Austrian Scientists "RETREAT" Before VonKeviczky's Documentation

A public TV program four times (Sep 21, Oct 18, Nov 8 and 23) considered in Vienna to convene a panel debate of scientists with various aspects on the UFO problem.

The TV station suspiciously postponed and postponed the date. Finally a whispered explanation revealed before ICUFON's representatives that no scientists were encouraged to face Major VonKeviczky's presented Pentagon and military "guns" and let to shot down before the public their theories. Namely VonKeviczky's documentations and analysed photographic evidences were exhibited during the Intercosmos Conference and interviewed twice by the Radio Wien.

The Vatican and the UFO Problem

On November 2, I visited in Rome the Vatican City Administration, regarding to present my documentation to the Supreme Pontiff John Paul II. The office informed me, to file request with the Secretary of State: Cardinal Agostino Casaroli.

On November 22, the Secretariat of State, Monsignor G.B. Re informed me that he appreciated my documentation - ON THE POTENTIAL THREAT FROM THE OTHER SPACE (as United States' State Department declared) - but an audience to present its documentation and evidences to the Supreme Pontiff John Paul II "IS NOT POSSIBLE."

I am firmly convinced that Pope John Paul II. has been never heard about my request and saw its enclosed documentations, - b u t I accomplished my human duty!

The Voice of the Public:

"Thanks God - a man after all presented to us the PLAIN TRUTH ON THE UFOs, and at long last let us to realize what the UFOs really are."
