Ottawa, Ont. K2C 2H8

Dear Arthur,

Thank you for your letter of confirmation dated 20th. Nov. I am sure we can make this a "classic", not only for MUFON but also for scientific research in Canada.

The Mutual UFO Network, Inc. or the associated United Friends of Ontario who are hosting this Symposium, can make no commitment at this time regarding your expenditures. We do hope and anticipate covering reasonable, personal costs for meals and accommodations for two (2) nights while staying at the Loews Westbury Hotel.

The usual press conference is proposed for the afternoon of July 2nd. followed by a social get-together later that evening with presentation of your formal address on Saturday, July 3rd.

Within the very near future please send to P.O. Box 54 the title of your paper, an updated biography for promotional purposes and your audio/visual requirements. Please keep in mind that Westbury Hall is 33 by 12 meters (110 by 40 ft.) which will be somewhat difficult, for people sitting in the rear rows, to observe the small lettering or graphs of normal slides.

Your decision to expand on the topic of professionalism in UFOlogy is an excellent one. During a recent phone conversation with Allen Hynek on progress of the Symposium I mentioned your subject of address. He was most pleased to hear of your intent to expound on such a theme. Dr. Hynek plans to attend and in collaboration with Dr. George and Iris Owen are preparing a paper also.

Within the very near future please send to P.O. Box 54 and to Stanton Friedman any ideas you may have or possible future arrangements to promote this event in the
