

4. To encourage research by providing a publishing source of selected, refereed, technical papers.

5. To promote a general public understanding of the UFO phenomenon by providing reliable information, including the material for sale in this catalog, and speakers for public meetings and organized groups. The CENTER also maintains a research library in its offices.

6. To publish a quarterly Bulletin of research and discussion on aspects of the study of UFOs.

7. To cooperate in the publication of a monthly newsletter of current UFO sighting investigations and other relevant matters--the International UFO Reporter.

8. To seek contributions of funds, talent and facilities for the above purposes, from those who are similarly interested in discovering the nature and significance of this increasingly important scientific and sociological phenomenon.

FROM OTHER SOURCES

REPORT ON A SURVEY OF THE MEMBERSHIP OF THE AMERICAN ASTRONOMICAL SOCIETY CONCERNING THE UFO PROBLEM, P. A. Sturrock. Institute for Plasma Research, Stanford University; Stanford, CA 94305; SUIPR Report No. 681, \$5.00. (January 1977, 202 pages)

When 2611 questionnaires were mailed to members of the American Astronomical Society, half were returned. Of those, 53% answered that the UFO problem deserved scientific study (either certainly or probably); "62 respondents had witnessed or obtained an instrumental record of an event they could not identify and which they thought might be related to the UFO phenomenon." The report contains an analysis of the replies and some of the responses themselves.
