COLLAMBAY AND THE DIMENSIONAL CHANNELS OF THE XENDRA (Departure 30-31 May 2015).

(By: Gino D'Angelo)

We were already in the vicinity of Collambay, on the way to our campsite. Once again we would be in contact with nature and with a different and transcendent reality manifested in the extraterrestrial presence and the Masters of the White Brotherhood of Retreat there. The road of ascent was leaving behind our occupations and pre-occupations of the city.

Already in the camp, twenty-six people were ready to start our customary internalization practices. This time, the Rahma contact groups, at the suggestion of the same extraterrestrial Guides, had agreed to make such an exit. Thus, the groups in Peru had sought parallel outlets, as they had not done since 1981, and precisely to share

experiences of initiations. As an interweaving network we would effect joint radiations of energy for peace and love towards our world: around 6 PM, and 12 at night on May 30 and at 10 AM on the 31 st day. And all the groups would be working from their respective cities polarizing the energies of this part of South America.

Photography in Collambay. Place of the camp 05-30-2015.

We started our work with an interior and place harmonization, we vocalized OM and we went internalizing and connecting with the Blue Light, energy of Divine Protection, Force and Will and that would protect all the positive intentions of this meeting so that they take to effect. We visualize Violet Energy, Magic, Transmutation, Mercy and Forgiveness to transmute any discordant energy in us, healing our physical bodies and balancing and harmonizing our subtle vehicles. We saw how our own energies flow freely and harmoniously in and around each one. Our emotional body was also entering a state of peace and balance and we cleanse ourselves with the Violet Light of fears, fears, guilt and resentment. And our thoughts became increasingly positive and peaceful, freeing us from complaints, judgments, criticisms, etc.

Then, we take advantage of the channeling of solar energy, the Golden Light, in a practice previously suggested by the Extraterrestrial Guides themselves. We visualized how from our Sun, in connection with the Center of the Galaxy, this energy flowed towards our

chest, forming at the height of our heart a yellow-golden INSIDE SOLAR DISC. We saw how this energy illuminated more and more our own inner sun that in turn radiated to all corners of ourselves enveloping us and impregnated us with Golden Light.

We vocalize then RAMA Y AMAR. We felt beings of light, beings of the cosmos, channeling towards us and the whole place, the new solar codes of evolution and action for this new evolutionary moment, for this new time, and that as information flowed towards us from the Sun and Center itself of the Galaxy.

We pointed out that the Golden Light connected us with the presence of the Christ in us, and that also the new information of this new cycle, of this new era, flowed and settled in each and every one of us.

We connect then with the Plan for our world through the thoughtful and felt repetition of each phrase, of each word, of each idea, of the Great Invocation.

And so we quickly intoned ourselves in a process of directed internalization.

Our next work, around 6 PM was to radiate to our planet, with thoughts of light, peace and love, but this time we would do it differently: singing and dancing, feeling Mother Earth under our feet and listening to her very heart, thanking him for the different incarnations lived here. A small drum was used for this, to mark the beat, singing and moving in the circle that we had all formed there. The song learned in the 2nd meeting of Unity and taught by Sister Abjini Arráiz, internalized us in such a way that we really felt and became one with Mother Earth.

"Mother, I feel you under my feet ..."

"Mother I listen to your heart ..."

"Hella, Hella, Hella, Hella Hella Heoooo".

"Mother we give you all our love ..."

"Mother, thank you in the name of humanity ..."

"Hella, Hella, Hella, Hella Hella Heoooo".

As night fell, we proceeded to receive communications:

The Guides were already projected on the site and this is one of the messages received:

COMMUNICATION: Collambay (Trujillo-Peru)

DATE: 05-30-2015.

ANTENNA: GDS

Close to you, ready to maintain mental and spiritual union with you.

Courage, do not let yourself be defeated by that material part that, although it allows you to live in your world, can walk hand in hand with your Essence.

They are willing and so we see them. The Elder Brothers will coordinate the announced Xendra and they will also give you the Crystals of Cesium and Light.

Be open to every situation, circumstance. Try to see beyond your senses because they will be enlightened if they see with eyes to see.

In the Xendra, relax, let go and let go of everything you are not satisfied with and flow with Energy. The rest leave it to your Guides and Elder Brothers.

With love

ANITAC and XOZAIN.

The Crystals of Cesium.

At the end, they began to feel the energy prior to the delivery of the crystals that surrounded the entire center of the camp. Likewise, white silhouettes could be observed that were mobilized. Clearly the presence of the Guides was perceived and noticed in the place.

