File Référence 45-1-101

February 4, 1974.

Mr. Arthur Bray,
1187 Agincourt Road,
Ottawa, Ontario.
K2C 2H8

Dear Mr. Bray:

Your inquiry about UFO investigations by the Canadian government has been forwarded to me by Information Canada.

Since the National Research Council was given in 1968 the responsibility for receiving UFO reports, our Meteor Centre in the Upper Atmosphere Research Section has maintained a complete file and card index system of these reports which are open to public inspection. As a several times visitor to inspect our files, you will be aware of our procedures and the contents of the files. I cannot add anything further to what you already know at first hand.

Yours truly.

A.G. McNamara,
Head,
Upper Atmosphere Research Section.
