Dear Brian:

It has been a long time since we have corresponded and I am out of touch with what you have been doing. I hope you might bring me up to date soon, Brian. For example, just what is your Independent Research Centre? I am very curious, and interested.

I am still awaiting a report from Millman on the chunk of metal. I have spoken to him several times, and had a letter as well, with "interim" reports about foundry slag, but I am very dissatisfied with the approach he is taking to all this. I do not think his final report, if I get one, will settle anything, as he is simply adding more ~~fuel~~ fuel to the fires.

My brief to the Senate has finally been published (last week) and as I promised, I am sending you a copy, by separate mail. It will also go out today. It will now be of interest to see whether the matter of UFOs will be mentioned in the actual report of the Senate Committee when it is presented to the Government.

Regards,
