Dear Mr. Bray,
Thank you for responding to our original letter and I am very sorry for the delay in responding.

Both Robert and I are well aware of the other Canadians who in the past (and presently) attempted to establish some sort of unified Canadian effort. In a way were no different then all the others. However, we both feel (after discussing our resources with Dr. Hynek) that it would be a great service to the whole area of UFOs - to create a center base for Canadian UFO information. As far as I'm concerned ~~XXX~~ presently established Canadian groups are all provincially minded. And there is so much Canadian data that even Dr. Hynek can't handle it. I don't mean that we are the Saviours - but individuals seriously interested in educating the public as well as other research on the Canadian UFO scene. It is a known fact that the UFO does not respect national borders - However if each nation would study & investigate the reports in their country-then submit it to CUPOS (this is what were trying to do), I think the quality of the reports would improve. Examples of this can be seen in many European countries but not in Canada/or the United States.

I could go on for pages expressing what needs or what doesn't need to be done in respect to the subject of UFOs. Even the Canadian UFO Report does not publish enough Canadian content and I don't think there's a shortage of information.
