His Excellency Edward R. Schreyer,
Governor General of Canada
Ottawa, Ontario
CANADA

Your Excellency:

It is indeed a great honor to present to you for your deliberation and action, and that of your esteemed government the enclosed Memorandum addressed to Her Majesty's Prime Minister Margaret Thatcher to initiate at long last a World Security Congress on the crucial and sinister UFO problem.

The urgent and vital necessity of this Congress is reasoned by

- 1/ The Military and Space exploring powers UNDECLARED WARFARE and provocative armed confrontation to the militarily verified UFO forces of galactic origin. (Consult the enclosures of the Presidential Memorandum.)
- 2/ The UFO forces fairly increased global operation concentrated upon the critical territories of the Earth, and the grand strategical operations on the ground, in the air and outer space. (Reports are suppressed and censored by the "national security".)
- 3/ The insane arms race of strategic weapons in outer space against an "unknown enemy", because the USA and the USSR during the SALT I-III solemnly declared to the nations "the arms race is not against each other but only for selfdefense"- AGAINST WHOM? (See Encl. # 5.)

In June, 1978, United States State Department warned the nations, - in 21 November, 1981, the National Security Council - as response of ICUFON's Presidential Memorandum - confirmed repeatedly as a fact that "Aliens from other solar systems are a potential threat to us, AND WE ARE A POTENTIAL THREAT TO THEM." (See Encl. # 2 and 4.)

It is our firm belief that the fact that four decades have elapsed is enough to convince your prominent statesmen and authorities that action on the subject is long overdue, when the common sense and the due responsibility suggest - ACT BEFORE IT IS TOO LATE...

Assuring you of my honesty and sincerity, I remain

Most respectfully yours,
Colman S. VonKeviczky
Major Ret. Colman S. VonKeviczky,
Dir. of ICUFON MMSE
