Dr. Peter M. Millman,
Head, Upper Atmosphere Research Section,
Radio & Electrical Engineering Division,
National Research Council,
Montreal Road,
Ottawa 7, Ontario.

Dear Dr. Millman:

A year ago, I submitted a brief to the Senate Committee on Science Policy, titled "Science, Society and the UFO". As far as I know, this was the only brief submitted to that Committee on the subject of UFOs.

My brief was published by the Queen's Printer about ten days ago. You will no doubt receive a copy through NRC, if you have not already, but I wanted you to have a personal copy in any event so I am sending you one by separate mail.

This brief presents the UFO situation to February 1969, as I see it. As I hope that you and I may continue to keep in close touch regarding UFOs, I would be very interested in hearing whether my views and opinions as expressed in the brief are in any way in conflict with yours.

I am indebted to you for certain items of information in the brief, particularly with respect to Project Magnet, and the role of NRC in investigations..

Yours sincerely,

Arthur Bray
