

Report on "Old Iron"
the Les Ecouents OBJECT?

12th November 1960

Plan "1"

Interview with Mr Chs Derville

Object found around the date of June 12 this only opinion
Statement of Mr Derville only two large lumps of old iron
appearing to be rather like slag iron eg badly burnt

One part of this old iron was found only a few feet
out from the high tide mark. The second was few hundred
feet out both parts found on bed rock.

Depth of water a high water
not more than 5ft normal

*
part "2"

Deep Water

Port one and two did not.

" Make any sound on arriving at shore found position

" Make any form of incident there in the bed rock

Both parts are quite heavy for its sizes eg 600 to 630 lbs
and 1,800 lbs

Mr Derville told his 600, 630 lb part to Arch & was in
company of Quebec Port 2 claimed by Carde.
