Dear Mrs. Swan,

I have written to you to hopefully obtain some material from you related to your contacts with the "good ones" or as the Canadians described "The Boys Topside."

I am an investigator of the work of the late Wilbert B. Smith who took a strong interest in the messages you were receiving. I have talked to Mrs. Smith, Art Bridge, Buck Buchanan and others who accompanied Mrs. Smith on his trips to see you. However, because they were all government employees, they were restricted in what they were able to say.

Once I became interested in your case, I was able to obtain statements and quotes about your contacts from Mr. & Mrs. Knowles, and Senator Margaret Chase Smith. - she refused to talk to me.

I realize that you sought no publicity of your contacts, but I hope you can provide me some information on the history of your contacts. I am very interested!

The areas that most interest me are the following:

① Contacts with AFSA which Mr. Smith talked about a great deal. Did these and with Mr. Smiths untimely death? Is AFSA still around? I don't know.

② The difference between the "good ones" and the "evil ones"? Are there differences in the way they look? works for God - good ones were for the Devil.

③ I understood the govt took an interest in your contacts. Is this true? yes & no - two many of my friends have the Bible. I think they were more than I was - so the govt & I made sure to keep it all.

I have worked on Mr. Smith's work for many years and have heard your name mentioned in many conversations. Good friends

Therefore I hope you will take some time & tell me your side of the story.

I realize that there are some aspects you might not wish to talk about, but I do hope you will tell me what you can. I am very interested in the messages you received, and have not been able to obtain enough talking & others. It is for this reason I have written you.

Enclosed find \$1.00 to cover your postage.

Best Wishes

Erant Cameron

Sorry you are way back on this - messages I burned because there were people around that I was just someone for entertainment etc. & calling me to see their friends. AFSA did not ask any of them - they were always asking me to ask them. It is working for God not my so-called friends that took a lot of time.
