28 January, 1981

Memorandum for a World Authority For Spatial
Affairs (WASA) to insure humanity's basic sur-
vival in confronting the current global crisis

The Honorable Ronald Reagan
The White House
Washington 20025, D.C.

**This VITAL MEMORANDUM has been
SUPPRESSED and SILENCED by the
International NEWS MEDIA.**

(USA: New York - UK: London)

My Dear President Reagan:

I was the only citizen of the United States, who as a military research scientist on the UFOs global problem became a persona non grata of the Lyndon B. Johnson administration, which in 1966, placed me illegally on the notorious security risk of scientists. The reason was that in February/March, 1966, as a public servant of the United Nations Secretariat, I proposed through verified evidences to my Secretary General U Thant, and his Cabinet the following:

- 1/ The UFO forces potentially dangerous operation, as a global security and scientific problem, ought to be surveyed and controlled by the United Nations in a coordinated international effort. (Consult Encl. No.2, Blue Memorandum - BM 10-12, 22)
- 2/ The nations of our celestial body should seek contact and communication with THESE extraterrestrial forces through an established International Authority, because since at least 1952 (issue of the JANAP-146), the galactic origin of these spacecrafts had been confirmed by the military and space exploring superpowers, and the nations' military defense. (BM 32-52, 77, 79 and 54-77)
- 3/ The United Nations should prohibit any armed confrontation with the UFO forces and provide, as established in its charter, for the fundamental international security. (BM 105-113)

As a loyal republican, and sustaining member of the Republican National Committee (Enclosure # 1.) I, Colman S. VonKeviczky, directed my ICUFON organization to refer the above mentioned International Project to President Richard M. Nixon in October of 1973, and to President Gerald R. Ford in September of 1974, and now presently entrust it into your hands in order to ESTABLISH THIS AUTHORITY WITHIN THE UNITED STATES OF AMERICA. (Encl. #2, Project WASA)

A Thwarted Project: The vital necessity of the 1973 and 1974 motions was motivated with the following:
