

For 20 years, Dr. Hynek was scientific consultant to the Air Force on UFO's. Coupled with his service as Associate Director of the Smithsonian Astrophysical Observatory and as head of the NASA satellite tracking program, he is considered by many as the world's most renowned scientific authority on the subject of UFO's.

Air Force Puzzled!

After 20 years of investigation of more than 13,000 UFO sightings and encounters, the Air Force found that a highly significant number could not be explained. These cases remain, even today, as baffling enigmas that defy the laws of science and logic.

You Can Help Science Find the Answer

By subscribing to the **International UFO Reporter**, you can help finance the work of Dr. Hynek and other serious scientists in their quest for the truth about UFO's.

With the **International UFO Reporter**, you get:

- "Hot-off-the-wire" UFO reports received directly from 7,000 reporting stations across the country.
- A monthly round-up of reports from police, pilots, air traffic controllers and qualified scientists.
- UFO news from around the world including research into the UFO mystery from Europe, Asia, South America, Australia and Africa.
- Authenticated facts about each UFO case published and critical evaluation of the evidence by experts from around the globe.
- Assurance that each case will be examined and analyzed by qualified scientists and experts in the field.

Accuracy — Reliability

To assure accuracy and reliability, and to avoid the sensational and imaginative approach often associated with UFO sightings, editorial control is in the hands of Dr. Hynek, founder and scientific director of the Center for UFO Studies.