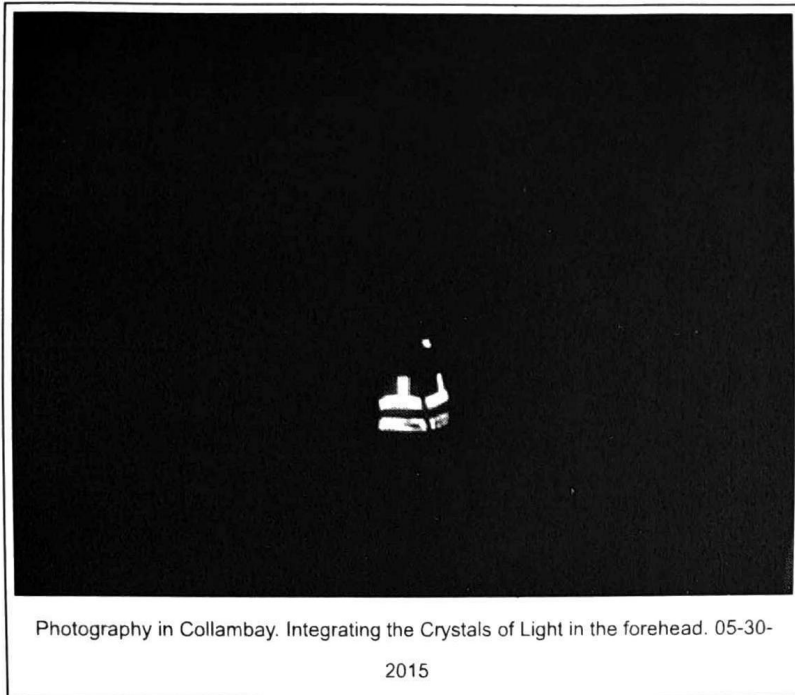

Thus, the Crystals of Cesium and then the Crystals of Light were received by the brothers who still did not have them. Afterwards, those brothers who had already received them, also prepared to receive the energy of Cesium to reactivate their Crystals.

Currently, for the time and evolutionary moment that is being lived, the Crystals of Cesium and Light are occurring in a massive way. In the case of the Cesium Crystals, even brothers are being given that have nothing to do with the RAHMA process and this is because, as the Guides said in 2012: "The violet energy from the Manasic Sun will continue to come to a greater extent, For this reason, the delivery experiences of Cesium crystals and Xendras will continue to be lived and our support will continue to be given at that level, beyond the sightings of our ships. Prepare the people, their friends and family for all these changes that will continue to take place. "

As we know the Cesium Crystals act as an energy center in our chest, channeling the Violet Energy and distributing it in the person in a harmonious and beneficial way. The crystals of Cesium also act as protectors of the subtle spaces of man. Also as connectors with other realities,

and also act as magnifying moons, amplifying the energy directed by the person in chains, irradiations, healings, channelings and can even act as decoders of information or symbology, perhaps as the Urim and the Tumin of the ancient priests.

The Crystals of Light.

The Crystals of Light, also called Cristales de Luz Crística, another initiation to which we agreed thanks to our Elder Brothers, are projected on the palms of our hands. They are two small pyramidal crystals of golden color in the upper part of which a small elongation is formed in the form of a CROSS of bright white energy. Once finished semi-materialized, they are integrated no longer in the chest as the Cesium Crystals but in the area between the eyebrows and forehead, forming in the center of the head, in subtle planes, as if it were a seal, a shiny golden diamond with the white cross to the center.

These Crystals contain Christ Light Essence, Energy of a dimension very different from ours to open and activate in us a seal of conscience, to connect with the Christ presence that flows in this stage of dimensional transit of our Planet and Humanity. According to the extraterrestrials around our Planet there is an Energy network that some know as Planetary Nodal Network or Planetary Christ Network. Through this network Critical Energy, Golden Energy, flows to collaborate with the Ascension process of our world and humanity. In previous messages, in this regard, the Guides told us:

"You have the Heart, now you receive the Light, so put Will to continue in the ascent ... Receive the Love of the Beloved Master Jesus ... Peace for you RUMILAC and SAMPIAC" (Communication, Trujillo 07.09.1985)

"... The Crystals of Light also called by you Cristales Crísticos, energies concentrated by the Elder Brothers of the Council of the 24 Elders, represent for you a veil that rises, but they are in themselves pure essence that approaches your plans of land to infuse them with the Love of the Christ presence ... CERES, SAMPIAC, RUMILAC ". (Communication Trujillo 13.02.1986).

"Your world requires irradiation, which batteries you have to emit. Feedback is generated and established. Benefited are you and your environment, your world in Dimensional Ascent.

Certainly, there is a Network that seeks to activate itself in all its points for this immediate ascent, through which flows the energy of the Christ, Love; for that reason your disposition must be of Love ". (CERES, RUMILAC, OESCEVE "(Communication Trujillo 22.Nov.2006).

The purpose of the delivery of these crystals is to support us in the process of ascension that we are living, a process that lives our Planet and that pushes the human being to evolution. As we know our Planet is rising from the third to the fourth dimension of consciousness, we are in a moment of gradual transit and in this time new energies arrive to us to collaborate in this dimensional transit.

As we know the beat of our planet, evidenced through what we know as Schumann Resonance and that had remained on average in 7.8 Hertz, like the vibration of the hypothalamus of mammals, has been suddenly increased to more than 12 That is to say, this vibratory acceleration is not only affecting our planet but also to the human beings who are driven to increase their vibration. In this new time and new evolutionary cycle, the Light begins to reach us in greater intensity. And this allows us to see and see ourselves. Our low frequencies are exposed to change and transmutation.

The Crystals of Light, located in the area of the hypothalamus, Pituitary and Pineal would act as regulators to face and face our processes of change, ascension and connection with the new plane of consciousness to which we are accessing.

With respect to these Crystals, the **ROMBO** would represent the Diamond, the Light and the Knowledge, but also the four corners of the

earth, the 4 elements, the Mother Earth, the entrance to the intraterrestrial world, etc., while the **WHITE CROSS**, would represent the Ascent of man to higher planes of consciousness, detachment, liberation, the return to Unity. It is the union of Heaven and Earth. The Crystals of Light are really activating tools of the Consciousness.

These Pure Essence of Light in the head would radiate to the sixth and seventh chakras. The sixth chakra has to do with the Light and the Knowledge of the Self.

The seventh Chakra or Crown Chakra is the source and the starting point for the manifestation of all the other energies of the chakras. Through this center would enter the divine or spiritual energy. It is the center of the Christ Consciousness, or of the Buddha and here we are united with the Divine Being, with the Enlightenment, with the Cosmic Consciousness.

