

Linda M. Howe/ Oct. 17, 1987

In spite of the HBO decision, there were other contacts with me about MJ-12's desire to release some of the historic UFO footage in a documentary broadcast, perhaps on PBS. But no film was ever released to me and I have no knowledge about AFOSI Special Agent Richard Doty's specific UFO work or contacts with other UFO researchers after the summer of 1983.

It should be noted that in a November 1975 radio broadcast in Houston, Texas that California film and TV writer Robert Emenegger told radio interviewer Frank Haley that in the early 1970's another government release of UFO footage was promised. Emenegger was working with Sandler Films in Los Angeles on a documentary called UFOS: PAST, PRESENT AND FUTURE, narrated by the late Rod Sterling. Emenegger and Sandler were promised historic footage about a UFO landing at Holloman Air Force Base to be included in the documentary for national broadcast in 1974. That footage was also withheld.

I, for one, have no doubt about the existence of an invisible and very powerful government entity challenged with extraterrestrial relations, communications, research and technology development -- whether it's called MJ-12, 54/12 or any other name. Its first mission was to retrieve and analyze the crashed discs and extraterrestrial bodies in the 1940's. In 1987, is MJ-12 still troubled, confused and in conflict within its own ranks about the consequences of the E.T.s' presence on this planet? Or do they know that we are nearing the end of some kind of Earth cycle superimposed from out there which will permanently change the fate of all of us? If so, perhaps MJ-12 has decided that public ignorance is still economic and public bliss, until ...?

Sincerely,*

Linda Moulton Howe

Our thanks to Linda Howe for detailing her experience with SA Doty. As you can see MJ-12 has deep roots and a clear link is evident between Doty and aspects of the MJ-12 story.

Recently several individuals have tried to contact Doty at Kirtland AFB, New Mexico. While a Richard Doty answered the calls, he claimed not to be THE Richard Doty. If this is the same Doty, which we think he is, he is clearly but clumsily avoiding discussing MJ-12. Again, more suspicious behavior!

Dear Grant:

Just got a letter from Mrs. Rosetta Holmes who says you are "a very nice man from Canada." Guess you really made a good impression on her. That's good.

I have no more copies left of THE BOYS FROM TOPSIDE by Tim Beckley. It may be reached at Global Communications, 303 - 5th Ave., Suite 1306, New York, NY 10016.

Wilbert told me he was somewhere where a saucer landed along with others, and spoke to the beings from the craft. They talked about invisibility and the beings said take a small stone and when he goes into the ship, it will disappear, then throw the stone at the place the saucer was. He did and although he could not see the saucer, it came off something metallic and invisible which was still there. Then the ship re-appeared. This was to show that they could bend light rays so that things could become invisible to the human eye.

You may want to write Mrs. Smith at 180 MacLaren St., Apt. 1003, Ottawa, Ont. Mrs. Carol Halford-Watkins was editor of TOPSIDE and lives at 95 Centre St., Aylmer East, Quebec.

Enclosed is my current catalog on UFO books which may be of interest to you.

Best of luck with your project!

Sincerely,

Gene Daulton
