Navy

Collins, Emenegger, and Moore have been working together since 1981.

Howe says Navy Intelligence and AEC were "dumps" for UFO data in the late 1940's. This is interesting in light of Walker's close connection to both.

Howe states the "Falcon" had mentioned Kissinger a member of MJ-12.

Howe was told by Doty there are four keys "Navy Intelligence, NSA, CIA, and DARPA".

I am sending Linda Howe and Lear JASON and IDA names for possible UFO connections.