It is in the seventh Chakra that the supreme perfection of man is based. In the East, it is represented by the Lotus Flower of the 1,000 petals. In its external part it has 960 petals. Inside is a second flower, which has **12 golden petals**, which is directly connected to the **12 golden petals that have the Lotus Flower of the Heart** and then there is a direct connection between the energies to develop in the subtle counterpart of the heart (4th chakra).

Love - Wisdom

The Guides have also told us about Love-Wisdom.

Is it then that we have a connection with the heart in our mind, in our head chakras?

Could it be that when we awaken Love in the 4th Chakra, we also awaken our head chakras?

Why are these Crystals or Christ Light Essences integrated in the head and not in the Heart?

The answers may be found in some Oriental information on the subject of the chakras. As we said above, we know that chakras 6 and 7 are like entry doors to higher levels of consciousness. The 6th is related to vision, to having light to see beyond, and the 7th chakra is related to enlightenment, to Cosmic Consciousness. And we know that the 4th Chakra (Heart) has to do with Love.

Could it be that when we say **THE DEEP LOVE OF COSMIC CONSCIENCE**, we are associating the **HEART WITH THE CONSCIOUSNESS** (The 4th with the 7th Chakra)?

Could it be that Deep Love requires a Cosmic Consciousness to Be?

Or that Cosmic Consciousness manifests itself through Deep Love?

Is it that we have to pay close attention to the pineal gland, the pituitary gland, the hypothalamus that are related to the chakras of the head?

We now know that in this process of vibratory acceleration that our Planet lives, the hypothalamus is seeing itself in some way equally

affected. The hypothalamus is the one that practically controls and regulates the production of hormones in the whole endocrine system, for that reason the symptoms, that so much have been spoken, of the process of planetary ascent. The Crystals of Light act as regulators of this process of increase of vibration to allow adaptation to the new spiritual energies, of Light, that flow in this New Time.

We can say:

"The Crystals of Light are spiritual and subtle essences projected onto the palms of the brothers' hands, they assume the pyramidal form of a whitish golden color and a projection at the vertex of the pyramid in the form of a brilliant white cross. or also called Cristales Crísticos or Cristales de Luz Crística, because through them, this type of radiation is better channeled to our ground planes, they are smaller than the Crystals of Cesium and vibrationally establish at the moment of their materialization in the hands, a relationship with the etheric level of the body.

After fully formed in both palms, they are integrated into the head of the person, bringing the hands to the height of the forehead. What we could see, after being integrated into the forehead was a golden rhombus in whose center was located the white cross, symbol of the sacrifice for the "death" (harmonize) the ego and personal interests but more than that it symbolizes life, the ascension to a new state of consciousness.

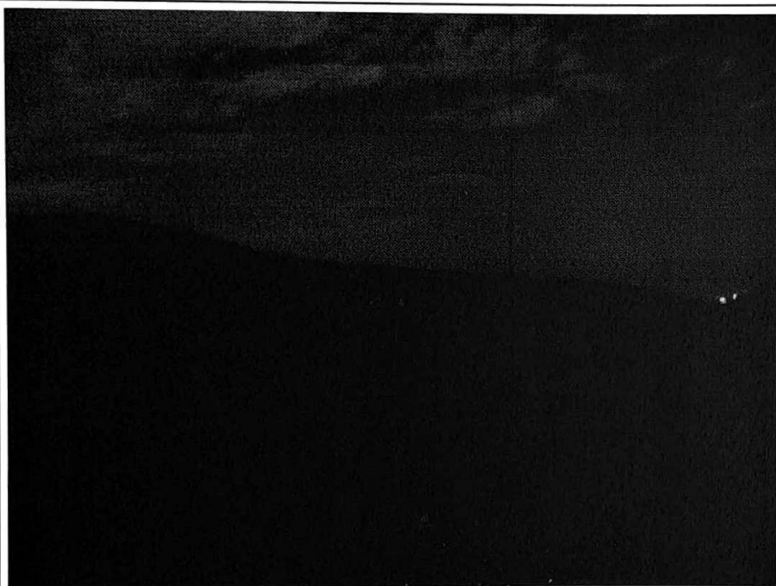

These crystals are activated with the felt experience, an experience charged with love, channeling and capturing in that moment energies of higher realities that vibrationally accelerate in the person certain states, both in the mind and in the basis of consciousness. These crystals are an element to perceive better and get to identify with higher states of consciousness, because in addition to being structures are energies and as such have a vibrational state, which is compatible with all the positive we have inside. They are a kind of bridge between the energies of Light coming from Higher Dimensions with the level of human consciousness. They are not compatible with any kind of attitude that is not positive, but they are activated when there is a deep experience in us, associated thought-feeling, which allows us to amplify and broaden our consciousness".

It is necessary to observe that these Cristales de Luz Crística are as activators or as tools that collaborate with the development of the

person who receives them. And to add that all with their effort can meet their own internal teacher and as a product of the experience of love manifest that Presence so many times sought and so little found. We are living an unprecedented time in which very powerful energies flow and of superior dimensions that collaborate and support human development itself. Perhaps in the past, the search and spiritual encounter or the development of individual consciousness took other forms. Nowadays the water of life has been poured to quench the thirst of every sincere seeker. And the time has come when our paradigm changes: that of considering ourselves human beings living spiritual experiences to understand that we are spiritual beings living a human experience. Certainly, we live a New Time.

"... You are the meeting with the teacher, and with the teacher found." (Oxalc Communication 10.08.1974)

The Xendra of May 30 in Collambay.

One of the groups crossing the Xendra 3-4 Gimbra. Photo Collambay 05-30-2015

We went to locate the Xendra, which was already ready to be transferred, so in the end entered 4 groups. In the place the silhouette of some projected Guides could be appreciated and also the presence of the Master Joaquin could be perceived.

