I was being shown the briefing paper because the government intended to release to me several thousand feet of color and black and white film taken between 1947 and 1964 showing crashed UFO discs and extraterrestrial bodies as historic footage to be included in the HBO documentary, supported with official government confirmation. The term "Ebe" was also used to describe the "Grays," a government acronym for "extraterrestrial biological entity/s." Agent Doty said I would be contacted by other people regarding security and screening arrangements of the historic footage.

I called the Director of the Documentary Department at HBO and told her about the meeting and the pending release of government film. She and I agreed that complete silence was warranted until actual film, photos or other evidence were forthcoming.

But by the end of May, Agent Doty informed me that the historic UFO footage would not be released until a later date because of some "political delays." He also informed me that he was officially out of the film project, but that others would continue to contact me. Without the promised film or at least official signed letters of intention to release the film, HBO unfortunately decided the documentary production phase should not go forward. That decision is perhaps what the government's goal was all along.

I had done the 77-minute "A STRANGE HARVEST" documentary about the animal mutilation mystery for the CBS affiliate in Denver. That film contained many first hand testimonies associating glowing discs and/or tripod marks with pastures where mutilated animals had been found in great numbers in the 1970's and tapering off in numbers through the 1980's in geographic areas as diverse as Canada, the United States, Mexico, South America, parts of Europe and the Canary Islands off the coast of Africa. It was implied to me between 1983 and 1984 that my documentary "upset" some government people who do not want UFOs and animal mutilations associated in public media. Thus, a logical conclusion is that MJ-12 did not want that same filmmaker who did A STRANGE HARVEST to focus on the UFO phenomena for a national TV audience.

In spite of the HBO decision, there were other contacts with me about MJ-12's desire to release some of the historic UFO footage in a documentary broadcast, perhaps on PBS. But no film was ever released to me and I have no knowledge about AFOSI Special Agent Richard Doty's specific UFO work or contacts with other UFO researchers after the summer of 1983.

It should be noted that in a November 1975 radio broadcast in Houston, Texas that California film and TV writer Robert Emenegger told radio interviewer Frank Haley that in the early 1970's another government release of UFO footage was promised. Emenegger was working with Sandler Films in Los Angeles on a documentary called UFOS: PAST, PRESENT AND FUTURE, narrated by the late Rod Sterling. Emenegger and Sandler were promised historic footage about a UFO landing at Holloman Air Force Base to be included in the documentary for national broadcast in 1974. That footage was also withheld.

I, for one, have no doubt about the existence of an invisible and very powerful government entity challenged with extraterrestrial relations, communications, research and technology development -- whether it's called MJ-12, 54/12 or any other name. Its first mission was to retrieve and analyze the crashed discs and extraterrestrial bodies in the 1940's. In 1987, is MJ-12 still troubled, confused and in conflict within its own ranks about the consequences of the E.T.s' presence on this planet? Or do they know that we are nearing the end of some kind of Earth cycle superimposed from out there which will permanently change the fate of all of us? If so, perhaps MJ-12 has decided that public ignorance is still economic and public bliss, until ...?

Sincerely, *

Linda Moulton Howe

Our thanks to Linda Howe for detailing her experience with SA Doty. As you can see MJ-12 has deep roots and a clear link is evident between Doty and aspects of the MJ-12 story.

Recently several individuals have tried to contact Doty at Kirtland AFB, New Mexico. While a Richard Doty answered the calls, he claimed not to be THE Richard Doty. If this is the same Doty, which we think he is, he is clearly but clumsily avoiding discussing MJ-12. Again, more suspicious behavior!

the Editor

May 14, 1983

AFOSI Dist. 17/ B.I.D.
Kirtland AFB
Albuquerque, New Mexico 87117
ATTN: S. A. Richard Doty

Dear Mr. Doty:

Thanks very much for communicating my May 10 letter to government officials for their consideration. Am very sorry to hear there is a delay in going forward immediately with the meeting proposal, but am gratified to hear there is official affirmation that I will be contacted some time soon to meet with Tom and see materials.

1) I am scheduled to meet with the Director of Documentary Programming for Home Box Office, New York, on Wednesday, May 18 at 10 AM. For that meeting I would greatly appreciate receiving an official letter affirming the government's intention to release film and materials to me for the hour documentary I am trying to do for HBO about the UFO phenomenon -- specifically, the extraterrestrial factor. Originally I had hoped to be in production by June or July '83 and very much need some guidance about when I might be able to proceed.

The letter can be sent to the following address, hopefully to arrive Tuesday, May 17, in New York before the 10 AM Wednesday meeting:

Linda Moulton Howe
c/o Jean Abounader
Director, Documentary Programming
Home Box Office
1271 Avenue of the Americas
New York City, New York 10020
(212) 484-1344

cc: Linda M. Howe, letterhead address

There is nothing I want more to do than to work with the government in making this documentary about the Holloman and other related events.

2) To that end could special permission be given for me -- working with a government official and a trusted crew of two other people -- to film with the Colonel this month so that valuable first hand historic perspective can be recorded before the Colonel dies? I understand age has weakened him. To do this my crew of two and I are willing to sign secrecy oaths effecting us on the filmed material until broadcast. Crew members: 1) Susan Markowitz, Production Assistant, 320 Krameria Street, Denver, Colorado 80220 (303) 355-2707; 2) Mark O'Kane, Photographer, 1954 South Logan, Denver, Colorado 80210 (303) 778-7431; 3) Linda Moulton Howe, Producer-Director-Writer-Editor-Audio.

The day of filming I would turn all audio tapes and film over to the government official for processing and safe keeping until we go forward with the entire film.

Greatly appreciate your kind patience and help,

Linda Moulton Howe
