Mr. Leonard Stringfield  
Director of Public Relations  
and Marketing Service  
4412 Grove Avenue  
Cincinnati, Ohio 45227

Dear Mr. Stringfield:

Lets get this whole UFO thing straight as far as my relationship to it is concerned. Many years ago, more than I can remember someone asked me if I believed in UFOs. I said that I neither believed in them nor disbelieved in them because I felt that with the billions of planets in our universe there had to be at least one other on which lived creatures that could accomplish things with their brains or whatever they used as brains. I have never seen a UFO, I've never had a personal friend that's seen them, although I've read accounts of reputable pilots who have seen what they described as UFOs. That was about the extent of my statement on UFOs, but since then -- and that was a long time ago -- I made an effort to get in the room at Wright-Patterson Field where the information was stored and I was denied this request, understandably. Frankly, I'm no expert on this subject, I've never made lengthy statements on it. What I've told you just about sums it up.

N.T.C.

Sincerely,

*Barry Goldwater*