More than one could feel and connect with the energy of the Xendra, with that already known heat energy that made our bodies vibrate and more than one, internalizing, could connect with himself in personal experiences and promoted by the technology of the Guides.

During the transfer of the first group, we were able to observe signals from the ships, confirming the presence of the guides and corroborating that the experience was on track.

While each group passed the Xendra, the rest of the brothers were in meditation and support for the experience. At the end of one of the exercises, they could see a heart of clouds formed in the sky, illuminated by the Moon.

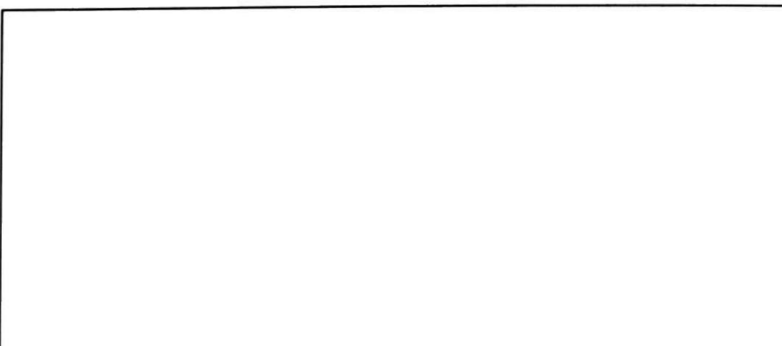

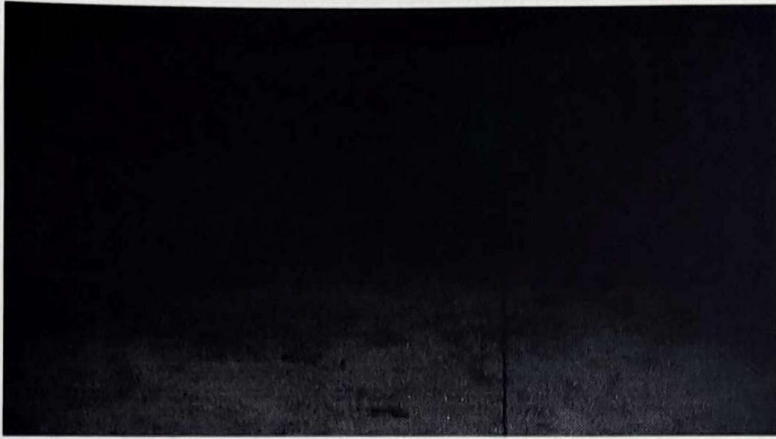

Photography Collambay 05-30-2015 09:48 PM. Heart in the sky when it was beginning to deform

After finishing the Xendra last group, it was possible to observe from the cameras a kind of energy as energy channels that flowed and moved inside the Xendra and diluting.

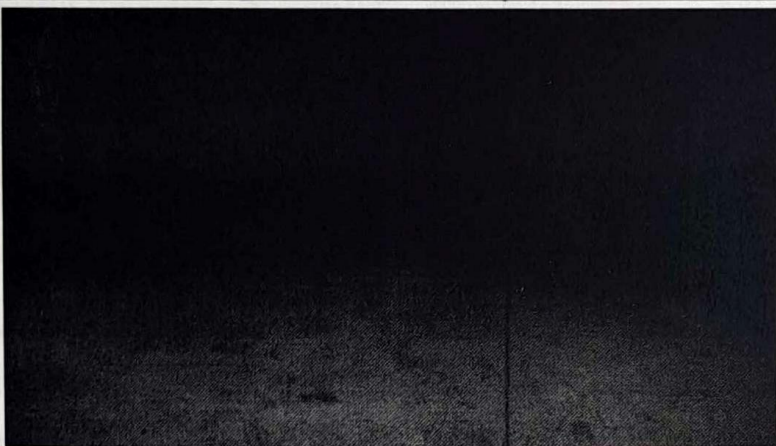

As we know the Xendra Gimbra 3-4 act at multidimensional levels connecting the person with experiences of astral, mental or spiritual, making it possible to have experiences at different levels, but also the person there can connect with these immersed realities within themselves same

We could observe in the cameras what appeared to be filaments, channels, energy tubes, tunnels, folds, which could act as connectors to other levels or other spaces or times. A technology controlled by the Elder Brothers.

Around 12 o'clock at night, motivated by the experience and filled with the energies that the Elder Brothers had shared with all of us, we prepared to radiate to our planet with Pink light and in which each and every one was expressing in words of gratitude your best wishes, feelings and thoughts for our Mother Earth.

Later we went to rest to our respective tents.

Collambay, Sunday May 31, 2015.

On the morning of May 31st, a practice was conducted regarding "creating your day" and as part of it, a capture of solar energy. It is important when getting up, creating thoughts and ideas in our minds that can make our daily life positive.

Photography Collambay 05-31-2015. Solar Energy Collection.

Afterwards, all of us gathered together as a group and vocalized our cosmic names. The polyphony of vibrations resonated in the place that prepared the environment to make a connection with the Internal Retreat of Collambay. With the creative visualization, we all form a golden door at the center of the meeting whereby each one, when opening it with the correct attitude, could enter, on the other side, the Retiro of the zone.

In my personal experience, I walked to the door, opened it and found some steps that descended. Someone was in front of me but I could not see who it was. I arrived at a place where there were 3 golden doors. As soon as I thought about opening the center door, a symbol appeared on the door and it was my companion who opened the door. I entered an environment that seemed ancient, but at the same time I noticed that there was a machine and screens on one of the walls in the center, as well as a large table or kind of glass bed of a beautiful emerald green color. stood out among everything.

