Mr. A. R. Bray
414 East 27th Street
Hamilton, Ontario, Canada

Dear Mr. Bray:

We are glad to welcome you as a new member of the National Investigations Committee on Aerial Phenomena. Your first issue of the NICAP magazine will be sent you in the coming month. Meantime, this letter is your receipt.

In joining NICAP you have become part of a great UFO-reporting network. We shall appreciate your help in securing authentic, up-to-date UFO information, such as newspaper accounts of sightings, editorials and other published stories on the flying saucers. In addition, please send us any verified unpublished UFO reports of which you know, and of course any personal observations.

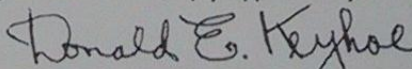

We hope you will join with other NICAP members in forming a local club or an already established group conducting serious research. Suggestions for forming such clubs will appear in our magazine, with the names of existing clubs and leaders.

It is important that all citizens realize NICAP's aims — careful evaluation of all UFO information and uncensored publication of all the facts. This applies particularly to members of the press and to radio and television program directors. Many individual members can assist by explaining NICAP's plans to friends in the press, radio and television fields. Later, special lecture and program material will be available, but meantime you will be able to use the NICAP magazine and our special bulletins to prove the importance of this UFO investigation.

Now for a personal note: We should like to know you, so that we can have an accurate picture of all of NICAP's members. For instance, will you tell us your occupation, your special interests, schools attended, military service, if any, etc? Also, we'd like to know your opinion of the UFO problem, what you think they are, where they are from, their purpose — if you care to tell us. Also, what questions would you like answered and what UFO angles do you want discussed? Will you let us quote you or use your name with other NICAP members? We'll understand, if not, but thousands of substantial American citizens are doing this and helping to end the already waning ridicule attached to the subject of UFO's.

Please tell interested friends about NICAP, or send us their names and addresses. Again thank you for joining with us. We deeply appreciate your support.

Sincerely yours,

DEK:RHC

DONALD E. KEYHOE, Major USMC (Ret.) DIRECTOR
