Dear Mr. Bray

Project S.U.M. UFO Research, of Canada, is proposing CUFOREN, the Canadian UFO Report Exchange Network, the first of its kind in Canada.

CUFOREN will be basically a conglomeration of the various UFO research groups and individuals in Canada. These various researchers will be involved in their own normal business of investigating and researching, however when one of these researchers receives and investigates a report worth merit, it is compiled and forwarded to the other members of CUFOREN.

In this way, there will be for once in Canada, a circulation of UFO reports thus enabling better research. Also, it will bring together the many groups and individuals in Canada researching UFOs and enable them to understand each other better in order to better the UFO research in Canada.

If you have any questions concerning CUFOREN, please write. We look forward to your cooperation.

Sincerely,

Brian Woodrow

Brian Woodrow,
Co-ordinating Director,
CUFOREN