My companion told me: You came here to show you how we do cures or healings. And suddenly I saw that a gate opened from the roof and another one of similar form descended on the green table, in such a way that the person to be cured, thrown on the first table, was between both crystal stones.

When the machine was turned on and supported by the screens, they could monitor the entire body of the person and the healing process was based on the disintegration

and molecular and atomic integration of the affected part, that is to say, a physical regeneration of said part of the body, starting from the original energy of the person.

I was taken to another room and I could see that the retreat, had environments with stone walls and many others with walls and floors of semi-transparent glass. In this new room and on a screen appeared the image of Jesus and they told me that it was He who had coordinated the experiences of the previous night and that it was important that everyone learn and know about the Jesus - Christ relationship.

Immediately I appeared in another environment where there was a great light of blue color that illuminated me and a voice that repeated: "Return full of this Light and Energy that you will share with the other brothers". It did not take long for me to become aware that I was sitting back in my initial position with a sense of Peace and Harmony.

We proceeded to make the closure of the exit with an irradiation to our planet, entering through a portal into the depths of our heart. There we went to a point of light pink and aware of the Presence of Christ and God in us we surround ourselves and wrapped in that energy and frequency of color rose out through the portal again outward and full of light we radiate to our planet blue enveloping of our best thoughts and feelings and channeling, through our palms of the hands directed towards Mother Earth, the Divine Energy and asking for Peace and Love between all and all. We surround the seas, the continents, the four kingdoms of nature with pink light. Right away to our relatives, friends, cities, etc. We knew that we were mentally and spiritually united with other brothers who were equally radiating to our world.

At the end we repeated the Great Invocation loudly and gave each other a big community hug.

Our minds and hearts still resonate with what has been lived and shared in this outing, in which cousin not only the energy union among all the brothers who participated in the departures of these last 2 days of May 2015, but also the union with the Extraterrestrial Guides and Masters of the White Brotherhood, in the presence of Deep Love.

Greetings to all brothers, thank you for sharing your experiences. I am writing from Las Vegas, Nevada to tell you that we have formed a group here as a result of Sixto Paz's last visit and we had an outing with him on 04/29/15. Their experiences encourage us a lot. We are preparing to receive Ricardo González in the month of September, working hard. Receive hugs of light from a distance. Love to all!

REPORT OF THE RAHMA WORLD MEETING**August 1 to 6, 2009**

Since the guides announced that a meeting should be held in Uruguay, I felt deeply the internal call to attend the meeting, and more confirms it, when my brother-in-law Alex Garcia tells me that I talk to Betty, Hugo and Darío from group 3333, and they accepted that it belonged to the same (organizing group of the event) and this is how our preparation began for more than a year through talks, seminars, meditations, etc.

As a group until the last moment we were dealing with everything that was done in the most simple and orderly possible, collaborating where we could be useful. Together with Jorge Martinez, we were in charge of the 3rd bus that left August 1 at 8.30. on the way to Punta Colorada, which made several stops along Avda. Gianastasio, where the brothers were from the United States, Chile, Spain, England, Peru, Treinta y Tres, Salinas, and Montevideo. When we arrived at destination our brother-in-law Alex was waiting for us, who with a very good disposition helped us to lower our luggage, since he had a lot of shelter, a tent and an extra sleeping envelope, which suited our beloved brother Quique very well. I did not have a tent. After installing ourselves we were called to the central tent by Sixto Paz and Darío Silva, to start working. On admission, it was controlled that each one had the corresponding identification with our data clearly visible for a better control of all the participants. It began to harmonize the place, to lower our internal nervousness, and as we did not have a specific work itinerary, it was developed with the collaboration and participation of all the program, taking into account the guidelines given by our older brothers to through the messages received, eg: reprogramming the water of seas and oceans, irradiation to the animals, work with the 4 elements, irradiation to relatives, governors, meditations, psychophysical exercises, and updating of important topics such as the cosmic plan. We retired to rest since our work the next day would begin at 8 am.

On Sunday 2, I did not wake up very well because I did not rest because of the noises, the sea seemed to be angry as the awning of the tent to a very loud noise due to the wind, and I dreamed sad things, from my childhood. I woke up it was about 10 o'clock and I had tea and I thought I'd go to the sea and mantralis ar rahma, because the day before we had mantralised but not that specifically. I leave the tent and I see that all the brothers go to the sea to do a job with the water and the girls tell us to mantralize mos rahma and the men love. Finished the work we approach the sea and I feel like the elementals welcome us, act then gone a wave came and to 2 or 3 we mojo

In the afternoon a conversation about the Cosmic Plan, with questions from the assistants and our beloved brother Sixto P az, answer each question transmitting the exact information, at a certain moment mention is made about the location of the solar disks in America and brother Panchito provides the specific details that the place must have physically, to ensure that the aforementioned discs are found, because apparently there would be a lack of confirmation from siblings who, in excess of enthusiasm or lack of confirmations, would not have said the right thing, which generated a Little uneasiness on the part of some brothers.

It was there when I understood the meaning of the message I had stored in a folder inside the tent, and that he had received it on July 8, and as we know it is essential the confirmation of the same, Only then did I understand and value the information it contained. How good! I thought this is the confirmation, now came the other stage to get to Sixto, but every time I saw it, in the 2 or 3 "recesses" that we had during the day, he was always busy with people asking him questions, getting to him to show him the message was an odyssey.

In any case, I did not feel very well inwardly, I felt very tired, weird, until Brother Rubén from the Dominican Republic made a meditation on forgiveness, which freed me from many anguishes and sorrows of my childhood, my adolescence, and I understood how important it is to forgive and accept us, I cried a lot and I freed myself emotionally, we all greeted each other by giving us peace from the heart, from that moment I relieved myself internally.

