Dr. J. Allen Hynek,
Director,
Center for UFO Studies,
P.O. Box 11,
Northfield, Ill.,
U.S.A.

Dear Dr. Hynek:

For a number of years I have been very curious about the so-called "meteor train" which crossed North America on the night of February 9, 1913.

I have never been satisfied that this display was in fact meteors due to their strange behaviour. Canadian astronomers have not succeeded in convincing me of the meteoric nature of these objects and it is for this reason that I seek your opinion of this event.

Attached is a copy of my observations on this strange event and I will be most grateful for your considered opinion on this matter.

I would like to add that I have been invited to speak to the Toronto Society for Psychical Research on May 7th, along with yourself. I consider it an honour to appear with you and I look forward to seeing you again at that time.

Yours sincerely,

Arthur Bray.