It dawned on Monday the third day of the meeting and after doing the psychophysical work we went to the rocks to meditate and listened attentively to the experiences shared by the brothers of Peru. I was always told I have to show the message to Sixto and he was always surrounded by people, until I said I will not have to show it to him? Or will it be that I created that barrier that prevented me from reaching it? Caramba Patricia, why are you so afraid, I was wondering, but to tell you is good or bad is not it going to be?

Suddenly I meet Quique and he asks me

- *What's wrong, duck? -*

- Nothing, I just want to show this message to Sixto but he's always busy .

- *Haber* - and he reads it carefully, and he tells me: it 's *very good ! Let me give it to him, he will be happy.*

Va Quique gives him the message, and Sixto begins to read it, I approach him and with a breathy voice I comment if he authorized me to read it if it seemed right?

And he answers me :

- *Yes , your message is excellent , then when we do the conversation, read it .*

And I was grateful that the previous year he told me , that I should demand more, in order to receive well the messages that the guides transmit to us.

Really the joy that I felt It was very big. We soon see the we look towards the sea that begins to form the Xendra G imbra , the mist covers us completely while we form in concentric circles to carry out a work , directed radiation by the sisters using the feminine energy of the different colors . At that moment I visualize On my mental screen, a large white flower consisting of many petals, and colors that descended from the sky, then we took pictures of the whole group, by countries, etc.

We went to the big tent and began to perform different irradiation works, some messages received from the brothers were read , and at a certain moment Sixto (like a father) looks at me and says if he had something to share, and I read the message received on July 8 from the Oxalc and Godar guides, I think I had a lot of assistance from above because the ho was trembling, but the voice was not. Later, many brothers approached me and congratulated me for the message, but sincerely I felt very happy for the content of it, and for the trust that the Elder Brothers deposited in transmitting it to me.

Place: Union - Montevideo

Antenna: Lupiac

Dear brothers of Mission:

Punta Colorada will be the scene of great contacts at all levels, through internal dialogue and with delegations of brothers who assist with the commitment to seal the union of the earth and the cosmos, with the collective necessary for the union and reprogramming of the water of seas and oceans through the encounter of the Spiritual Hierarchies and the Missionaries of Light, walking through the tunnel that we will activate in the place.

Commitment lived and remembered by all the missionaries, we tell you to go united in peace of heart, because the key is your interior and your cosmic name, and the contact will be and will be.

Uruguay and the universe will unite as links that unite the portal towards a new humanity.

Walkers of life, that you managed to experience in light, in truth and in loyalty, towards Tell Elam, the first elder who sought and found, his missionaries who committed their lives to the plan, you will remember that moment, when love in walking is activated in you.

Concurrir with joy, harmony and everything will be given, because the moment has arrived and so it will be.

The snares will see them and you will join to block and forgive, we will be working together for the Plan, we wait for your actions.

With love Oxalc and Godar.

Tuesday, August 4

On the following day, Tuesday 4, it is recommended to have a liquid fast , on my part I had started it on Monday, to reactivate my crystals, which I thought would be opportune to relive that experience.

In the solar meditation I visualize as entrance to a tunnel and I am going through it at great speed until I reach the twelve dimension, a bright white light and a face of a beautiful baby that tells me that he is happy and well.

If we are your brothers guides:

Your awakening in the correct attitude connects you with your inner being, and is in another reality, valid to share knowledge to humanity, through the Greater Plan of the Heavenly Father, which integrates all the Hierarchies of Light.

Go to the sea, to enter another reality, and our knowledge will be imparted with all those who are committed to the plan through inter-dimensional contact.

Oxalc and Antarel will guide you to let yourselves go, since your love will open the doors between the dimensions and will be in contact with the Masters of Light.

Trust everything will happen in this place where the dimensional lines join the portal.

We are all here in this precise place because of the plan.

With love Anitac and Soloviac

This symbol would mean, according to the understanding, the different stages that we travel within our spiritual mission. If you look closely at what is inside the roads, they are trees.

Light source

1st Xendra

In the first selection of 12 people we entered the Xendra, since I was selected in the first stage (I suppose that because of the height), we placed ourselves almost on the seashore and told us that we used our cosmic name, suddenly I heard a firm and reassuring voice that tells me:

- I'm Oxalc, I'm in front of you .

but if I tried to be calm my heart beat very strongly, suddenly I think that it irradiated me, because I felt a lot of peace, which allowed me to be able to communicate telepathically with him. Instantly I feel in my mind that he says:

- ***The messages must be shared, read and apply their teachings .***

I feel a slight pressure between the eyebrows and activate in my mind phrases of some received communications, corroborating the veracity of them:

- ***The place assigned by the high Hierarchies of Light, is near the beach, because this country has an important mission for the world in terms of being an example of life in peace and honesty,***

- ***The White Brotherhood and the Andromeda 9 are waiting and evaluating your attitude at all times***

....

- ***Telepathy is and will be the language to be used to increase that faculty, ... etc.***

Then he visualized the ground as a dummy and I started to get up by entering through a tunnel of acrylic and I feel that they transmit me telepathically :

- ***Continuing with the preparation, you will travel to Crystal City***

I instantly see Betty Rodao, who takes a path, and I try to follow her, as they looked like three corridors, and I ask *Where should I enter?*

And he answers me : - ***You , guide yourself by what your heart says .***

I feel Master Joaquin, that also tells me telepathically, to continue the fast and I stayed calm.

Then Sixto calls us back and I thank God for the opportunity to have lived this experience, we go back and he places us on the sides of the Xendra door and we continue mantrali s an do , firm and safe so that everyone can live the experience and no one feels left out , and so our guide Brother Tell. He selected the people interspersed by the color of his aura.

I do not really see the guides but I felt their presence telepathically , telling me to continue with my preparation. So much so that I address Betty and told her what she had experienced and she told me:

- ***The Seniors also invited me to make a trip to Morlen .***

Later we all went to the tent and shared with great joy the entrance of all the brothers to the Xendra, and some experiences were commented. But what caused me "grace" was when Sixto comments very excited, they saw despite the messages saying that 12 people would enter, because we entered everything , applause and we were happy. And there it was complicated because I had another message received on June 19, which said that everyone would enter the Xendra, and that each one would receive the information according to their preparation ... etc. go again what do I do? again my odyssey, I thought . But this time it was easier because I realized that I was the one who did not reach Sixto, out of fear or any silly reason, because he is always there to advise us and guide us through his vast experience and patience. I think that even if we try, the guides help us a lot, so on Wednesday afternoon I give him the message, he reads it carefully and they know what he said:

- ***What proof of humility for me, can I keep it?*** Of course , I answered, and we went to join a group on the beach for dialogue on mission issues .

When we returned, we sat down and he told us that 12 people would enter the country and one representative for each country that they choose between all . Therefore, we that we were more than 100 brothers we should agree, with great joy and the maximum confidence to know that we would be very well represented, we unanimously elected our dear Betty.

Suddenly Sixto, with a firm voice, read the message he had delivered to him in the afternoon , making an exhaustive analysis of it.

Meeting Punta Colorada?

If we are your brother guides in contact:

Punta Colorada summons you to August to all that brother Rahma, who with his personal effort feels in his heart the commitment to be in that place. We will be living together a process of maximum internalization, assessing at every moment your internal work, knowing each virtue, then with love and forgiveness achieve the vibration that is expected, to reverse the events that the opposition encouraged in the place.

It is convenient that the entire group of Uruguay make their way out, to get to know each other thoroughly since the unit will be in the bonds that they achieve through friendship.

As you know, the contact is with you, between you and with us.

We expect more commitment and delivery from you, they are the host country must achieve more unity.

At Xendra everyone must pass, but each one will receive part of the information, commit to you and physical contact will be given to those who are old when walking, Oxalc will guide you to the door that you will activate and enter.

Transcendental changes will occur for Uruguay and Humanity , trust you will see.

*... Your awakening is accelerated and your mind will remember everything experienced in the process of evolving, telepathy is and will be the language to use, increase that faculty, xendra, dimensional contact, activation of the interior light, water reprogramming and delivery of the Book of Humanity.
Do not hesitate since they achieved it.*

With love through the light of the Deep. Your Brother Mission Guides.

Once the reading is finished , He orders us to do a silent fast for one hour.

I sit on a dune looking at the sea and feel the guides of Venus again, and they say to me: "open your eyes" and I see over the sea a ship which begins to move, from left to right, up and down, made which a sister also confirms the movement the next day. Suddenly excited eyes closed and I see that I integrate a protection (as I understood) with a heart shape, dorado on the edge and inside as transparent glass, I suppose it will be to reactivate my cesium crystals .

Back Sixto announces that the plans were changed and that because some countries did not agree to select a representative and how the messages of the guides endorsed what Tell Elam decided, he decided that 12 Uruguayan women would enter, and there I realized how much reason the guides had because at the last moment everything could vary, I just have to trust. Then we all give ourselves peace and retire to rest.

At 3.30 we were all up and approached where the brothers from Puerto Rico were and we began to sing OM CRISTO OM, but with a happy and contagious rhythm which I thought was familiar although it was the first time I sang it , the atmosphere was different of joy and emotion, that's how I felt it and going up the sand path we arrived at the place to make crystal reception, this was done with great harmony and support from our Elder Brothers .

We formed looking at the beach and Sixto started calling the 11 remaining women he had selected to enter the xendra.

Xendra of Early Morning

We enter the same mantralis and our cosmic name, I only visualize Sixto and Darío on a beach in broad daylight (noon) and just that, which I felt surprised: I'm going to enter a xendra to see Sixto and D ario ???

Suddenly I feel like they tell me:

- *Q uédate tran q ui la, soon you will know?*

We appreciate and Sixto calls us.

We greet each other and we are told this was an essay, that in the morning it would be stronger, that we go to rest.

The brothers ask me and how did it go? Did you see something? And I answer , not only do I have to rest and trust, I turned around and fell asleep.

At 8 o'clock in the morning I feel the need to get up , I was strange and I go to the big tent, I meet Marcia, sister of the group that entered the xendra and she says:

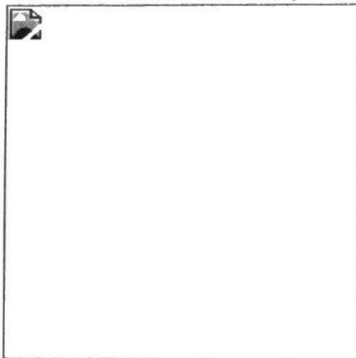

- I do not feel like being anywhere, we're going to the beach?

We both went quietly in silence feeling the place, the sea, the sun, the sand, etc.

I start doing slow and deep inhalations, placing myself in front of a mound of rocks that jutted out, looking out to sea.

And I began to radiate the place, feeling like from my glasses I sent a lot of energy of love, of gratitude, of commitment, on behalf of my brothers and sisters of mission, and also of humanity, and I continue to thank, concentrating on my work excited but sure that I was doing and giving my best, and I begin to visualize how it is

projected to the sky, from the horizon of the sea , the outline of Uruguay in golden color and in its American

interior , for several times.

To open my eyes a little bird perches on the sand, I feel they tell me:

- ***The bird is indicating where they should be placed to enter the portal .***

The little bird perches on the sand , facing my right to the west and jump sideways approx. 4 meters , To my left to the east, he stops and takes off and leaves .

I was so excited and grateful that I tell them out loud, Thank you Brothers for this opportunity, from the sea you feel mantralis a r , *rahma - om* Y I visualize as it is forming in the sea, a ladder that ascends up to the 12th dimension , and begin to form silhouettes on the horizon of the High Hierarchies, this is how I perceived it.

And they tell me:

- ***12 women entered, everything was already arranged, each one representing a virtue: strength, courage, love, loyalty, understanding, sweetness, joy, kindness, rectitude, patience, perseverance, and will, together they managed to open the portal to ascend to the Spiritual Universe where the Celestial Father dwells .***

- ***We are all happy have managed to open the door to the spiritual realm and we are all here , Sampiac, Rumilac, Titinac, Oxalc, Joaquin Alcir, etc.***

As I perceived it was a great event of joy and happiness, so I commented to them telepathically , but I never visualized them? And suddenly, mentally, I see how each one appears to me smiling , the smile was the same as the face that is in the book of the Instructor of the New Time.

Suddenly I am transported to a place and wonder where I am ? and they answer:

- ***Go and do what you have to do, you are in HUNAB KU and floating visualize each letter appearing***

like this **hu n AB xu**

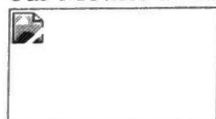

I was amazed by the place, try to visualize the color is but it was a very strange mixture of red, orange, and violet, lemon green, and I do not remember what I did. I know that when they return, they tell me to open my eyes, turn to my left, and look at our Sun, which I do and I begin to recite these words:

" Thank you father sun for the light you give us every day,

" Thank you father sun because you give life,

" Thank you Father Sun for your light , which guides us.

Suddenly I feel that I reach the center of the sun and I must close some large "metallic" boxes always singing and thanking them for their light , so I understood these boxes closed , the S o would not emit harmful light for our Mother Earth

When I finish closing all the "boxes", they tell me:

- ***You did what was expected of you Lupiac, see calm that everything is already soon.***

Then I feel the cries of my companions to disarm the tent .

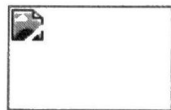

Without telling anyone, half how I could keep my belongings in my bags, I did not feel like mentioning a word, because everything I had lived was very strong, but I felt safe, calm, confident, and very happy. In less than half

an hour Sixto calls us all to the beach, to enter again to the xendra, to listen to it leave everything as it was and run away to locate me in the 6th place in front of the stone , as the guides indicated me , and walking we went all the way to the indicated place (which marked the bird) mantra lis my name .

As soon as we enter, we start a city with a very wide and cobblestone street. They also show me images of a place that looks like metal tubular on the floor and has holes where steam comes out, then the funds show me a place where is the headquarters of the 24 Elders of the Galaxy .

We went to the place and felt the presence of the Masters , welcoming us .

Beside me the teacher Joaquin indicates with his hand that I look and see a rectangular table like wood and above it the following:

Then I feel that he gently invites me to come on, I do not know who was guiding me, but he tells me he's still there.

Suddenly without realizing it I am in front of the Master Jesus, and he says:

- Come, come here ...

Although it seems strange, the only thing I said was : Gracias Master, but I do not deserve to be here .

And with a very sweet smile he looks at me, he raises his hands and shows me the planet earth, then he passes his hands and transforms into a heart and passes his hand again and transforms into a shining star of light, which offers and tells me:

- This light vibrates and shines in every heart committed to this Sacred Mission .

- Go and tell them : Let them speak and act from the heart, to achieve Christification .

Then they show me desolate cities, the Andes mountain range (which is the backbone of America); 7 women mantralizing am - on activating the Paititi disc; the accelerator of adrones ,.

Next, Sixto, starts telling us to thank in the name of the entire Mission Rahma to the Elder Brothers, to the Masters , to the Master Jesus and to the Profound Love of the Cosmic Consciousness , the support given in this Meeting and the opportunity to live is a wonderful experience.

When all the sisters left, we turned, and we went arm to arm, joining in a circle like links, we surround Sixtus, and we share with all the brothers, our love and that wonderful energy that we brought from the X endra.

Thank you with all my heart for sharing this synthesis of the six most wonderful days of my life, sorry but it is the first time I make a report and I can not find the right words to express my gratitude and my feelings.

From Uruguay I send a big hug to all the brothers of the Universe.

Song of Light in the Fifth City

*Stay elevated, raise yourself more ,
and radiate the light
that already flows in you.*

*Do it through living love, that is ,
universal, fraternal and sincere.*

*Protect the life that is in you and around you,
and they will go in harmony radiating, radiating,
through the crystal of perfection.*

That perfect love, which is loyal; who is faithful; what is true ...

*Each time the tests will find them stronger, more united, more mature, wiser ; for that reason ,
you are expected of the just action, the right action, the decisive action.*

*Because everything is light in the fifth city,
at inner dimensional body , where dwells the soul*

*Complete a city integrating and integrating into the Major Plan
Remember what was it that summoned you ? Was not love?*

*Feel that truth , that can not confuse you ,
neither in the heart , nor in the feeling.*

*Missionaries of Light who forged their walk,
walk without fear through tunnels of darkness,
and to which the interior light opens in its path,
awakened in you with effort and determination .*

*And they will seal, not without effort ,
the union of the planet,
in the Luz del Profundo that is in your heart .
Irradien light, radiate, radiate*
